One for All Lillie Lainoff,2022-03-08 "There are no limits to the will—and the strength—of this unique female hero." —Tamora Pierce, writer of the Song of the Lioness and the Protector of the Small quartets One for All is a gender-bent retelling of The Three Musketeers, in which a girl with a chronic illness trains as a Musketeer and uncovers secrets, sisterhood, and self-love. Tania de Batz is most herself with a sword in her hand. Everyone thinks her near-constant dizziness makes her weak, nothing but "a sick girl." But Tania wants to be strong, independent, a fencer like her father—a former Musketeer and her greatest champion. Then Papa is brutally, mysteriously murdered. His dying wish? For Tania to attend finishing school. But L'Académie des Mariées, Tania realizes, is no finishing school. It's a secret training ground for new Musketeers: women who are socialites on the surface, but strap daggers under their skirts, seduce men into giving up dangerous secrets, and protect France from downfall. And they don't shy away from a sword fight. With her newfound sisters at her side, Tania feels that she has a purpose, that she belongs. But then she meets Étienne, her target in uncovering a potential assassination plot. He's kind, charming—and might have information about what really happened to her father. Torn between duty and dizzying emotion, Tania will have to decide where her loyalties lie...or risk losing everything she's ever wanted. Lillie Lainoff's debut novel is a fierce, whirlwind adventure about the depth of found family, the strength that goes beyond the body, and the determination it takes to fight for what you love. Includes an author's note about her personal experience with Postural Orthostatic Tachycardia Syndrome.

**Furiously Happy** Jenny Lawson,2015-09-22 In *Furiously Happy*, #1 New York Times bestselling author Jenny Lawson explores her lifelong battle with mental illness. A hysterical, ridiculous book about crippling depression and anxiety? That sounds like a terrible idea. But terrible ideas are what Jenny does best. As Jenny says: Some people might think that being 'furiously happy' is just an excuse to be stupid and irresponsible and invite a herd of kangaroos over to your house without telling your husband first because you suspect he would say no since he's never particularly liked kangaroos. And that would be ridiculous because no one would invite a herd of kangaroos into their house. Two is the limit. I speak from personal experience. My husband says that none is the new limit. I say he should have been clearer about that before I rented all those kangaroos. Most of my favorite people are dangerously fucked-up but you'd never guess because we've learned to bare it so honestly that it becomes the new normal. Like John Hughes wrote in *The Breakfast Club*, 'We're all pretty bizarre. Some of us are just better at hiding it.' Except go back and cross out the word 'hiding.' *Furiously Happy* is about taking those moments when things are fine and making them amazing, because those moments are what make us who we are, and they're the same moments we take into battle with us when our brains declare war on our very existence. It's the difference between surviving life and living life. It's the difference between taking a shower and teaching your monkey butler how to shampoo your hair. It's the difference between being sane and being furiously happy. Lawson is beloved around the

world for her inimitable humor and honesty, and in *Furiously Happy*, she is at her snort-inducing funniest. This is a book about embracing everything that makes us who we are - the beautiful and the flawed - and then using it to find joy in fantastic and outrageous ways. Because as Jenny's mom says, Maybe 'crazy' isn't so bad after all. Sometimes crazy is just right.

*Out Of Control* Kevin Kelly,2009-04-30 *Out of Control* chronicles the dawn of a new era in which the machines and systems that drive our economy are so complex and autonomous as to be indistinguishable from living things.

**Tantras** Scott Ciencin,2011-12-13 This title is the second in the popular Avatar series. At the time of its original release, this series presented key events that impacted the entire Forgotten Realms world, and the effects of those events are still felt in current novels. This re-released series will have a cohesive cover design and all-new art. This title was originally released underneath the author pseudonym Richard Awlinson. Heroes Stand Trial! When Elminster, the Old Sage of Shadowdale, is apparently slain, Midnight and Adon stand trial for his murder. When Bane, god of murder, and his allies seek the lost Tablets of Fate, a slender dark-haired woman is all that stands between Faerûn and disaster. When a friend betrays them, Midnight and her companions can trust no one.

**Hollywood's Lost Backlot** Steven Bingen,2018-12-01 Hollywood is a transitory place. Stars and studios rise and fall. Genres and careers wax and wane. Movies and movie moguls and movie makers and movie palaces are acclaimed and patronized and loved and beloved, and then forgotten. And yet... And yet one place in Southern California, built in the 1920s by (allegedly murdered) producer Thomas Ince, acquired by Cecil B. DeMille, now occupied by Amazon.com, has been the home for hundreds of the most iconic and legendary films and television shows in the world for a remarkable and star-studded fifty years. This bizarre, magical place was the location for Tara in *Gone with The Wind*, the home of King Kong and Superman, of Tarzan and Batman, of the Green Hornet, of Elliot Ness, of Barney Fife, of Tarzan, of Rebecca, of *Citizen Kane*, of Hogan's Heroes and Gomer Pyle, of Lasse, of *A Star is Born* and *Star Trek*, and at least twice, of Jesus Christ. For decades, every conceivable star in Hollywood, from Clark Gable to Warren Beatty, worked and loved and gave indelible performances on the site. And yet, today, it is completely forgotten. Pretty much anyone alive today, from college professors to longshoremen, have probably heard of Paramount and of MGM, of Warner Bros. and of Universal, and of Disney and Fox and Columbia, but the place where many of these studio's beloved classics were minted is today as mysterious and unknowable as the sphinx. *Hollywood's Lost Backlot: 40 Acres of Glamour and Mystery* will, for the first time ever, unwind the colorful and convoluted threads that make for the tale of one of the most influential and photographed places in the world. A place which most have visited, at least on screen, and which has contributed significantly and unexpectedly to the world's popular culture, and yet which few people today, paradoxically, have ever heard of.

**In Patagonia** Bruce Chatwin, 2003-03-25 The masterpiece of travel writing that revolutionized the genre and made its author famous overnight An exhilarating look at a place that still retains the exotic mystery of a far-off, unseen land, Bruce Chatwin's exquisite account of his journey through Patagonia teems with evocative descriptions, remarkable bits of history, and unforgettable anecdotes. Fueled by an unmistakable lust for life and adventure and a singular gift for storytelling, Chatwin treks through "the uttermost part of the earth"—that stretch of land at the southern tip of South America, where bandits were once made welcome—in search of almost-forgotten legends, the descendants of Welsh immigrants, and the log cabin built by Butch Cassidy. An instant classic upon publication in 1977, *In Patagonia* is a masterpiece that has cast a long shadow upon the literary world. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. *The World Republic of Letters* Pascale Casanova,2004 The world of letters has always seemed a matter more of metaphor than of global reality. In this book, Pascale Casanova shows us the state of world literature behind the stylistic refinements--a world of letters relatively independent from economic and political realms, and in which language systems, aesthetic orders, and genres struggle for dominance. Rejecting facile talk of globalization, with its suggestion of a happy literary melting pot, Casanova exposes an emerging regime of inequality in the world of letters, where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts. Inspired by the writings of Fernand Braudel and Pierre Bourdieu, this ambitious book develops the first systematic model for understanding the production, circulation, and valuing of literature worldwide. Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters--the literary equivalent of the meridian at Greenwich. She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power. Within her overarching theory, Casanova locates three main periods in the genesis of world literature--Latin, French, and German--and closely examines three towering figures in the world republic of letters--Kafka, Joyce, and Faulkner. Her work provides a rich and surprising view of the political struggles of our modern world--one framed by sites of publication, circulation, translation, and efforts at literary annexation.

Friction Anna Lowenhaupt Tsing,2011-10-23 A wheel turns because of its encounter with the surface of the road; spinning in the air it goes nowhere. Rubbing two sticks together produces heat and light; one stick alone is just a stick. In both cases, it is friction that produces movement, action, effect. Challenging the widespread view that globalization invariably signifies a clash of cultures, anthropologist Anna Tsing here develops friction in its place as a metaphor for the diverse and conflicting social interactions that make up our contemporary world. She focuses on one particular zone of awkward engagement--the rainforests of Indonesia--where in the 1980s and the 1990s capitalist interests increasingly reshaped the landscape not so much through corporate design as through awkward chains of legal and illegal entrepreneurs that wrested the land from previous claimants, creating resources for distant markets. In response, environmental movements arose to defend the rainforests and the communities of people who live in them. Not confined to a village, a province, or a nation, the social drama of the Indonesian rainforest includes local and national environmentalists, international science, North American investors, advocates for Brazilian rubber tappers, UN funding agencies, mountaineers, village elders, and urban students, among others--all combining in unpredictable, messy misunderstandings, but misunderstandings that sometimes work out. Providing a portfolio of methods to study global interconnections, Tsing shows how curious and creative cultural differences are in the grip of worldly encounter, and how much is overlooked in contemporary

theories of the global.

**Sacred Natural Sites** Bas Verschuuren, Jeffrey McNeely, Gonzalo Oviedo, Robert Wild, 2012-06-25 Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats (India), Sagarmatha /Chomolongma (Mt Everest, Nepal, Tibet - and China), the Golden Mountains of Altai (Russia), Holy Island of Lindisfarne (UK) and the sacred lakes of the Niger Delta (Nigeria). The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.

**Gut Feelings** Gerd Gigerenzer, 2008-06-24 Why is split second decision-making superior to deliberation? Gut Feelings delivers the science behind Malcolm Gladwell's Blink. Reflection and reason are overrated, according to renowned psychologist Gerd Gigerenzer. Much better qualified to help us make decisions is the cognitive, emotional, and social repertoire we call intuition, a suite of gut feelings that have evolved over the millennia specifically for making decisions. Gladwell drew heavily on Gigerenzer's research. But Gigerenzer goes a step further by explaining just why our gut instincts are so often right. Intuition, it seems, is not some sort of mystical chemical reaction but a neurologically based behavior that evolved to ensure that we humans respond quickly when faced with a dilemma (BusinessWeek).

**Travels in central Asia** Ármin Vámbéry, 1864

**Waterdeep** Troy Denning, 2003 In the sequel to Showdown and Tantras, the gods seek the Tablets of Fate, while Cyric and Myrkul, god of death, plot to capture Midnight and use the Tablets for their own dark ends. Reprint.

**A Widow's Tale** Helen Mar Whitney, 2003-09 Volume 6, Life Writings of Frontier Women series. Few diaries, journals, and memoirs published have provided as rich and well rounded a window into their authors' lives and worlds as the diary of Helen Mar Kimball Whitney. Because it provides a rare account of the widely experienced situations and problems faced by widows, her record has relevance far beyond Mormon history.
