**English For Nursing Career: Students' Workbook** Hafizhatu Nadia, Yansyah, Dina Rafidiyah, 2021-10-25 Teaching English as a Foreign Language in Indonesia faces many obstacles. Firstly, English is not day to day used so the students have difficulty to practice it. They only use it in the limited time classroom, so teachers have difficulty to make authentic situation for the students to practice the language outside the class. Second obstacle is the students' bad experiences during their previous schooling in learning English. The students come from different school background; some

remote school may not have good teachers, especially in teaching English. Even some students have bad impression that make them hate English. The last thing is teachers still have problem to access updated book, journals, etc. to help them teach English better. This book is to help both teachers and students to enjoy the process of teaching and learning. Materials given are mostly authentic from internet or medication information. The authenticity of the material can give additional motivation for the students.

**Intercultural Communication Education and Research** Hamza R'boul,Fred

Dervin,2023-05-12 Seeking to uncover underlying epistemic invisibilities in generating intercultural communication education and research knowledge and to open up space for envisaging

interculturality alternatively, this book reexamines and problematizes the assumptions and ontologies in the conceptual systems of interculturality. In enunciating and critiquing what has been largely endorsed, normalized and taken for granted, this volume brings to the fore different, changing and situated understandings of intercultural ontologies and epistemologies in terms of premises, workings and objectives, unveiling the entangled factors and contexts that have delimited and circumscribed the realm. The authors believe that the field would benefit from some cognitive and sensory dissonance while reengaging effectively with notions to move forward. In particular, they endeavour to de-monumentalize and disrupt the very conceptual tenets that may have rendered interculturality myopic, repetitive, monolithic and aseptic in expanding the epistemic concerns of the “intercultural”, especially in the English language. This book will be an essential read for scholars and students of the sociology of education, educational philosophy and intercultural education and also for all readers interested in the broad field of interculturality.

Language Unlimited David Adger, 2019-08-29 Language Unlimited explores the many mysteries about our capacity for language and reveals the source of its endless creativity. All humans, but no other species, have the capacity to create and understand language. It provides structure to our thoughts, allowing us to plan, communicate, and create new ideas, without limit. Yet we have only finite experiences, and our languages have finite stores of words. Where does our linguistic creativity come from? How does the endless scope of language emerge from our limited selves? Drawing on research from neuroscience, psychology, and linguistics, David Adger takes the reader on a journey to the hidden structure behind all we say (or sign) and understand. Along the way you'll meet children who created language out of almost nothing, and find out how new languages emerge using structures found in languages spoken continents away. David Adger will show you how the more than

7000 languages in the world appear to obey the same deep scientific laws, how to invent a language that breaks these, and how our brains go crazy when we try to learn languages that just aren't possible. You'll discover why rats are better than we are at picking up certain language patterns, why apes are far worse at others, and how artificial intelligences, such as those behind Alexa and Siri, understand language in a very un-human way.

Supporting Pupils with EAL in the Primary Classroom Virginia Bower, 2017-07-16 Supporting

children with English as an additional language (EAL) requires detailed knowledge and understanding of their social, cognitive and linguistic needs. *Supporting Pupils with EAL in the Primary Classroom* highlights the fundamental principles that underpin teaching and learning, and examines practical strategies for classroom practice. The book focuses on the importance of recognising the knowledge, skills and experience that children with EAL bring to the classroom, whilst identifying the specific support required. It draws on evidence from an extended case study to illustrate essential points and combines this with an examination of relevant theory as well as how this translates to classroom practice. Key features of the book include:

- Core knowledge and skills about how to support children with EAL
- Case study scenarios to illustrate particular principles, pedagogies and practices
- Practical ideas for the classroom throughout

*Supporting Pupils with EAL in the Primary Classroom* is an invaluable text for those in teaching training, qualified teachers, senior managers in schools and those working in initial teacher education. The author writes about the demands of teaching EAL learners with commitment, knowledge and enthusiasm. She offers the reader insights and examples from her own research and classroom practice, beginning with a discussion of bilingualism and language learning, followed up by an exploration of the four skills and assessment in the classroom, as well as a chapter arguing for professional development and research informed teaching. In this chapter she stresses the importance of teachers finding innovative ways to enable EAL learners within the curriculum context. In the final chapter, drawing on the sociocultural framework that informs her work, the author discusses the challenges, constraints and possibilities for supporting EAL children in the wider contexts of pedagogy and policy. Throughout, there are case studies and examples, and the author writes with a sense of optimism that it is in the capacity of teachers to improve the classroom learning opportunities for EAL learners. Written in a personable and accessible style, this book offers

an informative foundation for teacher educators and professionals who want to learn more about working with EAL learners. Dr Charlotte Franson, formerly of Canterbury Christ Church University, UK As a teacher educator, I am often engaged in discussions around trainees' perceptions of the complexities of teaching children learning EAL. This book, rooted in practice based research provides an accessible and informative scaffold for those embarking on a career in teaching. The premise of the 'what' and 'how' is particularly useful and the sequence of chapters provides a well mapped journey for the reader, through the theory, practice and considerations of supporting children learning EAL. Exemplification, through the case study vignettes, poses reflective thinking points that can be readily applied to one's own practice. Overall, excellent practitioner guidance that both consolidates subject knowledge and provides realistic practice guidance. A title I will be heartily recommending to my students.
