**The Buddha in Lanna** Angela S. Chiu, 2017-03-31 For centuries, wherever Thai Buddhists have made their homes, statues of the Buddha have provided striking testament to the role of Buddhism in the lives of the people. *The Buddha in Lanna* offers the first in-depth historical study of the Thai tradition of donation of Buddha statues. Drawing on palm-leaf manuscripts and inscriptions, many never previously translated into English, the book reveals the key roles that Thai Buddha images have played in the social and economic worlds of their makers and devotees from the fifteenth to twentieth centuries. Author Angela Chiu introduces stories from chronicles, histories, and legends written by monks in Lanna, a region centered in today's northern Thailand. By examining the stories' themes, structures, and motifs, she illuminates the complex conceptual and material aspects of Buddha images that influenced their functions in Lanna society. Buddha images were depicted as social agents and mediators, the focal points of pan-regional political-religious lineages and rivalries, indeed, as the very generators of history itself. In the chronicles, Buddha images also unified the Buddha with the northern Thai landscape, thereby integrating Buddhist and local conceptions of place. By comparing Thai Buddha statues with other representations of the Buddha, the author underscores the contribution of the Thai evidence to a broader understanding of how different types of Buddha representations were understood to mediate the "presence" of the Buddha. *The Buddha in Lanna* focuses on the Thai Buddha image as a part of the wider society and history of its creators and worshippers beyond monastery walls, shedding much needed light on the Buddha image in history. With its impressive range of primary sources, this book will appeal to students and scholars of Buddhism and Buddhist art history, Thai studies, and Southeast Asian religious studies.

**The Power of Patriarchs** Elizabeth A. Morrison, 2010 A study of the Northern Song Chan monk Qisong and his writings on Chan lineage, this book offers new arguments about Buddhist patriarchs, challenges assumptions about Chan masters, and provides insight into the interactions of Buddhists and the imperial court.

Paul Mcpherson and the Primordial Power Flavio BALSÌ, 2020-07-18 Out of the blue, 15 year old Paul finds out he is a member of an ancient civilization with powers over the elements, and is catapulted into a race against time to learn to use those powers, unlock mysterious secrets, and work out who he can trust before the final showdown. After a disastrous first date, Paul finds himself setting out on a journey that spells the start of an incredible adventure, discovering that he is part of an ancient lineage in possession of astounding, but potentially devastating powers, and that the very survival of humanity is now threatened by the reawakening of beings from a distant past. With the help of mysterious teachers and new companions, he learns to wield his powers and begins to accept his destiny and the vital role he is to play in the coming battle. He quickly gets swept up in a race against time to unravel the secrets of an age-old ritual, while trying to figure out who he can really trust, in a world where not everything is as it seems, and where diversity risks becomes a justification for conflict.

**Chinese Lineage and Society** Maurice Freedman, 2021-01-07 This book takes the argument first set out in *Lineage Organization in South-Eastern China* a step further. It incorporates some of Professor Freedman's field data (gathered in the Hong Kong New Territories in 1963) and draws on a wide variety of written sources. As in his first book on the subject, the author seeks to analyse certain crucial institutions of Chinese society within the framework of contemporary anthropological theory.

Lineage Organisation in South-Eastern China Maurice Freedman, 2021-01-07 This essay is the work of a social anthropologist but it is not based upon field work. It is concerned with Chinese matters but it is not written by a sinologue. In this essay are the author's reflections on certain aspects of southeastern Chinese society during the last hundred and fifty years, with attention on the Fukien and Kwangtung region of China as it has specialized not only in large-scale unilineal organization but also in sending people overseas.

**The Triumph of an Accursed Lineage** Fernando Arias Guillén, 2020-12-29 *The Triumph of an Accursed Lineage* analyses kingship in Castile between 1252 and 1350, with a particular focus on the pivotal reign of Alfonso XI (r. 1312–1350). This century witnessed significant changes in the ways in which the Castilian monarchy constructed and represented its power in this period. The ideas and motifs used to extoll royal authority, the territorial conceptualisation of the kingdom, the role queens and the royal family played, and the interpersonal relationship between the kings and the nobility were all integral to this process. Ultimately, this book addresses how Alfonso XI, a member of an accursed lineage who rose to the throne when he was an infant, was able to end the internal turmoil which plagued Castile since the 1270s and become a paradigm of successful kingship. This book will appeal to scholars and students of medieval Spain, as well as those interested in the history of kingship.

**From Lineage to State** Romila Thapar,1999-11-01 This book is a concise collection of lectures which discuss the nature of early Indian society during the mid-first millennium BC and relate it to the ancient Indian historical tradition in its earliest forms. It also looks at the particular character of social formations, their genesis, and continuity as part of the later Indian social landscape. Examining the social and political formulations of the period, this volume analyses the transformation of lineage-based societies into state formulations. It considers the migration and arrival of the monarchies in the middle Ganga valley, where the evolution of these societies resulted in the formation of a state. It provides insights into environmental influences on settlements, the particularities of caste, the role of rituals, and the interaction of ideology with these changes. The volume presents an account of the interplay of a range of variables in state formation.

An Agrarian History of South Asia David Ludden,1999-10-07 Originally published in 1999, David Ludden's book offers a comprehensive historical framework for understanding the regional diversity of agrarian South Asia. Adopting a long-term view of history, it treats South Asia not as a single civilization territory, but rather as a patchwork of agrarian regions, each with their own social, cultural and political histories. The discussion begins during the first millennium, when farming communities displaced pastoral and tribal groups, and goes on to consider the development of territoriality from the sixteenth to the nineteenth centuries. Subsequent chapters consider the emergence of agrarian capitalism in village societies under the British, and demonstrate how economic development in contemporary South Asia continues to reflect the influence of agrarian localism. As a comparative synthesis of the literature on agrarian regimes in South Asia, the book promises to be a valuable resource for students of agrarian and regional history as well as of comparative world history.

**Igbo Women and Economic Transformation in Southeastern Nigeria, 1900–1960** Gloria Chuku,2004-12-30 This study analyzes the complexity and flexibility of gender relations in Igbo society, with emphasis on such major cultural zones as the Anioma, the Ngwa, the Onitsha, the Nsukka, and the Aro.

Heaven Has Eyes Xiaoqun Xu,2020 A history of Chinese law and justice from the imperial era to the post-Mao era, the book addresses the evolution and function of law codes and judicial practices in China's long history, and examines the transition from traditional laws and practices to their modern counterparts in the twentieth century and beyond. From the ancient times to the twenty-first century, there has been an enduring expectation or hope among the Chinese people that justice should and will be done in society, which is expressed in a popular Chinese saying, Heaven has eyes. To the Chinese mind in the imperial era, justice was, and was to be achieved as, an alignment of Heavenly reason, state law, and human relations. Such a conception did not change until the turn of the twentieth century when Western-derived notions--natural rights, legal equality, the rule of law, judicial independence, and due process--came to replace the Confucian moral code of right and wrong, which was a fundamental shift in philosophical and moral principles that informed law and justice. The legal-judicial reform agendas since the beginning of the twentieth century (still ongoing today) stemmed from this change in the Chinese moral and legal thinking, but to materialize the said principles in everyday practices is a very different order of things that is much more difficult to accomplish, hence all the legal dramas including tragedies in the past one century or so. The book will lay out how and why that is the case--

**Family Lineage Organization and Social Change in Ming and Qing Fujian** Zhenman Zheng,2001-01-01 This work is the result of more than a decade of research on the Chinese household and lineage in the southeastern province of Fujian during the Ming and Qing period (1368-1911). It offers new interpretations of the Chinese domestic cycle, the relationship between household and larger kinship groups, and the development of lineage society in south China. Using hundreds of previously unknown lineage genealogies, stone inscriptions, and land deeds, Zheng Zhenman provides a candid view of how individuals and families confronted the crucial issues of daily life: how to minimize taxes or military conscription; how to balance the ideological imperatives of ancestor worship with practical concerns; how to deal with the problems of dividing the household estate. His research leads to an exploration of issues such as the relation of state to society and the compatibility of Chinese culture and capitalism. This complete translation allows access to some of the most exciting new research being done in Chinese social history. Zheng's book draws on important materials largely unknown to Western scholars, comes to novel conclusions about society in late imperial China, and illustrates the importance of the non-Western perspective in studying the history of the world outside the West.

*Queens, Queen Mothers, Priestesses, and Power* Flora S. Kaplan,1997 A collection of 18 case studies of women in power in Africa. It focuses on the political and ritual roles of royal and elite women who are gathered together by tradition, choice and circumstance, and who, as a result, achieve and exercise power, and acquire and exert influence in the public and private arenas of their societies. A dozen sub-Saharan ethnic groups are represented,

mostly from West and South Africa. The volume is interdisciplinary, with contributions drawn from the fields of anthropolgy, art history, history, political science, comparative literature, African and African-American studies, women's studies and religion.

**Bewitching Women, Pious Men** Aihwa Ong,Michael G Peletz,1995-08-08 This collection presents new ethnographic research, framed in terms of new theoretical developments, and contains fine scholarship and lively writing.--Janet Hoskins, University of Southern California This is a wonderful collection of essays. At one level they tell us about the transformation and often painful fragmentation of gendered selves in post-colonial states and a speeded-up transnational world. At another level they display the continuing power of ethnography to surprise and move us.--Sherry Ortner, University of California, Berkeley

*Who Should Care for the Elderly?* William T Liu,Hal L Kendig,2000-05-08 This book has arisen from the belief that cultural understanding can be advanced by contrasting the work of scholars who share academic concerns but work from different cultural vantage-points. In the editors' estimation, knowledge in the caregiving field has reached the point where such comparisons can yield insight into differences not only between cultures but also between the perspectives of the scholars who study them. The chapters in this book provide a rich information base for these purposes.
