Government Finance Statistics Yearbook, 2011
International Monetary Fund. Statistics
Dept., 2012-03-13 The IMF Government Finance
Statistics contains statistical data on government
financial operations for 156 countries. Where
reported, the database contains time series from
1990 onwards using the Government Finance
Statistics Manual 2001 (GFSM 2001) framework. The
statistics, issued quarterly, are updated as new
data are received and time series become
available. These time series present combined
statistics on revenue, expense, transactions in
non-financial assets, and financial assets and
liabilities, as well as on stocks of assets and
liabilities of general government and its
subsectors.

Government Finance Statistics Yearbook, 2012
International Monetary Fund. Statistics
Dept., 2013-03-19 The demand for high quality
detailed public finance statistics covering a
globally representative sample of countries has
increased dramatically during the recent financial
crisis. Due to the complexity of public finance
statistics, however, such data tend to be either
available in oversimplified high level aggregates
and lacking in methodological transparency, or,
available with a great level of detail and a
unified methodological approach yet overly
complicated to understand. The IMF's Government
Finance Statistics Yearbook shows fiscal data of
around 140 countries following the Government

Finance Statistics Manual 2001 framework. The associated database includes data series covering over an almost 40 year period. The IMF's Statistics Department embarked on several initiatives to improve its accessibility.
