Run of the Red Queen Dan Breznitz,Michael Murphree,2011-01-01 This work closely examines the strengths and weaknesses of the Chinese economic system to discover where the nation may be headed and what the Chinese experience reveals about emerging market economies.

Atlas of Echocardiography Scott D. Solomon,2008-12-15 The second edition of the Atlas of Echocardiography is a complete reference for cardiology professionals who rely on echocardiographic imaging techniques. The Atlas represents the collective effort of over 30 leading authorities in the field of cardiology working together to compile the most up-to-date and pertinent information in the field of echocardiography. All areas of echocardiography are covered, from diagnostic basics to cutting edge techniques, such as three-dimensional imaging, contrast imaging, and tissue Doppler imaging. Each figure is accompanied by an informative legend that fully explains the image and its importance. This striking, four color atlas serves as both a resource and a reference and is an invaluable tool to all readers, including cardiologists, non-cardiologist physicians, and sonographers.

Business Rules Management and Service Oriented Architecture Ian Graham,2007-02-06 Business rules management system (BRMS) is a software tools that work alongside enterprise IT applications. It enables enterprises to

automate decision-making processes typically consisting of separate business rules authoring and rules execution applications. This proposed title brings together the following key ideas in modern enterprise system development best practice. The need for service-oriented architecture (SOA). How the former depends on component-based development (CBD). Database-centred approaches to business rules (inc. GUIDES). Knowledge-based approaches to business rules. Using patterns to design and develop business rules management systems Ian Graham is an industry consultant with over 20 years. He is recognized internationally as an authority on business modelling, object-oriented software development methods and expert systems. He has a significant public presence, being associated with both UK and international professional organizations, and is frequently quoted in the IT and financial press.

Future Asian Space Erwin Viray, Davisi Boontharm, Limin Hee, 2012-01-01 Rapid technological, economic, social and cultural changes are transforming the idea of Asian space. With the shift to a global economy and an urban population explosion, Asian cities have become a mainstay of progress, national pride, identity, and positioning on the global stage. The extraordinary pace and intensity of the changes have created a situation unique in the history of urban development. Despite the immense diversity of Asian countries, Asia-ness is often treated as a distinctive quality that has emerged from unique recent circumstances affecting Asian urbanizations as a whole. In *Future Asian Space*, 15 authors explore broad concepts relating to

the creation and re-creation of Asian space and contemporary Asian identity, and their examination of different sites and research approaches highlights the difficulty of pinpointing what Asia-ness is, or might become. Appropriate design and planning of cities is a critical element in building a sustainable future and coping with environmental, social and cultural problems. Future Asian Space is designed to stimulate interests and engagement in discussions of the Asian city, and its trajectories in architecture and urbanism, but the authors' conclusions will intrigue anyone interested in the future of cities and urban life in Asia.

The Last Mermaid Shana Abé, 2008-04-29 Shana Abé has entranced countless readers with her passion-filled novels of adventure, intrigue, and romance. Now the author of *The Secret Swan* delivers a gift from the sea: three hauntingly beautiful tales connected by a legend, a locket, and a love beyond time. 531 a.d.: The tiny island of Kell is said to be enchanted, inhabited by an extraordinary creature who comforts shipwrecked sailors passing into the next world. Prince Aedan of the Isles believes in no such nonsense—until he awakens on Kell itself and meets the sensuous siren who rescued him from the sea. 1721: Ronan MacMhuirich, Earl of Kell, is the target of an unlikely assassin: Leila, a mysterious woman from an exotic land. But his irresistibly beautiful would-be slayer is in just as much danger as Ronan when she falls for this man with a magic of his own. 2004: What do you do when you inherit a Scottish island you never knew existed—and find yourself pursued by a

handsome stranger who wants to buy it from you? That's what happens to Ruri Kell when she accepts Iain MacInnes's invitation to visit her birthright, and listens to a proposition as sinfully tempting as everything else about him. Three seductive love stories, three passionate couples, all linked by one of the most romantic myths of all.

Bilinguality and Bilingualism Josiane F. Hamers, Michel Blanc, 2000-02-17
This updated and revised edition of Hamers and Blanc's successful textbook presents state-of-the-art knowledge about languages in contact from individual bilingualism (or bilinguality) to societal bilingualism. It is both multi- and interdisciplinary in approach, and analyses bilingualism at individual, interpersonal, and societal levels. Linguistic, cognitive and sociocultural aspects of bilingual development are explored, as are problems such as bilingual memory and polyglot aphasia. Hamers and Blanc analyse the relationship between culture, identity, and language behaviour in multicultural settings, as well as the communication strategies in interpersonal and intergroup relations. They also propose theoretical models of language processing and development, which are then applied to bilingual behaviour. Other topics reviewed include language shift, pidgins and creoles, language planning and bilingual education. This book will be invaluable to students, teachers and scholars interested in languages in contact in a range of disciplines including psycholinguistics, linguistics, the social sciences, education and language planning.

Jungle Girl Vol. 1 Doug Murray, 2008-10-01 Dynamite proudly presents Frank Cho's Jungle Girl! Overseen by co-writer and artist Frank Cho and infused the issue with everything Cho fans want to see - beautiful women, thrilling adventures, and, of course, dinosaurs - Jungle Girl also features Co-writer Doug (Red Sonja: Queen of the Frozen Wastes, The 'Nam) Murray who's along for the ride, as is series artist Adriano (New Battlestar Galactica: Zarek, Red Sonja) Batista as they bring the Jungle Girl to life! Jana the Jungle Girl races to save a group of intruders into this strange land - a land filled with dinosaurs, prehistoric men, and much, much more! Each issue reveals more clues about the nature of Jana, and of the island itself!

GUI Design Shan ben tu shu, 2015 As technology has rapidly advanced, so too has the way we use and interact with it. Gone are the days of flat black backgrounds dotted with blocky green text; now, users expect a massive range of colors, layouts, and fonts to be used to entertain and assist them in their daily lives. GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in

their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.

Thermo-hydrodynamic Lubrication in Hydrodynamic Bearings Dominique Bonneau, Aurelian Fatu, Dominique Souchet, 2014-08-08 This Series provides the necessary elements to the development and validation of numerical prediction models for hydrodynamic bearings. This book describes the thermo-hydrodynamic and the thermo-elasto-hydrodynamic lubrication. The algorithms are methodically detailed and each section is thoroughly illustrated.

Our Choice Albert Gore, 2009 Al Gore has been a passionate advocate of action to halt climate change for many years. In his best-selling book, *An Inconvenient Truth*, he wrote about the urgent need to address the problems of climate change, presenting comprehensive facts and information on all aspects of global warming in a direct, thoughtful and compelling way, using explanatory diagrams and dramatic photos to clarify and highlight key issues. Adopting the same lucid technique in *Our Choice*, he proposes solutions at every level of our lives, from the personal and local to the national and political to the area of international policy and law.

Language Death David Crystal, 2014-11-06 A thorough review of the worldwide problem of language endangerment and death.

Bilingual Education of Children Wallace E. Lambert, G. Richard Tucker, 1972

Language and Minority Rights Stephen May, 2008 In this provocative and

ground-breaking book, Stephen May argues for a non-essentialist understanding of language rights, while at the same time outlining why language rights, particularly for minority groups, are defensible and important, both academically and politically. May argues that the causes of many of the language-based conflicts in the world today lie with the nation-state and its preoccupation with establishing a 'common' language and culture via mass education. The solution, he suggests, is to rethink nation-states in more culturally and linguistically plural ways while avoiding, at the same time, essentialising the language-identity link. Language and Minority Rights - a benchmark volume in the field of language rights and language policy - is an outstanding interdisciplinary analysis which draws together debates on language from widely different academic fields, including the sociology of language, ethnicity and nationalism, sociolinguistics, social and political theory, education, history and law, illustrating these debates via a wealth of different national contexts and examples. It is essential reading for students, teachers and researchers in the sociology of language, sociolinguistics, applied linguistics, language policy and planning, sociology, politics, and education.
