SEO & PPC Melanie Mitchell,2012-05-14 In SEO & PPC: Better Together, Melanie Mitchell shows how to use search engine optimization (SEO) and pay-per-click (PPC) together to achieve better results than either can deliver alone. You'll learn how to integrate SEO and PPC in campaigns that engage more consumers and use data from both to improve the performance of each. Mitchell begins by comparing the paid and organic search marketing "pathways," reviewing applications, overlaps, differences, strengths, weaknesses, and tradeoffs. Next, Mitchell shows how paid search data can be a gold mine when figuring out where to focus your SEO efforts, and understanding what content to optimize or build based on your actual ROI rather than relying on indirect traffic estimates from keyword research tools. She presents the latest research on synergies between SEO and PPC, shows how to handle new analytical complexities introduced by changes in Google's search privacy policies, and offers practical, step-by-step guidance for building a KPI-linked dashboard that organizes your data and makes it more usable. From start to finish, Mitchell's techniques and guidance are designed to help marketers become smarter about focusing their time and budgets, evaluating current returns, and optimizing the value of every campaign they create.

The PPC Marketing Guide Max Editorial,2023-01-25 LIGHTNING PROMOTION "*****" PPC stands for Pay-Per-Click - a popular advertising technique on the Internet. Found on websites, advertising networks, and especially on search engines, PPC advertising involves sponsored links that are typical y in the form of text ads. These are usual y placed close to search results, where an advertiser pays a particular amount to visitors who click on these links or banners and land on the advertiser's web page. In essence, PPC advertising is all about bidding for the top or leading position on search engine results and listings. Advertisers do this by buying or bidding on keyword

phrases that are relevant to their products or services - the higher the bid, the higher the spot on the search results, the more the people will find the ad (and click on it) to go to their websites (this is why some people call it 'keyword auctioning'). Advertisers would then pay the bidding price every time a visitor clicks through the website. PPC advertising is also known under the following names/variations:• Pay per placement• Pay per performance• Pay per ranking• Pay per position• Cost per click (CPC)

It is the insider exposé which busts every myth going about Google Ads and the pay-per-click industry. The world standard in Pay Per Click - Perry Marshall, 'Ultimate Guide to Google Ads' Money doesn't lie This view is largely heretical in the digital industry. But this is data, not opinion. And money doesn't lie. For the past 15 years, I've seen business owners and PPC Managers make little or no money from Google Ads. All you see is the money you spend, not the money you make. And some agencies charge a percentage of your ad spend, so they make money even if you don't. If this makes you feel angry and frustrated, this book is for you. Google Ads helped us build, grow, and sell our company Ask The PPC Manager is a real \$21.34m, 19X ROI, 15X business-growth-to-exit, ten year case study told in a fictional setting, inspired by Built to Sell by John Warrillow. The owner grew his business every year for ten years, hired more staff, increased his ad spend, bought out two competitors, and sold to an international operator. Could that be your business? Your PPC campaigns are worthless This is the story of a fictional airport transfer company and PPC Manager Charlie. The business is successful, but Charlie now has a problem, with responsibility for selling more seat bookings, making more money, and out-selling their rivals. He finds he has no idea how to build, measure, manage, and scale PPC campaigns, and integrate them into the business and finances to make money. He is on a deadline, realizes he needs help, and as the story unfolds he is given permission to hire an experienced consultant to turn the campaigns around. Clicks to Money Charlie finds Joshua, a Google Ads PPC author and consultant, who lays out an easy to follow plan that enables them to finally make money from their PPC campaigns and transform their business. Many PPC managers build their campaigns backwards. Campaigns actually come last. Your business is numbers. Your PPC campaigns are numbers. Making PPC make money is just math. The key is that the underlying principles behind self-managing PPC campaigns that make money meet three criteria: - It is a learnable skill. When properly understood, architected and built correctly, and with sufficient sales volumes, campaigns can become largely self-managing for months or even years - It makes money, delivering sales and revenue even while you sleep - It is repeatable and scalable, allowing your business to become Fully Booked should you choose, or to grow for as long as demand does Like Charlie, readers can apply the powerful PPC strategies in this book to finally make self-managing Google Ads campaigns which make money without them, and without agency fees. Here's the simple secret to making PPC make money - Track online conversions, sales and revenue - Know your business numbers - Target your buyers - Do the math Free PPC Money Audit(TM) If you qualify, you will also receive the FREE PPC Money Audit(TM) with the author. Many PPC managers offer free audits, but they only look at how your campaigns are spending money, not how they should be making money. One client wasted almost \$48,000 on mobile clicks with no sales, and was saving almost \$4,000 a month after the audit. If you hate paying Google, Ask The PPC Manager is your new 'must-read'.
