Flavorbomb Bob Blumer,2020-10-27 GOLD WINNER 2021 - Taste Canada Awards - General Cookbooks If you live for wildly addictive, life-affirming taste sensations that knock you off your feet, but can't figure out how to make them at home, you have just found your kindred cookbook spirit. Welcome to Flavorbomb. You keep a running list of restaurants you go to for your favorite flavorbombs--a vibrant, pungent Caesar salad, extra crispy garlic fries, or a spicy puttanesca pasta maybe. You might even be able to articulate exactly what it is about those dishes that you find so addictive. But when you try to reproduce the same flavors at home, you find yourself falling short. If any of the above sounds familiar, this book is for you. For the past 25 years Bob Blumer has eaten his way around the globe, traveling millions of miles in search of culinary adventures and inspiring foods for three TV series and six cookbooks. Along the way, he's broken eight food-related Guinness World Records, competed in some of the most outrageous food competitions on the planet, cooked alongside countless amazing chefs, and sampled every local street food imaginable at ramshackle carts, hawker stalls, and night markets from Italy to India. These collective experiences have formed the backbone of Bob's cooking in ways that culinary school can't begin to teach. In Flavorbomb he channels everything he has gleaned into recipes and practical tips to help you you create bold, stimulating flavors, that will leave those you cook for in a state of bliss. Prepare to become a rock star in your own kitchen. The first half of the book is the real money. It's full of tips, strategies, ingredients, techniques, and gear that will help you crack the code--and gain the confidence to take the leap on your own and turn any dish into a flavorbomb. We're talking developing the courage to season with wild abandon, brown your food to within an inch of its life, double down on the ingredients that can increase the pleasure factor, and taste and adjust on the fly. The second half consists of 75 step-by-step recipes that use all the tricks in your arsenal to deliver the addictive, life-affirming dishes we all crave. And because Bob gets more excited by tacos than truffles, his outsider approach to creating addictive flavors won't require you to buy frivolous top-shelf ingredients or use super-sophisticated techniques. Instead, every recipe starts by building the foundation, and then adding layers of flavors and textures at every step of the way. If there's a hack or a simple trick that can save you time or up the ante--it's in here. Every recipe was thoroughly tested and had to earn its place in the book. Get ready to cook like every bite is your last. Read Flavorbomb and your cooking will be forever changed!

Manuals Combined: NURSING CARE OF THE SURGICAL PATIENT, SPECIAL SURGICAL PROCEDURES I & II, SURGICAL METHODS, STERILE PROCEDURES AND WOUND CARE ,2019-03-14 Well over 700 total pages ... Surgery encompasses all elements in the scientific care of surgical patients. The operation is the focal point for these patients. It is imperative that the patient comes to the operating room (OR) optimally prepared physically and emotionally before performance of an operative procedure. The persons concerned with and/or contributing to surgical patient care are many. The practical nurse shares a special experience with the patient at this time of great stress and need in his life. Their relationship encompasses feelings, attitudes, and behavior approaches. The nurse's first objective is to promote and establish a meaningful, therapeutic relationship, enabling the provision of individualized care. He, then, is to provide the perioperative nursing care that is required for the safest possible care of the patient and production of a favorable surgical outcome. Any patient who is scheduled to have surgery poses special challenges to personnel entrusted with his care. Every procedure done by (OR) operating room personnel for the patient's operation--from the preoperative skin prep to final closure of the incision--requires thorough mastery of many precision techniques and uncompromising attention to detail in order to safeguard the patient. While in the OR, the patient is cared for by a highly trained team that must function as a unit if the patient's best interest is to be served. You, the OR specialist, are a member of this team. While each patient brings new challenges to the surgical team, there are certain problems and techniques associated with particular kinds of special surgery that can be anticipated. By preparing for these peculiarities of the various specialties, the team can circumvent a great many problems that would otherwise arise. In this subcourse, a large number of operations in various specialties are described, along with special dangers that may attend these particular procedures. The more familiar you become with these, the more effectively you will be able to do your part as a member of the operating room team. Also, in this course, you will study wound healing and wound care, contaminated wounds, and burns. Information you read in this course will aid you in maintaining and improving the health of soldiers.
