**Becoming a Better Presenter: Performing Like a Pro - 25 Strategies Insiders Know** Lorna Kibbey,2021-07-18 Making presentations, whether live or virtual, is difficult. Here you will find strategies known to experienced presenters that you can easily use to increase the effectiveness of any presentation. *Becoming a Better Presenter* is filled with inside strategies and tips on top of tips, to help alleviate fear, tune in to your audience, and use your personal expertise to make any presentation great. If your presentation is in-person or virtual, you will find yourself picking up this book every time you are preparing to present. You can expect career enrichment, audience appreciation, and personal fulfillment whether you use a few or all 25 *Becoming a Better Presenter* strategies.

*Knowing People* Michael J. Lovaglia,2007 Social psychology studies one of civilization's most central concerns: human relationships. By understanding people's beliefs, attitudes, and desires, individuals can fashion relationships that benefit all involved, rather than one person or group at the expense of another. Written with a friendly style and engaging, accessible language, the second edition of the popular textbook *Knowing People* selects some of the best research in social psychology and shows how it can improve people's lives. This revised and updated edition includes clear descriptions of the latest research and adds a new chapter on leadership and emotion. Not only does *Knowing People* appeal to individual readers interested in improving their relationships, but it is also valuable as a supplemental text in a wide variety of social science, business, and professional courses\_in all areas where successful interaction with other people is important.

Essential Articulate Studio '09 Patti Shank,Jennifer Bircher,2009-06-18 *Essential Articulate Studio '09* is designed to help novice to intermediate users of Articulate Studio '09 get the most from using these tools—Presenter, Engage, Quizmaker, and Video Encoder—to develop quality informational and instructional materials. It was written with the following goals in mind: Help new users get up to speed as quickly and painlessly as possible Assist users of previous versions of Articulate Studio (and previous versions of Presenter, Engage, and Quizmaker) in capitalizing on improvements made to these tools in the '09 versions Provide tips and tools that make information presentation and instruction faster, easier, and better Help new and previous users develop information and instruction that is more valuable for the intended audience(s) This book is unique because it can serve as both a tutorial for the Studio '09 products and as a primer on designing and building good information and instruction with these tools. The advice and insights are practical and take into account the we-need-it-yesterday environments that most people who use these tools operate in. Many books about online learning discuss how to build good instruction, but this book actually shows you how to build it, using some of the best authoring tools in the industry.

**New Trends in Software Methodologies, Tools and Techniques** Hamido Fujita,Mohamed Mejri,2005 Presents trends and theories in the direction in which we believe software science and engineering may develop to transform the role of software and science in information society. This series contributes to elaborate on such trends and related academic research studies and development.

*Australian Guide to Careers in Music* Michael Hannan,2003 Provides a comprehensive guide to careers in music, covering over 150 job classifications that contribute to the production or dissemination of music.

**Ethical and Social Issues in Professional Education** Celeste M. Brody,James Wallace,1994-07-01 This book reflects and extends the great debates that schools, colleges, and universities are having in response to the profound moral conflicts and personal questions facing professionals today: What should we teach our students? What values should we communicate and nurture? What should be the role of the traditional liberal arts in professional education? How should schools and colleges respond to the demands of women and minorities for a more inclusive curriculum? The authors explore ongoing theoretical and practical considerations of graduate professional education through the ethical and social issues facing professionals in public service. Administrators, teachers, counselors, nurses, or lawyers are recognizing that they face similar questions about their personal and professional lives: Is it possible to sustain a set of fully human values as a practicing professional? As a member of a public organization, how does one deal with dilemmas involving conflicting priorities and ambiguous goals? The authors responses to these questions are presented as themes, describing connections between curriculum and pedagogy. They have designed an approach to ethical and social questions respectful of the contributions of adult learners and the need to provide diverse perspectives.

**Instructional Design for LIS Professionals** Melissa A. Wong,2019-05-03 A concise, practical guide to effectively teaching current and future librarians in graduate programs, professional settings, and beyond. Many librarians are thrust into positions where they are asked to teach colleagues. Others choose to share their knowledge and experience by preparing the next generation of librarians in graduate programs. However, few such librarians have received any formal education in instructional design. In this book, Melissa A. Wong, an expert instructional designer, helps information professionals to prepare for their roles as

teachers of current and future librarians. Covering topics that range from syllabus construction to evaluation and student feedback, the book offers practical guidance on how to communicate with and support learners and how to come up with assignments and grade them, along with advice on accessibility issues and working with technologies such as LMS, OER, videos, and PowerPoint. It demonstrates how to adapt principles of effective teaching to settings including workshops, professional development courses, conference presentations, and staff training. It also discusses professional challenges such as managing workload and shows how to adapt formal coursework to informal teaching situations. Librarians who wish to learn new methods or improve on their teaching and course design skills should read this book.

*Protocols for Professional Learning* Lois Brown Easton, 2009 Provides different protocols for facilitating PLC conversations and activities used to to examine student work, explore instructional practice, address problems, or engage your colleagues in discussion.

**Intelligent Decision Making: An AI-Based Approach** Gloria Phillips-Wren, Nikhil Ichalkaranje, 2008-03-04 Intelligent Decision Support Systems have the potential to transform human decision making by combining research in artificial intelligence, information technology, and systems engineering. The field of intelligent decision making is expanding rapidly due, in part, to advances in artificial intelligence and network-centric environments that can deliver the technology. Communication and coordination between dispersed systems can deliver just-in-time information, real-time processing, collaborative environments, and globally up-to-date information to a human decision maker. At the same time, artificial intelligence techniques have demonstrated that they have matured sufficiently to provide computational assistance to humans in practical applications. This book includes contributions from leading researchers in the field beginning with the foundations of human decision making and the complexity of the human cognitive system. Researchers contrast human and artificial intelligence, survey computational intelligence, present pragmatic systems, and discuss future trends. This book will be an invaluable resource to anyone interested in the current state of knowledge and key research gaps in the rapidly developing field of intelligent decision support.
