## **40 Presidents** Joan Bumann,John Patterson,1986

*Ronald Reagan* Jacob Weisberg,2016-01-05 The conservative icon who reshaped American politics and laid the groundwork for the end of the Cold War In the second half of the twentieth century, no American president defined his political era as did Ronald Reagan. He ushered in an age that extolled smaller government, tax cuts, and strong defense, and to this day politicians of both political parties operate within the parameters of the world he made. His eight years in office from 1981 to 1989 were a time of economic crisis and recovery, a new American assertiveness abroad, and an engagement with the Soviet Union that began in conflict but moved in surprising new directions. Jacob Weisberg provides a bracing portrait of America's fortieth president and the ideas that animated his political career, offering a fresh psychological interpretation and showing that there was more to Reagan than the usual stereotypes. Reagan, he observes, was a staunch conservative but was also unafraid to compromise and cut deals where necessary. And Reagan espoused a firm belief, just as firm as his belief in small government and strong defense, that nuclear weapons were immoral and ought to be eliminated. Weisberg argues that these facets of Reagan were too often ignored in his time but reveal why his presidency turned out to be so consequential. In the years since Reagan left office, he has been cast in marble by the Republican Party and dismissed by the Democrats. Weisberg shows why we need to move past these responses if we wish truly to appreciate his accomplishments and his legacy.

**Ranking U. S. Presidents from Washington to Trump** Stanford Erickson,2020-08-19 Great presidents are determined first and foremost by the circumstances and times of their presidency. But great presidents also demonstrate great personal leadership in being in the forefront of necessary changes in our country. President Donald Trump recognized that after 70 years of promoting economic and political policies that rebuilt other nations following the devastations of WW II, it was time to rebuild and refortify the United States. Within three plus years, he has been doing that with renegotiated trade agrees, deregulation of overzealous bureaucratic oversight, tax cuts, increased military funding and judicial appointments. He also has demonstrated personal leadership in our nation's response to the worldwide pandemic. His effectiveness, like most national and international leaders, is questionable but he has been courageous in demonstrating leadership. Among the greatest U.S. presidents, I rank Donald J. Trump number eight of the forty-five presidents. Seven before President Trump, I list as: George Washington, Abraham Lincoln, Franklin Delano Roosevelt, Thomas Jefferson, Woodrow Wilson, Harry S Truman and Ronald Reagan. I justify my ranking by thoroughly examining the ratings of U.S. presidents by three acknowledged presidential rating historians: Clinton Rossiter, James David Barber and Alvin Stephen Felzenberg. I predicted in a newspaper column that Barack Obama would defeat Mitt Romney in 2012. I predicted that Donald Trump would defeat Hillary Clinton in 2016. I am predicting Donald Trump is odds-on favorite to beat any Democratic candidate for president in 2020. Having been a journalist for 40 years covering presidents and other international leaders, Congress and national and international business, I have found that to overcome a plethora of conflicting information and disinformation the simplest answer in understanding leaders is often the best. I have studied all 45 U.S. presidents and have found that the simplest way to determine why they got elected and why they were successful, less successful or not very

successful at all, is to determine if they were a Daddy's Boy or a Mama's Boy from their birth on. I also identify in the book whether our presidents were balanced, atypical, conflicted or unbalanced. Our greatest presidents were balanced. In other words, if they were at birth Mama's Boys, they learned to acquire the attributes of the other parent to balance them. Abraham Lincoln was a Mama's Boy who married a Daddy's Girl, Mary Todd, who taught him to man up. I identify President Trump as an atypical Daddy's Boy. Though his father loved him and he loved his father, Donald has an inordinate need to be independent of a dominant father. To be his own man. Too simplistic? Of course, many other factors are involved. But I am talking about a simplistic rule of thumb, a poker tell, a major determining factor in predicting: who can get elected, in terms of their ability to campaign and attract a following; their personality and character; how they might make decisions; their policy inclinations; their management style, in terms of being able to delegate or not; if they have administrative capability; and, what is their worldview.

**Demythologizing an Elite** Mostafa Rejai, Kay P. Phillips, 1993-03-30 This study seeks to resolve differences between various types of political leaders and to link broad historical patterns with the idiosyncratic circumstances of individual lives and careers--to integrate the micro and the macro levels of understanding in the field of leadership studies. To accomplish this task, a vast array of previous scholarship and primary documents has been assembled and drawn into new combinations. Equivalent data on all U.S. presidents enable an unprecedented internal comparison within this select group. Comparison with parallel data, developed for other types of leaders, permits U.S. presidents to be analyzed in comparative perspective for the first time. Against this background, the study creates a unique collection of medical and psychological profiles for the entire set of presidents--a body of data that allows us to discover new combinations and patterns of presidential traits. American presidents emerged from this study looking very much like other political leaders in terms of social background and preparation for a political career. But contrary to myth, the authors found U.S. presidents to be puzzlingly unexceptional--even average--in their personal and career characteristics. For other types of leaders, the authors had found distinctive combinations of traits and experiences that seemed to account for their political leadership roles. For the presidents, such combinations seemed elusive, even confounding. They did conclude, however, that presidential leadership is firmly anchored in the cultural, sociological, and historical contexts from which it emerges.
