Yvonne Smith C.Ht., Yvonne R. Smith

The Presidents and UFOs Larry Holcombe, 2015-03-17 A lesser-known history of U.S. presidential involvement in and control of the UFO phenomenon since the 1940s draws a range of sources to discuss Robert Emenegger's documentary and the discoveries handled by each administration.

UFOs and The White House William J. Birnes, Joel Martin, 2018-02-13 The author team that wrote the upcoming Skyhorse title Edison vs. Tesla, as well as The Haunting of the Presidents and other titles about the weird, the supernatural, and the unexplained, turn their attention to the oval office for a unique view of UFOs in America and more specifically, what America's presidents--from Washington to Obama--have witnessed and believed. Most of us know that George Washington was heavily involved with the secret society the Freemasons. But how many of us know about George Washington's UFO sighting during the terrible winter at Valley Forge, and how the experience guided his future? Marilyn Monroe is rumored to have had UFO intel that she gained via pillow-talk from JFK. Under Nixon's presidency we orbited and walked upon the surface the moon while almost at the same time the Air Force was exploiting the Air Force as scientific cover for its decision to terminate Project Blue Book. Jimmie Carter was visited by UFOs multiple times. UFOs and the White House is an oft-overlooked glimpse at history that will appeal to historians as well as advocates of the paranormal.

The Bug Light Room Gregg McManus, 2020-11-22 With so much apparent alien activity and presence on our planet, what would happen if an American actually took a swing at a UFO and landed a punch? Who in Washington would take that call? What would such a government agency look like? How would it function in such a crisis? How would the aliens respond? This is the nexus of this novel. This disaster occurs in Indiana's Hoosier National Forest two weeks before a close Presidential election. The incumbent President tries to keep a lid on the events that start

erupting in southern Indiana in the wake of the UFO's destruction. The aliens pursue the wannabe militia-men Jimmie Hatter and his buddy Brian Spangle who inadvertently destroyed an alien space craft. But so does a super-secret U.S. agency called ORA (Office of Retrieval and Analysis). The frantic search for the perpetrators is punctuated by explosions, firestorms and mysterious deaths the President and ORA seek to keep under wraps two weeks before the election. At the same time Indiana's Governor Kasson of the opposite party senses a cover-up revolving around the mysterious and frightening happenings in his state and tries to unmask them to benefit his own re-election and elevate his standing by bringing down the President. In this riveting narrative, the author connects the dots regarding phenomenon reported by Americans for decades but denied by authorities. The narrative evokes some unsettling possibilities about the presence of aliens, strange creatures and what may be the real reasons behind the alien presence on earth. In the mayhem of events in this novel, will these secrets be revealed? Will the President be re-elected? Will Governor Kasson triumph? How prepared are we for the alien challenge? And what happens to our hapless, inadvertent protagonists Jimmie and Brian; two sympathetic, deplorable roofers who just wanted to defend the country, but must flee for their lives.

The Clinton UFO Storybook Grant Cameron, 2016-06-13

Despite a multitude of differing views on UFOs, everyone can feel that big changes are on the horizon. Everyone sees things through their particular lens. In the media, not only in America but worldwide, news reports of extra-terrestrial phenomena are on the increase. Whether you refer to them as unidentified flying objects or unidentified aerial phenomena, it matters not. The fact is stuff is happening worldwide at an increasing speed as if this planet is being prepared for something big. Something that could radically alter the way we live our lives and the way we view existence. Grant Cameron, who has for decades dedicated himself to

researching what American presidents have known about the UFO phenomena, has reached the conclusion that presidents' denying knowledge is just a cover, and that they actually have known and do know. To what end? Despite your individual view, the information in this intriguing book will validate the fact that Americans stand on a threshold and must make a choice. The President of the United States is the most powerful person in the world. Thirteen of them have dealt with the modern UFO phenomena. Bill and Hillary Clinton have been the most open about their handling of the mystery. Bill said he was fascinated with the subject and has talked about it many times. Hillary has said she is very interested in the UFO subject saying she doesn't believe all the witnesses could be making it up. She has gone on the record as the first high-level politician to state that aliens may already be here. She has promised to disclosure as many classified UFO files as she can on the subject if she becomes president. This book provides a historical look the Clinton's UFO story. It starts with the efforts during the Clinton administration by billionaire Laurance Rockefeller to get UFO disclosure, and the story ends talking about the box that was built by Hillary's 2016 presidential campaign chairman John Podesta to try and ensure that UFO disclosure happens.

President Eisenhower's Close Encounters Paul Blake Smith, 2020-09-29 A detailed, logical look at the most exciting presidential saga ever, piecing together an explosive puzzle which reveals that other U.S. presidents likely renewed Dwight Eisenhower's secret agreement with visiting ETs on remaining aloof to this day, in order to avoid global panic.

Alien New World Order Guy Ralph McDonald, 2014-07-07
The US president and a team of scientists meet two spacecraft at a secret location in the middle of the New Mexico desert to give advanced technology to the United States. Krill the Alien leader conveys his messages of cooperation, but with one caveat: in exchange, Aliens insist on noninterference from our government with their ongoing human abduction experiments. The president reluctantly agrees; a deal is hammered out. Alliances formed, Krill delivers on his technology. But there is much opposition from the CIA. Determined main characters go through hell to make it work through cunning, personal human sacrifice and interbreeding between Alien and human beings. Aliens Are Real Nick Daniel Huntley, 2021-03-10 Many people have seen luminous lights dancing in the skies above us, others have seen actual UFO spaceships in the broad day light. My book enlightens the reader about Aliens, UFOs, their behavior and the long history of these space traveling entities that live among us and under the oceans and deep lakes. Global leaders, the illuminati, shadow governments, and even the Vatican have great knowledge about aliens far beyond the common man and all the little people. Could aliens already rule this world, pull all of the strings and tell the world leaders what to do? Project Blue Book and the Majestic 12 both represent committees set up by US authorities to ascertain for once and for all that UFOs are real and

whether they pose a threat to national security. My book takes the reader on a mind-blowing journey into the dark world of aliens, UFOs, abductions and we begin to realize that the Earth-ruling reptilians are shape-shifting aliens who live among us-ruling over many of the people in this world. Taking on human form in order to blend in better. My book asks why has it taken so long for the pentagon and the Air Force to admit that aliens have always existed? Other countries have. Was President Donald Trump's new Space Force created to take on and fight alien creatures that may be a threat to our world? Non-believers in aliens? Many people uninterested in UFOs and aliens confuse Area 51 and Roswell, believing that Roswell was where the aliens supposedly crashed, well, my book will set you straight and provide the reader with truth, separate the fiction from fantasy and provide all the facts about aliens, UFOs, abductions and the end of our world.

U.S. PRESIDENTS, CONGRESS and UFOs (Declassified)
John Scott Chace,2020-01-25 U.S. Presidents, Congress, and UFOs (declassified)This book has over 400 pages of information on UFOs during each Presidential Administration from Roosevelt to Obama. We ask: What did the Presidents know and when did they know it? Between the CIA and DIA, U.S. Presidents received Intelligence reports daily about UFO activities around the world. Furthermore, each morning they woke up, and newspapers shared stories of ordinary citizens having visitations from unusual spacecraft.Though Presidents have been pre-empted from discussing the topic for National Security reasons, we have ample proof they were well informed. Surrounded by a Secretary of Defense, Secretary of State, and own scientific teams, our Presidents were given CIA, DOD, and Air Force reports of UFO intrusions in U.S. Air Space.In this book, you will read UFO stories from Congressmen, Governors, Presidents, Pilots, Civilian, and

Military leaders from around the world. A few quotes from the book: They told me that all governments and military authorities throughout the world know that flying saucers exist and that they are craft from another planet. They have absolute proof of both things. - A Research Scientist These Visitors from outer space are dangerous when apprehended and hostile when attacked. We have already lost many planes attempting to shoot down one of them. - A General The examination of the bodies showed they were 'humanoid' --but not from this planet. In some cases, the cause of the crash was determined with accuracy; it was not apparent in the other. - American Reporter, quoting British Authorities We've seen about every kind of known aircraft. This monster was like nothing we'd seen before. It was too close to us and too clear in detail to be anything but a man-made ship...we prefer to believe that it's one of our own ships that's still a military secret. I'd certainly hate to know that our air force would have to face a fleet of machines like that... It was so awe-inspiring that it just paralyzed us for the moment. - Commercial Airline Pilot The passengers stared at each other, scared. The 'thing' was now near the plane, flying at its side at an unknown distance and (again) keeping pace with it... The witnesses froze in their seats, as they saw the strange red object glowing behind the wing. Suddenly, in an unexpected maneuver, the glowing saucer rushed toward the plane, passing above it at tremendous speed... From the lighted cabin, it was difficult to get a good look at the UAO, but it appeared to be shaped like a flattened disk and seemed to be surrounded by a faint red glow. - Another Commercial Airline Pilot We recovered an unidentified airplane off the coast of California...with no bearing on conventional explanation. This Headquarters has come to the determination that the mystery airplanes are in fact, not earthly and, according to secret intelligence sources, they are in all probability of interplanetary origin. - Rear Admiral Anderson, President Roosevelt Administration, Top Secret Memo About the Author John Scott

Chace is the author of ten other books on UFOs, including UFOs In U.S. AIRSPACE and Project Blue Book. He is the son of Colonel Chaplain Alston R. Chace (USAF) and nephew of Colonel Frank C. Chace (USMC). A Christian and military brat, John lived on many of the U.S. Air Force bases where UFO incidents took place in Scotland, England (U.K.), and the U.S

Janitor 53 Richard M. Griffith,2018-11-27 When you save the world twice, you deserve some recognition. But when you save the world while working as a janitor at Area 51, recognition is hard to come by. So when Jose and Ajax are informed that they are going to receive a presidential citation they are more than thrilled. Unfortunately our janitors prove to be a lightning rod for trouble and the Whitehouse is not immune. Now, with aliens attacking, Jose and Ajax must save the day, and the President of the United States.

Space Force Jeremy Robinson,2018-10-26 Five years ago, the United States Space Force became a reality. And while those writing the checks took things very seriously, the other military branches did not. As a result, Space Force was populated by undesirables: men and women who made too many mistakes, didn't follow the rules, or...slept with the wrong general's daughter. Three times. On camera. It was a mistake, okay? My name is Captain Ethan Stone, a decorated member of SEAL Team

6 turned Space Force 'recruit.' While the powers-that-be attempted to make Space Force an embarrassment, they also sent some of the very best minds, fighters, and pilots to the program, because sometimes the best of us decide to take a stand against those same powers. Yeah, yeah. Not me. Though I seem to recall I was standing when... Sorry. It's a distracting memory. Flash forward five years and between tenses. President West is in office. Power has shifted. And Space Force is defunded. With just a handful of us still living on base, we find ourselves being evicted. But before all of us can leave, aliens invade. Really ugly ones, too. Super nasty. I don't think I could describe them here without getting the book banned. Anywho, using their advanced technology, they seal off Space Force Command behind a shrinking force field and kick off a battle royale to the death. Human vs. alien. To the victors goes the Earth. While my boy Frank Taylor and I throw down inside the force field, my main squeeze, First Lieutenant Jennifer Hale, leads an international strike team into freekin' space. It's nuts. Crazy action. Super funny, too, in like a Deadpool way, if that's your thing. The only way to really know what went down is to snag a copy of this book and read it for yourself...before it's too late. Or wait for the movie. There is going to be a movie, right?
