A Black Hole is Not a Hole Carolyn Cinami DeCristofano,2021-09-07 A black hole isn't really a hole . . . is it? Get ready to S-T-R-E-T-C-H your mind with this beloved and best-selling science book. Updated with an all-new chapter about the first black-hole image ever! What are black holes, what causes them, and how the heck did scientists discover them? Acclaimed STEM writer Carolyn DeCristofano's playful text shares how astronomers find black holes, introduces our nearest black-hole neighbors, and provides an excellent introduction to an extremely complex scientific topic. Gorgeous space paintings supplement real telescopic images, and funny doodles and speech bubbles keep the content light and fun.

Berlitz: River Cruising in Europe Berlitz,2016-05-03 A river cruise is undoubtedly the most civilized way to see the best of Europe; you can relax in the comfort of a small vessel as you glide through picturesque towns and spectacular scenery. But how do you choose which cruise company, which kind of rivership, and where to go? This thoroughly updated and expanded new edition of the Berlitz guide to River Cruising in Europe will tell you everything you need to know about taking a cruise along Europe's beautiful rivers and waterways. The book cuts through the brochures' hype - almost every river cruise company promises you luxury. But what does 'luxury' really mean? The guide gives you unbiased advice on the different kinds of river vessels and the facilities they offer, helping you to make an informed choice. We take you on a journey along Europe's rivers and waterways, describing the highlights along the way - the historic cities and majestic scenery of the Danube, the castles and vineyards of the romantic Rhine, and much more. Also included are listings for over 200 riverships, which are described and impartially rated, so that you can easily compare them and their facilities.

Animal Welfare and Protection Justin Healey,2009 As the dominant creatures on the planet, humans are nonetheless highly reliant on animals for many things. The extent of humans' use of animals in food, research, clothing, entertainment, sport and companionship is immeasurable. This book features a range of information about the wellbeing and protection of animals, much of which is produced by animal welfare advocacy groups. The book contains three chapters: Animal Welfare and Rights; Animal Use in Research and Testing; and Animal Use and Exploitation. Featured issues include human attitudes and opinions about animals, animal-based scientific and medical experimentation, animals in product testing, factory farming, treatment of pets, the use of animals in

sport and entertainment, and the beliefs and practices of vegans and vegetarians. Do we treat animals humanely enough?Chapter 1: Animal Welfare and RightsChapter 2: Animals in Research and TestingChapter 3: Animal Use and ExploitationGlossary; Fast facts; Web links; Index

Eating Out in Europe Marc Jacobs,Peter Scholliers,2003 Europeans are eating out in unprecedented numbers - in cafs, pubs, brasseries and restaurants. Globalization brought about changes in patterns of leisure and consumption, as well as a democratization of restaurant culture. But what if we open up this concept of 'eating out' to include any eating that takes place outside the home? What cultural shifts can we see through time? What differences can we discover about pre-industrial, industrial and post-industrial societies?Eating Out in Europe addresses such questions as it examines changes in eating patterns through time. 'Eating out' is broadly conceived to cover everything from nibbling a pizza at work to dining in an exquisite restaurant, from suffering an institutional lunch at the school cafeteria to enjoying the natural world with a picnic. The meaning of eating out clearly varies enormously depending on the setting, circumstances and significance of the meal. The contributors describe and interpret the huge changes that occurred in eating habits throughout Europe by analyzing such factors as urbanization, technological innovation, demographic growth, employment patterns and identity formation. Case studies include the evolution of the pub, the rise of the fast food industry in Britain, picnicking in 19th-century France, snack culture in the Netherlands, industrial canteens in Germany, the rise of restaurants in Norway and countryside traditions in Hungary, among others. Fully comprehensive and illustrated, the contributors draw on examples throughout Europe from the late eighteenth century to the present day.--Bloomsbury Publishing.

Streets of Life Mordechai Kamenetzky,2014 Streets of Life is a collection culled from Rabbi Mordechai Kamenetzky's popular column in Ami magazine, where he opens a window into his life, sharing personal stories and perspectives. Rabbi Kamenetzky relates tales of growing up in Woodmere in the turbulent '60s, anecdotes of his years studying in Israel and across the United States, and encounters with almost anyone he meets. Join him with his revered grandfather (Rabbi Yaakov Kamenetzky), roshei yeshiva, powerful politicians, simple taxi drivers and evangelical pastors - in shuls, hospital rooms, airports and limos. It doesn't matter where or with whom, there is always a story. The author's inimitable style, graced with wit and passion will make you laugh out loud or move you to tears.
