The Lives of LGBT Older Adults Nancy A. Orel,Christine A.

Fruhauf,2014 Lesbian, gay, bisexual, and transgendered (LGBT) older adults have unique and varying physical and mental health needs. Yet their experiences have often been ignored in gerontological and LGBT studies. In this important and timely volume, Orel and Fruhauf bring together crucial research from leading experts in the field to shed light on the unique challenges facing this oft-overlooked but growing population. This book uses a life course perspective to investigate how LGBT older adults have been shaped by social stigma and systematic discrimination. Although many of their experiences are similar to those of younger LGBT individuals, LGBT elders grew up in a particularly oppressive time, which continues to impact their well-being. However, these individuals have also developed coping mechanisms to adapt to stigma, discrimination, and the challenges of aging. Thus, the book explores not only the challenges and needs of this population but also their strengths and resilience. The intersection of cultural factors and personal attributes is highlighted.

Digitally Assisted Pipeline ADCs Boris Murmann,Bernhard E. Boser,2007-05-08 Digitally Assisted Pipeline ADCs: Theory and Implementation explores the opportunity to reduce ADC power dissipation by leveraging digital signal processing capabilities in fine line integrated circuit technology. The described digitally assisted pipelined ADC uses a statistics-based system identification technique as an enabling element to replace precision residue amplifiers with simple open-loop gain stages. The digital compensation of analog circuit distortion eliminates one key factor in the classical noise-speed-linearity constraint loop and thereby enables a significant power reduction. Digitally Assisted Pipeline ADCs: Theory and Implementation describes in detail the implementation and measurement results of a 12-bit, 75-MSample/sec proof-of-concept prototype. The Experimental converter achieves power savings greater than 60% over conventional implementations. Digitally Assisted Pipeline ADCs: Theory and Implementation will be of interest to researchers and professionals interested in advances of state-of-the-art in A/D conversion techniques.

Nurse as Educator Susan Bacorn Bastable,2008 Designed to teach

nurses about the development, motivational, and sociocultural differences that affect teaching and learning, this text combines theoretical and pragmatic content in a balanced, complete style. --from publisher description.

Earthquake Early Warning Systems Paolo Gasparini, Gaetano Manfredi, Jochen Zschau, 2007-08-10 The book provides information on the major EEW systems in operation and on the state-of-the-art of the different blocks forming an EW system: the rapid detection and estimation of the earthquake's focal parameters, the signal transmission, the engineering interface and the information reliability/false alarm problem. It is the first time that so many aspects of EEW systems have been specifically focused upon within a single book.

Soil Survey Laboratory Methods Manual USDA, 2012-03-01 The purpose of this manual is to document methodology and to serve as a reference for the laboratory analyst. The standard methods described in this SSIR No. 42, *Soil Survey Laboratory Methods Manual*, Version 4.0 replaces as a methods reference all earlier versions of the SSIR No. 42 (1989, 1992, and 1996, respectively) and SSIR No. 1, *Procedures for Collecting Soil Samples and Methods of Analysis for Soil Survey* (1972, 1982, and 1984). All SSL methods are performed with methodologies appropriate for the specific purpose. The SSL SOP's are standard methods, peer-recognized methods, SSL-developed methods, and/or specified methods in soil taxonomy (Soil Survey Staff, 1999). An earlier version of this manual (1996) also served as the primary document from which a companion manual, *Soil Survey Laboratory Information Manual* (SSIR No. 45, 1995), was developed. The SSIR No. 45 describes in greater detail the application of SSL data. Trade names are used in the manual solely for the purpose of providing specific

information. Mention of a trade name does not constitute a guarantee of the product by USDA nor does it imply an endorsement by USDA.

Rebels and Robbers Assis Malaquias, 2007 *Rebels and Robbers* is about the political economy of violence in post-colonial Angola. This book provides the first comprehensive attempt at analyzing how the military and non-military dynamics of more than four decades of conflict created the structural violence that stubbornly defines Angolan society even in the absence of war. The book clearly demonstrates that the end of the civil war has not ushered in positive peace. The focus on structural violence enables the author to explore the continuities since colonial times, especially in the ways race, class, ethnicity, and power have been used by governing elites as mechanisms to oppress the powerless. Thus, although corruption as structural violence manifesting itself so ubiquitously in Angola today may have been taken to new levels after independence, its origin is unmistakably colonial. Similarly, the zero-sum character of political interactions that defined colonial Angola is yet to be fully exorcized. But there are also important discontinuities. The unabashed propensity to capture public resources for personal aggrandizement is purely post-colonial. So is the tendency toward personal, unaccountable rule. Given its rich endowments, the end of the civil war provides Angola with an opportunity to finally realize its developmental potential. This will depend on whether the wealth resulting from the exploration of natural resources is directed toward creating the conditions for the citizens realization of their aspirations for the good life thus ensuring sustainable peace. This book will be valuable to academics, practitioners, and the general public interested in gaining a deeper understanding of the political economy of violence in Africa and, more specifically, the interplay between violence, wealth and power

in Angola.

Geriatric Anesthesiology Jeffrey Silverstein, Alec Rooke, J. G. Reves, Charles H. McLeskey, 2008-04-16 Geriatric anesthesia is a rapidly growing and evolving field and this is the major revision of a classic anesthesia reference. The last few years have seen significant advancements and important new modalities for addressing the needs of an aging population. The editors of this second edition are uniquely situated to put together a text highlighting both essential knowledge and recent breakthroughs of importance to all who work with the elderly. This edition easily maintains the high standard for quality scholarship and useful material set by the first.

Subnational Democracy in the European Union John Loughlin, 2001-04-05 This book is the result of a research project carried out for the Committee of the Regions and analyses the 'state of play' of democratic practice at the subnational level in all of the European Member states. Its initial hypothesis was that liberal democracy is closely associated with the rise of the nation state in the 19th century. The nation state, however, has been significantly changing under the impact of various forces including globalization and regionalization, internal reforms of the public administration system such as privatization and deregulation, and the emergence of regions and local authorities as actors in their own rights. These changes pose challenges for the practice of democracy and, in particular, for its expression at the regional and local level. The book deals with the theoretical implications of these changes in terms of the changing nature of the state and new regionalism. However, one of the key findings is that there is no one uniform meaning of democracy across member states and there are variations even within a single state depending on whether the national or subnational levels

are considered. Each country chapter gives the historical and philosophical background to the concept of democracy in each country. There is also an exposition of the institutional expression of democracy at the different levels. With regard to the practice of democracy at the subnational level, the role of pressure groups and policy networks is examined as well as the role of political parties. There is a survey of critiques of subnational democracy. Finally, there is a survey of innovative approaches to improving regional and local democracy through a variety of mechanisms and reforms as ways of responding to the challenge and opportunities facing it today

Enhanced Recovery After Surgery Olle Ljungqvist, Nader K. Francis, Richard D. Urman, 2020-03-30 This book is the first comprehensive, authoritative reference that provides a broad and comprehensive overview of Enhanced Recovery After Surgery (ERAS). Written by experts in the field, chapters analyze elements of care that are both generic and specific to various surgeries. It covers the patient journey through such a program, commencing with optimization of the patient’s condition, patient education, and conditioning of their expectations. Organized into nine parts, this book discusses metabolic responses to surgery, anaesthetic contributions, and optimal fluid management after surgery. Chapters are supplemented with examples of ERAS pathways and practical tips on post-operative pain control, feeding, mobilization, and criteria for discharge. **Enhanced Recovery After Surgery: A Complete Guide to Optimizing Outcomes** is an indispensable manual that thoroughly explores common post-operative barriers and challenges.

Fundamentals of Nursing Sue C Delaune, Patricia Kelly Ladner, Patricia K. Ladner, 2010-03-01 Containing almost 800 questions in an easy to use format, this unique study guide is an essential tool that reinforces the content presented in the core text. The variety of

questions include critical thinking discussion questions, classroom and homework activities, and multiple response. Questions build on key concepts presented in the core text on a chapter-by-chapter basis. Varying levels of difficulty are included for self-adaptive learning and review.

Ethics Expertise Lisa Rasmussen, 2006-01-17 Section I examines historical philosophical understandings of expertise in order to situate the current institution of bioethics. Section II focuses on philosophical analyses of the concept of expertise, asking, among other things, how it should be understood, how it can be acquired, and what such expertise warrants. Finally, section III addresses topics in bioethics and how ethics expertise should or should not be brought to bear in these areas, including expertise in the court room, in the hospital room, in the media, and in making policy.

2. A GUIDED HISTORICAL TOUR

As Scott LaBarge points out, Plato's dialogues can be viewed as an extended treatment of the concept of moral expertise, so it is fitting to begin the volume with an examination of "Socrates and Moral Expertise". Given Socrates' protestations (the Oracle at Delphi notwithstanding) that he knows nothing, LaBarge observes that it would be interesting to determine both what a Socratic theory of moral expertise might be and whether Socrates qualified as such an expert. Plato's model of moral expertise is what LaBarge calls "demonstrable expertise", which is concerned mainly with the ability to attain a goal and to explain how one did it. The problem with this account is that when one tries to solve the various problems in the model – for example, allowing that moral expertise is not an all-or-nothing skill – then one is immediately faced with the "credentials

problem”. As LaBarge puts it, “. . .

Managerial Economics Thomas J. Webster,2003-07-30 Managerial economics is the application of economic theory and quantitative methods (mathematics and statistics) to the managerial decision-making process. Simply stated, managerial economics is applied microeconomics with special emphasis on those topics of greatest interest and importance to managers. Offering a problem-solving approach to the study of managerial economics, this title aims to help business students develop analytical skills. It includes an extensive review of mathematical techniques and a chapter on the time value of money and capital budgeting.
