The Priority of Love Timothy P. Jackson,2021-06-08 This book explores the relation between agape (or Christian charity) and social justice. Timothy Jackson defines agape as the central virtue in Christian ethical thought and action and applies his insights to three concrete issues: political violence, forgiveness, and abortion. Taking his primary cue from the New Testament while drawing extensively from contemporary theology and philosophy, Jackson identifies three features of Christian charity: unconditional commitment to the good of others, equal regard for others' well-being, and

passionate service open to self-sacrifice for the sake of others. Charity, prescribed by Jesus for his disciples and named by Saint Paul as the greatest theological virtue, is contrasted with various accounts of justice. Jackson argues that agape is not trumped by justice or other goods. Rather, agape precedes justice: without the work of love, society would not produce persons capable of merit, demerit, and contract, the elements of most modern conceptions of justice. Jackson then considers the implications of his ideas for several questions: the nature of God, the relation between Christian love and political violence, the place of forgiveness, and the morality of abortion. Arguing that agapic love is to be construed as a gift of grace as well as a divine commandment, Jackson concludes that love is the eternal life that makes temporal existence possible and thus the first Christian virtue. Though foremost a contribution to Christian ethics, Jackson's arguments and the issues he takes up will find a broader readership.

Mother-Work Molly Ladd-Taylor, 2022-10-17 Early in the twentieth century, maternal and child welfare evolved from a private family responsibility into a matter of national policy. Molly Ladd-Taylor explores both the private and public aspects of child-rearing, using the relationship between them to cast new light on the histories of motherhood, the welfare state, and women's activism in the United States. Ladd-Taylor argues that mother-work, women's unpaid work of reproduction and caregiving, motivated women's public activism and maternalist ideology. Mothering experiences led women to become active in the development of public health, education, and welfare services. In turn, the advent of these services altered mothering in many ways, including the reduction of the infant mortality rate.
