Complicated Simplicity Joy Davis, 2019-05-21 A frank, practical, and entertaining exploration of the pleasures and complexities of living on small islands. Many people dream of living simple lives on small islands, but few are aware of some of the unique challenges that accompany this distinctive lifestyle. From negotiating surrounding waters to creating a sustainable home and making a viable life away from urban conveniences, small-island living can be rewarding or difficult (or both), depending on myriad circumstances. *Complicated Simplicity: Island Life in the Pacific Northwest* draws on a variety of sources to contextualize peoples' enduring fascination with islands worldwide, including the author's own experiences growing up on Bath Island (off Gabriola) and her interviews with over twenty intrepid figures who live on the San Juan Islands, the Gulf Islands, the Discovery Islands, and in Clayoquot Sound. Ingenuity, tenacity, and a passion for living in these special places shine through in the personal stories, as does a shared concern for safety, sustainability, and thoughtful stewardship. Engaging, inspiring, and often funny, *Complicated Simplicity* offers readers honest and useful insights on the joys, perils, and rewards of island life.

Archipelago Tourism Godfrey Baldacchino, 2016-03-09 Exploring the conceptual insights provided by the archipelagic 'twist' in the context of tourism principles, policies and practices, this volume draws on an international series of case studies to analyse best practice in branding, marketing and logistics in archipelago tourist destinations. The book asks and seeks to answer such questions as: How to 'sell' a multi-island destination, without risking a message that may be too complex and diffuse for audiences to grab on to? Does one encourage visitors to do 'island hopping'; and, if so, how and with what logistic facilities? How does one ascribe specific island destinations within an overall archipelago brand? Would smaller islands rebel against a composite branding strategy that actually benefits other islands? How does one read or craft transport policies as a

function of the 'reterritorialisation' of a multi-island space? This book pioneers the exploration of the archipelago as tourism study focus (and not just locus); a heuristic device for rendering islands as sites of different tourism practices, industries and policies, but also of challenges and possibilities.
