*Private Life and Privacy in Nazi Germany* Elizabeth Harvey, Johannes Hürter, Maiken Umbach, Andreas Wirsching, 2019-07-18 Highlights the surprising ways in which the Nazi regime permitted or even fostered aspirations of privacy.

Private Lives in the Public Sphere Todd Kontje, 2010-11 Private Lives in the Public Sphere examines the Bildungsroman in the context of the rapid changes that affected the German literary revolution that made up for its belatedness in its rapidity and scope. The nature and quantity of reading material produced, the social status of the writer, and the reading habits of the public changed dramatically within a few decades. At the beginning of the century the new texts that appeared at the annual book fairs were primarily written in Latin and devoted to theology. By the end of the century the number of new publications each year has increased almost exponentially, with the novel leading the way. This new institution of literature constituted an important part of what Jürgen Habermas has termed the 'public sphere,' a forum for public debate in which members of the middle class, although still limited in their direct access to political power, could at least begin to articulate their problems and formulate their hopes. The Bildungsroman emerged during this period. This study focuses on moments of literary self-consciousness in the Bildungsroman as reflections on the rapid transformation of the German literary institution. The novels are viewed as examples of what Patricia Waugh has called 'metafiction,' that is, 'fictional writing which self-consciously and systematically draws attention to its status as an artifact in order to pose questions about the relationship between fiction and reality.' By concentrating on the interaction between literary form and institutional context in these novels, it becomes possible to mediate between the extremes of those who would view literature as a mere reflection of historical conditions and those who would maintain the purity of the aesthetic object. Literature in this view neither re-creates reality nor does it escape reality; instead, it transforms reality, and the Bildungsroman is the genre that examines this transformation.

**Privacy and Print** Cecile M. Jagodzinski, 1999 Proposes that the emergence of the concept of privacy as a personal right and the core of individuality is connected in a complex way with the easy availability of printed books and the spread of the ability to read that emerged during the period. Looks at

representations of reading and readers, especially women, in devotional books, conversion narratives, personal letters, drama, and the novel. Also explores how privacy became gendered in the early modern period

**Private Lives and Public Affairs** Sarah Maza, 1993-12-08 From 1770 to 1789 a succession of highly publicized cases riveted the attention of the French public. Maza argues that the reporting of these private scandals had a decisive effect on the way in which the French public came to understand public issues in the years before the Revolution.

**The Toxic Morsel** Andrew Williams, 2008 Through analysis of T.E. Lawrence's book, 'The Mint', his letters and a wide variety of critical sources, the role of the self in autobiography is examined, and a parallel is drawn between Lawrence's literary life and his views on literature and imperialism and the reader's place in the autobiographical genre.

**Browning, Victorian Poetics and the Romantic Legacy** Britta Martens, 2011 Taking an original approach to Robert Browning's poetics, Martens analyses his work in relation to Romanticism and an evolving Victorian poetic culture. She goes beyond reductive interpretations of Browning as a self-effacing poet to reveal a highly self-conscious, self-dramatising and conflicted engagement with the Romantic tradition. Martens' Browning is a poet of complex contradictions and an illuminating case study in voice, authorial authority and self-reference.

**A Companion to Narrative Theory** James Phelan, Peter J. Rabinowitz, 2008-04-15 The 35 original essays in *A Companion to Narrative Theory* constitute the best available introduction to this vital and contested field of humanistic enquiry. Comprises 35 original essays written by leading figures in the field Includes contributions from pioneers in the field such as Wayne C. Booth, Seymour Chatman, J. Hillis Miller and Gerald Prince Represents all the major critical approaches to narrative and investigates and debates the relations between them Considers narratives in different disciplines, such as law and medicine Features analyses of a variety of media, including film, music, and painting Designed to be of interest to specialists, yet accessible to readers with little prior knowledge of the field

**Black Women in Politics** Michael Mitchell, 2017-09-29 The research included in this volume examines the competing pressures felt by black women as political agents in the domains of elections, public policy, and social activism. Their challenges and initiatives are explored in public spaces, institutional behaviours, and public policy. The volume features cutting-edge research exploring black women's political engagement. The first group of contributors interrogates the treatment of black women within the discipline of political science. The second group examines the relationship between cultural politics and policymaking. The third and final group outlines the politics of race-gendered identity and black feminist practice. *Black Women in Politics* includes chapters on black leadership, radical versus moderate politics in New Orleans, and the Shelby vs. Holder Supreme Court decision. The editors introduce a new series highlighting trends in black politics. Finally, the work notes the passing of William (Nick) Nelson and Hanes Walton, Jr., prominent members of the National Conference of Black Political Scientists.

**Routledge Library Editions: Literature and Sexuality** Various Authors, 2021-02-25 This set brings together a collection of classic out-of-

print works that offer some surprising new takes on the theme of sexuality in literature. Whether examining new spaces by unrepresented women writers of colour or looking afresh at gay writings of the early twentieth century, this set presents a thought-provoking take on the subject, and as such is an essential reference source.

**Russian Literary Culture in the Camera Age** Stephen Hutchings, 2004-06-02 This book explores how one of the world's most literary-oriented societies entered the modern visual era, beginning with the advent of photography in the nineteenth century, focusing then on literature's role in helping to shape cinema as a tool of official totalitarian culture during the Soviet period, and concluding with an examination of post-Soviet Russia's encounter with global television. As well as pioneering the exploration of this important new area in Slavic Studies, the book illuminates aspects of cultural theory by investigating how the Russian case affects general notions of literature's fate within post-literate culture, the ramifications of communism's fall for media globalization, and the applicability of text/image models to problems of intercultural change.

**Secrets of Wildflowers** Jack Sanders, 2014-05-06 The Secret of Wildflowers is a colorful tribute filled with odd, little-known facts and wonderful superstitions about some of North America's most beautiful and common plants. This book includes natural history, folklore, habitats, horticulture, uses for plants, and origins of names. More than 100 species of North American wildflowers are included and all are organized by blooming seasons.

**Romantik** Robert W. Rix, Lis Møller, Karina Lykke Grand, Anna Sandberg, Cian Duffy, Elisabeth Oxfeldt, Thor Mednick, Ilona Pikkanen, 2018-02-19 "Romantik. Journal for the Study of Romanticisms" is a multidisciplinary journal dedicated to the study of romantic-era cultural productions and concepts. The journal promotes innovative research across disciplinary borders. It aims to advance new historical discoveries, forward-looking theoretical insights and cutting-edge methodological approaches. The articles range over the full variety of cultural practices, including the written word, visual arts, history, philosophy, religion, and theatre during the romantic period (c. 1780–1840). But contributions to the discussion of pre- or post-romantic representations are also welcome. Since the romantic era was characterized by an emphasis on the vernacular, the title of journal has been chosen to reflect the Germanic root of the word. But the journal is interested in all European romanticisms – and not least the connections and disconnections between them – hence, the use of the plural in the subtitle. Romantik is a peer-reviewed journal supported by the Nordic Board for Periodicals in the Humanities and Social Sciences (NOP-HS).

**Girls, Texts, Cultures** Clare Bradford, Mavis Reimer, 2015-05-29 This book focuses on girls and girlhoods, texts for and about girls, and the cultural contexts that shape girls' experience. It brings together scholars from girls' studies and children's literature, fields that have traditionally conducted their research separately, and the collaboration showcases the breadth and complexity of girl-related studies. Contributors from disciplines such as sociology, literature, education, and gender studies combine these disciplinary approaches in novel ways with insights from international studies, postcolonial studies, game studies, and other fields. Several of the authors engage in activist and policy-development work around girls who experience poverty and marginalization. Each essay is concerned in one way or

another with the politics of girlhood as they manifest in national and cultural contexts, in the everyday practices of girls, and in textual ideologies and agendas. In contemporary Western societies girls and girlhood function to some degree as markers of cultural reproduction and change. The essays in this book proceed from the assumption that girls are active participants in the production of texts and cultural forms; they offer accounts of the diversity of girls' experience and complex significances of texts by, for, and about girls.

**Mixed-Race Identity in the American South** Julia Sattler, 2021-05-04 This study examines mixed-race identity and heritage in the American South. The author analyzes the memoir of the search literary genre and contextualizes texts in relation to contemporary negotiations of family history and national memory.

**Reading Primary Sources** Miriam Dobson, Benjamin Ziemann, 2020-06-01 Now in its second edition, *Reading Primary Sources* explores the varied traditions in source criticism and, through specific examples, illustrates how primary sources can be read and used in historical research. Part I of this two-part volume begins by establishing the reader's understanding of source criticism with an overview of both traditional and new methodological approaches to the use of primary documents. Taking into account the huge expansion in the range of primary sources used by historians, Part II includes chapters on surveillance reports, testimony and court files, in addition to more traditional genres such as letters, memoranda, diaries, novels, newspapers, political speeches and autobiography. For the new edition, each chapter now includes a checklist that suggests an easy-to-follow sequence of steps for interpreting a specific source genre, enabling students to understand how the sources should be read, what they have to offer, and the pitfalls of their interpretation. In addition to new discussions about the availability of digitised source materials, a new chapter on social surveys unlocks the potential of these widely used primary sources. Taking examples of sources from many European countries and the United States, and providing up-to-date information on the most widely used textual sources, this book is the perfect companion for every student of history who wants to engage with primary sources.
