We Need a Show W.d,2015-09-28 The rallying cry We need a show was the first step of a fifty-year journey that led to World Dairy Expo, as we know it today. The show's growth and development into the world's most-respected and most-renown dairy event is, indeed, a success story. We Need a Show is the story of that successful journey. We learn about what led up to the need for a new show. We gain insight into Expo's early struggles and how it found solid footing. We come to appreciate how the fabled event established high standards as a cattle show and trade show. We see how Expo continued to innovate and adapt to a changing industry. The story is told in terms of the key aspects of World Dairy Expo ... the cows, the trade show, the events and the people. And we look ahead to the challenges and opportunities in Expo's future.

Project Animal Farm Sonia Faruqi,2015-07-15 Sonia Faruqi had an Ivy League degree and a job on Wall Street. But when the banking industry collapsed, she found herself on a small organic dairy farm that would change her life for the better, although it didn't seem that way in the beginning. First, she had to come to grips with cows shocked into place, cannibal chickens, and free range turkeys that went nowhere. But there were bright lights as well: happy, frolicking calves on a veal farm, and farmers who cared as much about the animals as their pocketbooks. What started as a two-week volunteer vacation turned into a journey that reached into the darkest recesses of the animal agriculture industry. Surrounded by a colorful cast of characters, Faruqi's quest to discover the truth about modern agribusiness took her around the world. Lively, edgy, and balanced, Project Animal Farm sheds light on the international agribusiness, with the ultimate goal of improving the lives of farm animals here at home. Using her finance background to forecast the future of agriculture, Faruqi discusses the changes we need to make—using our forks and our votes.
