Trauma recovery is tricky; however, there are several key principles that can help make the process safe and effective. This book gives self help readers, therapy clients, and therapists alike the skills to understand and implement eight keys to successful trauma healing: mindful identification of what is helpful, recognizing survival, having the option to not remember, creating a supportive inner dialogue, forgiving not being able to stop the trauma, understanding and sharing shame, finding your own recovery pace; mobilizing your body, and helping others.
