Parent Taming Ryan James Stickenbachher,2013-10 Newborn babies don't come with a detailed set of instructions. More's the pity. We know. But

forget the tomes that present painstakingly compiled advice from professional parenting types. And saddle up, instead, for some irreverent advice that's straight from the horse's mouth. We'll level with you. You're probably not going to win any pro-parenting prizes after reading *Parent Taming*. But you'll have had a blast. And the only real truth about parenting? A happy parent = a happy kid. *Parent Taming* is a tot's-eye comedy view of their early years. It's a gently subversive parenting manual; a how-to guide with a twist. *Parent Taming* doesn't promise to make anyone's experience of parenting any easier. But by offering the sideways perspective of a pint-sized degenerate, it does promise to inject a bit of fun into the lives of parents. Targeted squarely at the 1990's generation, who are finally getting around to making babies, *Parent Taming* is the perfect gift for new and soon-to-be parents who haven't - yet - lost their own mischievous streak. *Parent Taming* will not equip the new parent with the skills required to win pro-parenting prizes. But it will equip new parents with a source of material pretty much guaranteed to trigger a good giggle. And the only real truth about parenting? A happy parent = a happy kid.

Parent Like a Pro Brenda Reed Pilcher, 2022-03-15 Brenda Reed Pilcher took a quote written by Toni Morrison literally. If there is a book that you want to read, but it hasn't been written yet, you must be the one to write it. And she did just that! Are you a parent? Do you have a desire to become a parent? Do you have parents in your circle of friends? If so, then this book was written just for you. In her debut non-fiction narrative, Brenda Reed Pilcher reveals why parents need their own playbook. Being a parent requires a high-level skill set just like an accountant, actor, attorney, coach, engineer, doctor, or teacher. Why is it that parents are the only profession without a playbook? Her goal for writing *Parent Like a Pro* is to elevate all parents to pro status. This parenting playbook provides quick and easy tips and strategies that can be implemented by everyday parents. NO DEGREE REQUIRED! You will love the trajectory you will set your children on by following a few simple steps, as described in just fourteen chapters. Brenda Reed Pilcher has spent over three decades acquiring knowledge and skills derived from her research, education, and working real-time with parents, grandparents, and families. The wait is over, she has written the playbook that she wishes she had read over thirty years ago as a new parent. Be Empowered! Anyone can parent like a pro. What are you waiting for?

Parenting Matters National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Board on Children, Youth, and Families, Committee on Supporting the Parents of Young Children, 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

The Complete Idiot's Guide to Raising a Strong-Willed Child Helen Coronato, Mary-Michael Levitt Ed.S. LPC, 2009-10-06 When because I'm the parent meets you're not the boss of me . . . Good news: there are many ways to parent willful children without everyday clashes. Here parents learn how to capitalize on children's strengths and make bad days more manageable. Full of ideas and techniques, it explores: how to use empathy first and discipline second; exercises and strategies that work to calm toddler tantrums; bringing teachers on board; raging hormones in teen rebels; and dealing with health and safety issues. • Much more positive than other parenting books, which focus on discipline and parental control • Helps parents understand and accept children for who they are, as well as who they can hope to be

Group Parent Education Deborah Campbell, Glen F Palm, Glen Palm, 2004 Small groups are a primary vehicle for effective parent learning and support, so understanding parent group process and managing group learning is a critical skill for parent education practice. *Group Parent Education* is devoted to training parent educators and family counsellors and represents a unique and important contribution to the growing field of parent education and support programmes. Campbell and Palm build upon the rich traditions of group parent education while incorporating contemporary theory and practice. Drawing upon their experiences as parent educators and their expertise as teacher educators, they combine different conceptual frameworks for understanding group process with practical strategies for leading parent groups that blend education and support. *Group Parent Education* leans toward the practical, with a skill development thrust and concrete examples as it attempts to address the complexity of working with diverse family groups. The book also includes a chapter on parent-child interaction time as a rich component that enhances parent discussion and learning in parent group settings. Red Dot Parenting TONY. STANGER, 2018-09-06 It's not easy being a parent of sporty kids. On an almost daily basis kids go through ups and downs in training and competition and as a parent, it can be challenging to know how to help - 'I wasn't selected again, mum, and I'm not sure I want to play anymore.' In *Red Dot Parenting*, former Scotland rugby star and Institute of Sport mentor, Tony Stanger, shows parents what they can do to help when these moments happen. Parents are NOT the coach. He is passionate about helping parents to better understand their role in supporting their children to reach their sporting potential. Parenting by the Book John Rosemond, 2007-09-25 Picture respectful, responsible, obedient children who entertain themselves without television or video games, do their own homework, and have impeccable manners. A pie-in-the-sky fantasy? Not so, says family psychologist and bestselling author

John Rosemond. Any parent who so desires can grow children who fit that description -- happy, emotionally healthy children who honor their parents and their families with good behavior and do their best in school. In the 1960s, American parents stopped listening to their elders when it came to child rearing and began listening instead to professional experts. Since then, raising children has become fraught with anxiety, stress, and frustration. The solution, says John, lies in raising children according to biblical principles, the same principles that guided parents successfully for hundreds of years. They worked then, and they still work now! Through his nationally syndicated newspaper column and eleven books, John has been helping families raise happy, well-behaved children for more than thirty years. In Parenting by The Book, which John describes as both a mission and a ministry, he brings parents back to the uncomplicated basics. Herein find practical, Bible-based advice that will help you be the parent you want to be, with children who will be, as the Bible promises, a delight to your soul (Pro. 29-17). As a bonus, John also promises to make you laugh along the way.

A go-to coach for your teens? A husband your wife knows she can count on? All Pro Dad lays out a game plan built on seven essential fathering truths and ultra-practical insights for the questions every dad needs answered at some point. Like football, fatherhood is about winning. But it's more than just scoring points. It's about winning the hearts and minds of your children and leaving a rich legacy of love for future generations. With gut-level huddle questions to ask your children, and firsthand stories from well-recognized dads (CBS broadcaster James JB Brown, Chick-Fil-A founder and CEO S. Truett Cathy, Grammy Award-winning recording artist Michael W. Smith, FedEx Express COO and president, international, Michael Ducker, and more), All Pro Dad will stir you, equip you, and inspire you toward the goal of being a champion father and a hero to your kids.
