The World's Fastest Pro Stock Trucks Jeff Savage,2003 Describes the design, safety features, and professional racing of NASCAR stock trucks, which are ultrapowered versions of American-built pickup trucks.

When The Green Flag Drops Rod Koch,2011-01-31 Ride once again with the author, Rod Koch, and share his adventures as he struggles to gain another victory in the epic Baja 1000. His first autobiography, 7 Years from Start to Finish, covered the early years of the Baja races from 1968-1975, up to the moment when the author became a first place winner in that incredible endurance race down and around the Baja California peninsula. When the Green Flag Drops continues those adventures in off-road racing through the 1980s not just in Baja, but back in the U. S. A. with events like the Parker 400, Casinos 350, Mint 400 and the Riverside Off-Road Championships. The author then makes the transition into the intensity of the Pro-Rally race scene, bringing the reader along with him as he takes on some of the best and fastest off-road and performance rally drivers in North America. The action streaks across the High Sierras from San Francisco to Reno, from Las Vegas to Laughlin, Nevada, from Carson City to Virginia City to Yerington, through the rain, mud, snow, even the heat of the Mojave Desert near Palm Springs and east of Indio, wherever the dirt mountain and desert roads of the performance and Pro-Rally circuit goes. You are there with the author in the co-driver's seat for what may be the ride of your life—if you dare.

Motorsports Trivia Joe Levit,2018-08 Provides surprising, exciting trivia in the area of motorsports--

The Cutting Edge Rod Millen,2014-08-15 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles, armored and off-road vehicles and subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre, ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsyberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

The World's Fastest Trucks Glen Bledsoe,Karen E. Bledsoe,2002 Discusses the history and development of some of the world's fastest trucks, describing the specific features and specifications of such vehicles as racing pickups, semi-trucks, monster trucks, and jet-powered trucks.

Trucking Magic Mick Twemlow,2017-08-17 In the 1970s and 1980s Pro-Motor (Europe) Ltd were one of the most highly successful and respected transport companies in Great Britain.Their vehicles operated to every country in Europe as well as the Middle East, North Africa and Russia.They were experts in international haulage, exhibition transport, show tours and specialised vehicle transport.The Author, Mick Twemlow, a highly experienced international truck driver, drove for Pro-Motor between 1978 and 1983. His narrative, written on a country by country basis, describes the adventures and incidents that he and his fellow drivers experienced during those five years.At the time, Europe was divided by the Iron Curtain and operating in the Soviet dominated Eastern Europe brought its own challenges, which are described in detail. The corrupt nature of officials and the inherent dangers of truck driving in Turkey and Iraq are also fully explained.Although the work entailed facing dangerous situations it also had its lighter side.In summing up his five years driving for Pro-Motor Mick refers to the corporate logo of the companyand declares that it was truly Trucking Magic.

Protocols for Collecting and Using Traffic Data in Bridge Design Bala Sivakumar,Michel Ghosn,Fred Moses,2011 TRB's National Cooperative Highway Research Program (NCHRP) Report 683: Protocols for Collecting and Using Traffic Data in Bridge Design explores a set of protocols and methodologies for using available recent truck traffic data to develop and calibrate vehicular loads for superstructure design, fatigue design, deck design, and design for overload permits. The protocols are geared to address the collection, processing, and use of national weigh-in-motion (WIM) data. The report also gives practical examples of implementing these protocols with recent national WIM data drawn from states/sites around the country with different traffic exposures, load spectra, and truck configurations. The material in this report will be of immediate interest to bridge engineers. This report replaces NCHRP Web-Only Document 135: Protocols for Collecting and Using Traffic Data in Bridge Design. Appendices A through F for NCHRP Report 683 are available only online.
