Web Based Project Coaching Yuriy Taranovych, 2013-05-24 The traditional project coaching takes place mostly in a number of face-to-face coaching sessions. However, under conditions of time pressure in IT projects, a physical presence of coaches could form a bottleneck. These facts led to the idea of using Internet technologies to support the project coaching. The benefits of the web based project coaching reside in the ubiquitous availability of coaches. To enable the web coaching, a flexible support platform is required. The elaboration of requirements, design, implementation and evaluation of such a platform is the goal of this dissertation. The elaborated concept was applied and evaluated in real IT projects. The numerous findings and implications could be gained on the empirical basis.

Every Shot Must Have a Purpose Pia Nilsson, Lynn Marriott, Ron Sirak, 2005-09-22 Two legendary coaches give golfers a powerful new approach to the game... and to life. As coaches to some of golf's top players, Pia Nilsson and Lynn Marriott have designed and refined a revolutionary way of teaching the game, with phenomenal results. They don't believe in prescribing the same stance, grip, and swing to everyone, followed by hours of purposeless drilling. They don't even believe in beginning with physical technique. Their success has proven to them that a great game begins with a great vision. Unlike any other golf book, Every Shot Must Have a Purpose offers cutting-edge techniques for integrating the physical, technical, mental, emotional, and social parts of a player's game. The book's revolutionary pre-shot routine will improve your focus, leading to a golf swing that is not only successful but can be repeated under extreme pressure. Emphasizing the individual golfer rather than a rigid set of mechanics, their VISION54 method takes the frustration out of the game. Why 54? Because they believe it's possible to shoot a 54 (making a birdie on every hole of a par-72 course) if you have the right mind-set and well-honed intuitive power. An engaging read for the beginner or the seasoned golfer, Every Shot Must Have a Purpose is inspiration for life, not just the links.

Executive Coaching for Results Brian O Underhill, 2007-11-01 The field of executive coaching is growing at an astonishing rate. Corporations are increasingly turning to coaching as an intervention, as it offers leaders and managers both on-the-job learning and built-in follow-up. But how can

you make the best use of coaching within your organization? Executive Coaching for Results helps this critical leadership development method come of age. This is not a “how-to-coach book”—there are already plenty of those—but rather a comprehensive guide on how to strategically use coaching to maximize development of talent and link the impact of coaching to bottom-line results. Underhill, McAnally, and Koriath draw on their rigorous original research (through Executive Development Associates) with Fortune 1000 and Global 500 companies such as Disney, IBM, UBS, Unilever and many others, and combine that with their years of industry experience to advance the state of the art. Executive Coaching for Results includes topics such as: Integrating coaching into your organization's overall leadership development strategy Locating and screening coaches worldwide Developing an internal coaching program Deciding which coaching assessments and instruments are appropriate to your situation Measuring the impact and ROI of coaching Following up after coaching Throughout, the authors provide numerous examples from major organizations such as Dell, Johnson and Johnson, Intel, and Wal-Mart. Offering practical learning, best practices, and illuminating case studies, this is the first definitive guide to the effective use of executive coaching in the corporate environment.

Positive Psychology as Social Change Robert Biswas-Diener, 2011-02-01 In recent times there has been growing interest in positive psychology as evidenced by the swell in positive psychology graduate programs, undergraduate courses, journals related to the topic, popular book titles on the topic and scholarly publications. Within the positive psychology community there has been an increased emphasis on the socially beneficial side of positive psychological science. At the First World Congress of the International Positive Psychology Association there was a major push to look at positive psychology as a social change mechanism. This volume will bring together thoughts of leaders in positive psychology from 8 countries to capitalize on the push toward social change and flourishing. By releasing this title at a critical time Springer has the opportunity to help frame the agenda for positive psychology as a force for social change. This seminal work is meant for anyone interested in happiness, strengths, flourishing or positive institutions It introduces Positive Psychology as an unapplied science that can be used to create positive social transformation and enabling institutions. This is a must-have title for academics, especially psychologists, sociologists, economists, and professionals working in the field of Positive Psychology and Well-Being.

Rethinking Undergraduate Business Education Anne Colby, Thomas Ehrlich, William M. Sullivan, Jonathan R. Dolle, 2011-06-15 Business is the largest undergraduate major in the United States and still growing. This reality, along with the immense power of the business sector and its

significance for national and global well-being, makes quality education critical not only for the students themselves but also for the public good. The Carnegie Foundation for the Advancement of Teaching's national study of undergraduate business education found that most undergraduate programs are too narrow, failing to challenge students to question assumptions, think creatively, or understand the place of business in larger institutional contexts. Rethinking Undergraduate Business Education examines these limitations and describes the efforts of a diverse set of institutions to address them by integrating the best elements of liberal arts learning with business curriculum to help students develop wise, ethically grounded professional judgment.
