Visual Merchandising and Display Martin M. Pegler,1991 This best-selling text is for anyone in merchandising from store planners and manufacturers to visual merchandisers. Pegler zeroes in on all aspects of visual merchandising and display, from classic techniques to the most avant-garde developments. Using hundreds of textual and visual examples, the author reveals how to add interest to window and interior displays, optimizing the retailer's image and the target market.

Captive Audience Catherine Gidney,2019-04-02 White Spot, a popular BC restaurant chain, solicits hamburger concepts from third and fourth grade students and one of the student’s ideas becomes a feature on the kids’ menu. Home Depot donates playground equipment to an elementary school, and the ribbon-cutting ceremony culminates in a community swathed in corporate swag, temporary tattoos, and a new “Home Depot song” written by a teacher and sung by the children. Kindergarten students return home with a school district-prescribed dental hygiene flyer featuring a maze leading to a tube of Crest toothpaste. Schools receive five cents for each flyer handed to a student. While commercialism has existed in our schools for over a century, the corporate invasion of our schools reached unprecedented heights in the 1990s and 2000s after two decades of federal funding cuts and an increasing tendency to apply business models to the education system. Constant cutbacks have left school trustees, administrators, teachers, and parents with difficult decisions about how to finance programs and support students. Meanwhile, studies on the impact of advertising and consumer culture on children make clear that the effects are harmful both to the individual child and the broader culture. *Captive Audience* explores this compelling history of branding the classroom in Canada.

Place and Placelessness Revisited Robert Freestone,Edgar Liu,2016-07-15 Since its publication in 1976, Ted Relph’s Place and Placelessness has been an influential text in thinking about cities and city life across disciplines, including human geography, sociology, architecture, planning, and urban design. For four decades, ideas put forward by this seminal work have continued to spark debates, from the concept of placelessness itself through how it plays out in our societies to how city designers might respond to its challenge in practice. Drawing on evidence from Australian, British, Japanese, and North and South American urban settings, Place and Placelessness Revisited is a collection of cutting edge empirical research and theoretical discussions of contemporary applications and interpretations of place and placelessness. It takes a multi-disciplinary approach, including contributions from across the breadth of disciplines in the built environment – architecture, environmental psychology, geography, landscape architecture, planning, sociology, and urban design – in critically re-visiting placelessness in theory and its relevance for twenty-first century contexts.

Russian Popular Culture Richard Stites,1992-08-20 This book presents a side of Russian life that is largely unknown to the West - the world of popular culture. By surveying detective and science fiction, popular songs, jokes, box office movie hits, stage, radio and television, Professor Richard Stites introduces the people and cultural products that are household words to Russian people. Spanning the entire twentieth century, the author examines the subcultures that draw upon and enrich Russian popular culture. He explores the relationship between popular culture and the national and social values of the masses, including their heroes and myths, and assesses the phenomenon of the celebrity from the silent screen star to the latest rock music idol. Richard Stites pays particular attention to the dramatic battle between elite and popular culture and to the intervention of revolutions, wars, and the state in the production and control of this culture.
