African Oral Literature Russell Kaschula,2001 Throughout Africa, oral literature is flourishing, though it is perceived by some as anachronistic to the modern world. This work refutes this idea in its entirety by presenting 22 chapters, which firmly place the study of oral literature within contemporary African existence. The study analyzes how oral literature relates to media, music, technology, text, gender, religion, power, politics and globalization.

**Legal Instruments in the Fight Against International Terrorism** Cyrille J.C.F. Fijnaut,Jan Wouters,Frederik Naert,2004-06-01 This book finds its origins in a transatlantic colloquium held in the European Parliament in Brussels in May 2002. After an introductory overview of the US and European responses to 9/11 it addresses the main legal aspects of the fight against international terrorism,

namely police and judicial cooperation (including mutual legal assistance, extradition and the role of entities like Europol and Eurojust), financial initiatives (e.g. by the UN Security Council, the FATF and the EU), human rights and rule of law issues (such as trial by military commissions, detention of alleged unlawful combatants and others, state of emergency derogations, due process, the death penalty and privacy) and international law aspects (inter alia self-defence, the application of international humanitarian law, prisoner of war status, the role of the UN, in particular the Security Council, sanctions and the negotiations on a comprehensive convention on combating terrorism). Each topic is considered from a US and from a European perspective.

It explores connections between academic law and professional practice, bringing together an array of perspectives which reveal that although guidelines may not be dispositive, they nonetheless play an important role in medical negligence law.
