Watchdogs and Whistleblowers Stephen Brobeck, Robert N. Mayer, 2015-07-20 This book is the most comprehensive and up-to-date source of information about ways in which consumer activism has reshaped the economic and political well-being of citizens in the United States and around the world. This all-encompassing collection of information about consumer activism and the consumer movement will provide students, public officials, business groups, and other activists with a one-stop source of facts and insights. The contributors explore hundreds of major consumer protections that have significantly enhanced the quality of life and safety for all Americans, showing how these protections were won through the skillful and determined work of leading activists and activist organizations. Many of the stories told here are related by the activists themselves, often for the first time. More than 140 entries offer a comprehensive treatment of the consumer activism of specific organizations, their leaders, and strategies. The book also includes more than 40 entries about consumer movements in Europe, Asia, Africa, and Latin America. A timeline of key events and a listing of the most important books on the subject of consumer activism help provide context for the individual entries as do two introductory essays. Cross references in each entry establish linkages among topics.

Taxing Soda for Public Health Yann Le Bodo, Marie-Claude Paquette, Philippe De Wals, 2016-08-17 This timely reference analyzes the rationale, impact, and feasibility of taxation of sugar-sweetened beverages (SSBs) as a public health measure to contribute curbing obesity and diabetes rates, specifically in Canada. It presents the pros and cons of taxing soda, with the latest data on adverse health effects of its consumption, plus the various business and political issues surrounding the contentious proposition. Reviewed research is multidisciplinary, spanning health and medicine to ethics, economics, and law. Conclusions and caveats are clear and presented at a comfort level for the general reader. The result is a blueprint for analyzing the relevancy of taxes on sweetened soft drinks or other low-nutrition food products, plus a trove of valuable insights into aspects of government decision-making and consumer food behavior. Included in the coverage: · Reasons for specifically targeting SSBs · SSB taxation as a public health policy instrument · Effects of SSB taxation on energy intakes and population health · Potential undesirable effects relating to SSB taxation · Social and political acceptability of SSB taxation · Evaluability of SSB taxation *Taxing Soda for Public Health* will interest policymakers, public health professionals, advocacy groups, and researchers at the Canadian and international levels (e.g., in areas such as public health, nutrition, food and health policies, health economics, and evaluation), as well as students and all other parties interested in nutrition policies.

Lemon-Aid New and Used Cars and Trucks 1990-2015 Phil Edmonston, 2013-11-18 *Lemon-Aid New and Used Cars and Trucks 1990-2015* steers the confused and anxious buyer through the purchase of new and used vehicles unlike any other car-and-truck book on the market. Dr. Phil, Canada's best-known automotive expert for more than 42 years, pulls no punches.

The Art of Complaining Phil Edmonston, 2013-09-02 Defective cars, contaminated food, insurance company abuses, botched vacations, or government errors and indifference ... these issues and more are examined in *The Art of Complaining*. Phil Edmonston's newest book helps consumers come out ahead when products, services, and organizations fail to deliver.

The Village Children, an Introduction to the Art of Painting Children and Their Stories

Marie Dubois, 2009 The book is both a children's story book and a craft book and is in two parts. The story book section contains short and longer stories for young children to read printed in both English and French. The craft section is an introduction to painting for the aspiring young artists. Part One - includes full colour illustrations of plates originally painted by hand on porcelain/china and canvas by Marie Dubois. On the opposite page the author has written stories both in English and French based on the theme of each plate. The stories have been translated to French to familiarise young children to a foreign language, especially now learning a second language has been added to the school curriculum. Part Two - is an introduction to the art of painting. The book gives brief instructions as to the materials required, basic techniques and painting principles that beginners will need to create some fine artistic tableau, as well as definitions of various brush strokes for beginners to practice, so that they can achieve their own fine art work. The Book also includes line work for each plate design, which can be traced on to any painting material. It is hoped that the artwork contained in this volume will inspire other painters to produce similar pieces of work. The designs require a great deal of careful creative attention. All drawings and colours on the designs have a distinctive style particularly the characteristic figures, old fashion costumes and hats. The book is not only for children to read or parents to read to their children, but is also for painters, art teachers and others who might be interested in creating this fine art and will have reason to feel proud of their own achievements.

The In'Ferno Effect Joshua T. Whaley, The police department of Eugene, Oregon, has just made a grisly discovery: the remains of famous mystery writer Jackson Chadwick. All that's left is a human outline of ash, a lower unattached foot, and a ring with the square and compass insignia of the Freemasons. Detective James McCullough can't help but be shocked by the crime scene's resemblance to alleged cases of the phenomenon known as spontaneous human combustion. With no leads on the crime, McCullough finds an ally with another investigator, Father Anthony Rispoli, who is looking into a similar case of alleged spontaneous human combustion involving a well-known Chicago professor. They soon realize that both victims were members of the same Seven-Six Order of the Freemason Lodge in New York City. What they uncover is nothing short of chilling. The lodge was engaged in macabre rituals and bloodletting contracts with the devil himself. With two members dead under such strange circumstances, is the devil coming back to collect? And will the lodges remaining four members be next? Rispoli and McCullough must race against time to save not only the men's lives but their very souls.

Nothing New Under the Sun Nathanael S. Tapsoba, 2019-10-08 L'humanité est de nos jours confronté à plusieurs défis : changement climatique, extrémisme sous toutes ses formes... Il ne se passe plus un jour sans qu'une catastrophe naturelle ou humaine (attentat-suicide) ne vienne endeuiller une région de la planète. La Bande Sahélo-Saharienne n'échappe pas à ces nouvelles menaces, elle qui connaît son lot quotidien d'attentats et de déplacés pour plusieurs raisons dont celles liées à la crise climatique. En outre, certains accords, signés par les Etats africains, par méconnaissance ou par ignorance, ont des conséquences graves qui peuvent aller jusqu'à l'effacement de leur identité, aux fins de soutirer les ressources naturelles pour l'intérêt des puissances industrielles. Face à cette nouvelle donne, une meilleure compréhension de l'évolution du monde sur le plan climatique, mais aussi en termes d'approche de géopolitique, ainsi qu'un changement de comportement s'impose. Aussi, ce livre s'inscrit dans le cadre de la lutte contre l'incivisme, l'extrémisme, le radicalisme religieux et le terrorisme pour toutes les couches et tranches de la société. Dans ce livre, il y a des éléments de base pour une nouvelle approche du terrorisme, à travers la prévention, la réduction du risque, la préparation, la réponse, et la récupération (PRP2R) par l'utilisation de SARA, du 3F-PET et

du PECU. Il aidera les Forces de Défense et de Sécurité à avoir une nouvelle habileté, pour poursuivre leur lutte contre le terrorisme, et les populations des villes et des campagnes à mieux comprendre les dangers autour d'eux. Humanity is confronted with multiple challenges: for example climate change and extremism in all its forms... Not a day goes by without a natural or human catastrophe (like suicide bombings) coming to plague a region of the planet. The Sahel-Sahara Region is not immune to these new threats: it is experiencing its daily lot of attacks and displaced populations due to many factors; including those related to the global climate crisis. Moreover, some agreements signed by African countries (due to lack of knowledge or ignorance) for extracting natural resources in the interest of Western powers, have serious consequences that can go as far as the African countries' loss of identity. Faced with this new challenge, we are required to gain a better understanding of how the world is evolving in terms of climate change, but also in terms of a geopolitical point of view. This book is a part of the fight against the lack of civic engagement, extremism, religious radicalism and terrorism in all socio-economic spheres of society. In this book, there are basic elements for a new approach against terrorism; through prevention, risk reduction, preparedness, response, and recovery (PRP2R) using SARA, 3F- PET and PECU. This book aims to equip the Defense and Security Forces (DSF) with new skills to continue their fight against terrorism; as well as urban and rural populations to understand the dangers surrounding them.

Canada's Storytellers | Les grands écrivains du Canada Andrew David Irvine, 2021-03-24 For over three-quarters of a century, the Governor General's Literary Awards have been awarded annually in a variety of evolving categories. Fifteen Governors General have served as their patron. The impressive list continues to grow apace: between 1936 and 2018, the awards recognized 719 books in English and French and have been presented to 580 authors, illustrators, and translators. This beautifully illustrated bilingual compendium presents the biographies of all 580 award laureates, many accompanied by stunning archival portraits. This is the final instalment in Andrew Irvine's remarkable and comprehensive research into what has become a touchstone of Canada's literary culture. Together with *Canada's Best* and *The Governor General's Literary Awards of Canada: A Bibliography*, this work provides readers with a definitive overview of this literary prize. By itself, *Canada's Storytellers* is an invaluable reading companion for anyone wanting to be introduced to many of our most influential authors, illustrators, and translators working in both French and English over the past decades. It belongs on the shelf of every enthusiast of Canadian literature. Bilingual edition.

Lemon-Aid New and Used Cars and Trucks 2007-2017 Phil Edmonston, 2017-03-11 Steers buyers through the the confusion and anxiety of new and used vehicle purchases like no other car-and-truck book on the market. "Dr. Phil," along with George Iny and the Editors of the Automobile Protection Association, pull no punches.

Dyspepsia and Ibs for the Wise Larry Tremblay, 2011-12-16 Some will tell you that there is no cure for Functional digestive disorders (FDDs), like dyspepsia and irritable bowel syndrome (IBS) Without being completely cured, with the help of regular internal exercises I developed, I live my life as if I was, because at the earliest sign of pain or symptoms I do the exercises to help eliminate them. I hope my experience will enable as many of you as possible to get some relief from FDDs with or without medication. The Personal Approach section describes in simple terms the symptoms I experienced, as well as some of the hypotheses developed to understand and in order to relieve FDDs. I then explain in detail the exercises for gas evacuation and for the release of nervous tension, and consequently, of pain. As this is a little known approach, as far as I know, I explain in detail the exercises and the various levels of improvement one can expect. The Literature Review section is divided into six parts: the Rome Diagnostic Criteria, the description and treatments recommended for the most common ailments (flatulence, reflux, constipation, diarrhea, migraine, etc.); a few known causes of abdominal pain (food, allergies, diseases, etc.); some recent hypotheses (central nervous system, traumas, psychosomatic causes, depression); exercise suggestions from some authors; and, recommended means of alleviating some of the symptoms (homeopathy, herbal medicine, diet, food supplements). In my experience, whatever the approach used to treat FDDs, the results will be improved if the gas release and relaxation techniques are used in combination with it. I am convinced that FDD-related symptoms can often be treated effectively through continuing efforts, a generous and caring attitude towards oneself, better self-knowledge and good judgment (hence the title *Dyspepsia and IBS for the Wise*). Mr Samson of Baie-Comeau, Canada, wrote : To date, your technique is the most effective in bringing me some relief. In my view, this book is the most complete to learn how to treat oneself naturally for symptoms related to FDDs. In my case, one hour of internal exercises a day allows my to live a pain free life even with FDDs. My book is meant o show you how.
