**Dictionary of Inorganic Compounds, Supplement 4** Jane E.

Macintyre,1996-12-05 A team of editors have selected important and interesting compounds which have appeared in the literature since publication of volume 8. Volume 9 contains approximately 1200 compounds which are mostly new entries, plus a selection of data on compounds already listed in volumes 1-8. This represents literature coverage to mid-1995 and extends the range of the Dictionary of Inorganic Compounds to over 50,000 compounds.
