But what makes someone a good leader? And how does each and everyone of us measure up against the leadership standards set by the Prophet? This book presents a well researched leadership framework combined with extensively applied contemporary practitioner case studies for the first time to readers interested in a Sirah (prophetic life) based universal model for good leadership. Drawing upon scholarly findings from eastern and western sources, and having examined an extensive range of works on Sirah, an original framework of eleven prophetic leadership qualities are presented with an entire chapter devoted to each. Well known and lesser known events from the Sirah are explored and analysed like never before, and viewed with a specialist leadership lens, extracting insights on effective people management, authentic leadership and succeeding against the odds. Each chapter on leadership qualities offers not only what the quality means and where it can be found in the life of the Prophet, but how one can develop those qualities within themselves as well.
