Nobody's Girl Friday J. E. Smyth,2018 This book on the history of Hollywood's high-flying career women during the studio era covers the impact of the executives, producers, editors, writers, agents, designers, directors, and actresses who shaped Hollywood film production and style, led their unions, climbed to the top during the war, and fought the blacklist.

Beyond the Best Dressed Esther Zuckerman,2022-02-01 Explore two dozen of the most glamorous, scandalous, and history-making Oscar looks in *Beyond the Best Dressed*, film and culture critic Esther Zuckerman's personality-filled romp through red carpet fashion, complete with original fashion drawings from illustrator Montana Forbes. From the show-stoppingly elegant (Halle Berry winning the award for *Monster's Ball* in a breathtaking Elie Saab) to the decidedly kooky (Adam Rippon in a formal harness), the Academy Awards Telecast is one of the few nights of the year devoted entirely to glamor (in all its forms). Even in the age of streaming, millions upon millions of people sit down at the same time, turn on their televisions, and watch celebrities strut down the red carpet (and, sure, win some awards). Now fans can relive the glamor, drama, and lasting legacy of some of the most influential outfits from more than ninety years of the Oscar in *Beyond the Best Dressed: A Cultural History of the Most Glamorous, Radical, and Scandalous Oscar Fashion*. In twenty-five essays, culture writer Esther Zuckerman explores the iconic fashion choices that made history on the most elegant stage of all, and analyzes the cultural impact of wardrobe decisions both absurd and wonderful. Beginning with Hattie McDaniel's historic and trendsetting turquoise gown in 1940 (worn at a table segregated from her white agent), Zuckerman goes beyond the “best of” lists to shine a deserved spotlight on the truly unforgettable outfits—and deciphers what those outfits represented. *Beyond the Best Dressed* is a first-of-its-kind commemoration of Oscar fashion that perfectly captures the glitz and the glamor for anyone who has ever been to an Oscar watch party (or texted their friends while they watched alone). Fully illustrated with whimsical fashion drawings of the outfits—including Michelle Williams' golden Versace, Sharon Stone's iconic Gap t-shirt, and Rita Moreno's groundbreaking dress worn in both 1962 and 2018—this book is a joyful and vivid odyssey that doesn't stop at the hem of the dress, delving deeper into the cultural effect of these fashion flash points with research and original reporting.

Sporting Blackness Samantha N. Sheppard,2020-06-16 *Sporting Blackness* examines issues of race and representation in sports films, exploring what it means to embody, perform, play out, and contest blackness by representations of Black athletes on screen. By presenting new critical terms, Sheppard analyzes not only “skin in the game,” or how racial representation shapes the genre’s imagery, but also “skin in the genre,” or the formal consequences of blackness on the sport film genre’s modes, codes, and conventions. Through a rich interdisciplinary approach, Sheppard argues that representations of Black sporting bodies contain “critical muscle memories”: embodied, kinesthetic, and cinematic histories that go beyond a film’s plot to index, circulate, and reproduce broader narratives about Black sporting and non-sporting experiences in American society.

Black Oscars Frederick Gooding Jr.,2020-05-24 Second only to the Super Bowl in audience size and revenue, the Oscars are more than a mere ceremony; they are a phenomenon. Hosted by The Academy of Motion Picture Arts and Sciences for over ninety years, the Oscars have long been considered the pinnacle of fantasy, beauty, romance and high class. They are eagerly anticipated and are heavily discussed. It is only recently that movements such as #OscarsSoWhite have raised awareness around the more complicated legacy of the Oscars and African American participation in film. This timely book draws on American, African American, and film history to reflect on how the Oscars have recognized blacks from the award's inception to the present. Starting in the 1920s, the chapters provides a thorough analysis and overview of any black actors nominated for

their Hollywood roles during each decade. By cross-referencing historical trends with prior winners, readers will be able to see consistent patterns when it comes to black characters in film and ultimately judge whether mainstream race relations has truly changed substantively or only superficially over time. Black Oscars presents never seen before statistical analysis of nominees and winners as evidence for racial trends. All black nominees' movie characters are analyzed to contextualize the socio-political meaning of such roles and of the black characters as political images onscreen. Black Oscar winners (more of which occur in the latter decades) are highlighted and cross-referenced with other winners. This analysis is grouped by decade, allowing for appreciation of trends and patterns. For over ninety years, Oscar winners have been considered the standard bearers of all things imaginable within American culture. Given the Oscars' presence and popularity, it begs the question of what do these awards reflect and reinforce about larger society, particularly when it comes to the public participation of African Americans. In the meticulously-researched Black Oscars: From Mammy to Minny, What the Academy Awards Tell Us about African Americans, we see how the Oscars are an indispensable guide to understanding race in mainstream Hollywood.

Black Film British Cinema II Clive Nwonka,Anamik Saha,2021-03-02 The politics of race in British screen culture over the last 30 years vis-a-vis the institutional, textual, cultural and political shifts that have occurred during this period. Black Film British Cinema II considers the politics of blackness in contemporary British cinema and visual practice. This second iteration of Black Film British Cinema, marking over 30 years since the ground-breaking ICA Documents 7 publication in 1988, continues this investigation by offering a crucial contemporary consideration of the textual, institutional, cultural and political shifts that have occurred from this period. It focuses on the practices, values and networks of collaborations that have shaped the development of black film culture and representation. But what is black British film? How do such films, however defined, produce meaning through visual culture, and what are the political, social and aesthetic motivations and effects? How are the new forms of black British film facilitating new modes of representation, authorship and exhibition? Explored in the context of film aesthetics, curatorship, exhibition and arts practice, and the politics of diversity policy, Black Film British Cinema II provides the platform for new scholars, thinkers and practitioners to coalesce on these central questions. It is explicitly interdisciplinary, operating at the intersections of film studies, media and communications, sociology, politics and cultural studies. Through a diverse range of perspectives and theoretical interventions that offer a combination of traditional chapters, long-form essays, shorter think pieces, and critical dialogues, Black Film British Cinema II is a comprehensive, sustained, wide ranging collection that offers new framework for understanding contemporary black film practices and the cultural and creative dimensions that shape the making of blackness and race.
