Plus, we're going to connect you to some resources that can help you become a better speaker, including some examples of public speaking. What is it that talks publicly? Essentially, it is a presentation given live in front of an audience. Public addresses will cover a wide range of different topics. The speech may be directed at informing, entertaining or affecting listeners. Visual aids are often used in the form of an electronic slideshow to supplement the speech and make it more interesting to the listeners.A public-speaking presentation is different from an online presentation because it is possible to view and/or listen to the online presentation at the convenience of the audience, while a public speech is usually restricted to a particular time or place. Online presentations also consist of a speaker's slideshows or pre-recorded videos (including recordings of a live presentation of public speaking).Since public speaking is performed before a live audience, there are certain unique considerations that need to be addressed by the speaker. We'll expand on those shortly, but let's first take a quick look at what we have compiled in the book.In this book you will get to know about: -What is Public speaking?-Evolution of Public Speaking-How to acquire confidence before the audience-The 10 principles of Successful Public speaking.For a better understanding of the book, please give it a read.
