**Vienna** Angus Robertson,2021-10-07 Vienna is unique amongst world capitals in its consistent international importance over the centuries. From the ascent of the Habsburgs as Europe's leading dynasty to the Congress of Vienna, which reordered Europe after Napoleon, to bridge- building summits during the Cold War, it is the Austrian capital that has been the scene of key moments in European and world affairs. History has been shaped by scores of figures influenced by their time in Vienna, including: Empress Maria Theresa, Count Metternich, Bertha von Suttner, Theodore Herzl, Gustav Mahler, Adolf Hitler, Josef Stalin, John F. Kennedy and many others. In a city of great composers and thinkers it is here that both the most positive and destructive ideas of recent history have developed. From its time as the capital of an imperial superpower, through war, dissolution, dictatorship to democracy Vienna has reinvented itself and its relevance to the rest of the world.

**Beethoven** Anne Pimlott Baker,2011-11-08 Considered by many the world's greatest composer, Ludwig van Beethoven achieved his ambitions against the difficulties of a bullying and drunken father, growing deafness and mounting ill-health. Here, Anne Pimlott Baker tells the story of the German composer's life and work, from his birth in Bonn in 1770 and his early employment as a court musician, to his death in Vienna in 1827. She describes his studies with Haydn in Vienna and his work during the French Revolution and the rise of Napoleon. His most financially successful period followed the Congress of Vienna in 1815, despite several unhappy love affairs and continuous worry over his nephew, Karl. Beethoven is a concise, illuminating biography of a true virtuoso.

Political Radicalism in Late Imperial Vienna John W. Boyer, 1995-05-05 John Boyer offers a meticulously researched examination of the social and political atmosphere of late imperial Vienna. He traces the demise of Vienna's liberal culture and the burgeoning of a new radicalism, exemplified by the rise of Karl Lueger and the Christian Socialist Party during the latter half of the nineteenth century. This important study paves the way for new readings of fin de siecle Viennese politics and their broader European significance. Offers a comprehensive, multicausal study of the rise of Christian Socialism in Vienna, that phenomenon which was experienced nowhere else in urban Central Europe and which culminated in the famous clash between the Austrian establishment and the colourful, domineering lead of the movement, Karl, Lueger.—R.J.W. Evans, History Boyer's analysis is masterful in terms of research, exposition, and organization. His use of available economic data is judicious, and his sense of the social structure of late nineteenth-century Vienna is formidable.—William A. Jenks, American Historical Review To understand Viennese and even imperial politics in the latter half of the nineteenth century, Boyer's book is absolutely essential.—Robert Wegs, Review of Politics
