**Thirteen Stones** Nancy Warren, 2019-10-16 When Graham Michelsen pulled up stakes that spring and moved his wife Emily and daughter Lois to a brand-new model satellite community called Centrewood, he believed that its unique town plan based on his ideal form, the Circle, would ensure a life of security and stability. But having barely settled in, he is hit by a barrage of events which clash and collide, stark reality takes on an overlay of farce at times, and he struggles to manage his own equilibrium when everything seems to be going on tilt. Even his own daughter betrays him. Centrewood's concentric circles are failing to protect him and have begun spinning out of control. Partway through the two months of September and October, 1957 that span this story, Lois is not mature enough to understand what is happening to her father Graham. She is not yet fourteen years old. She doesn't know that as Chief Aeronautical Engineer for the Avro Arrow, he had worked so hard leading up to the October 4 Rollout that he was already suffering from burnout. On that very day, he was beset by three major setbacks, after which even more hit him broadside. Lois finds herself adding to his aggravation by suddenly flexing her wings, asserting her right to speak out and stand her ground. She also has her own challenges. She is absorbed by practicing flute with her new friend Becky, preparing to play the Doppler Flute Duet at the Fall recital. The other schoolmate, Mitsy, the thorn in Lois's side from Day One, continues to disrupt Lois with her crazy antics, which ultimately lead to disaster. By the time Lois reaches her fourteenth birthday on November 1, everything has fallen apart.

*The Story of World War II* Donald L. Miller, Henry Steele Commager, 2010-05-08 Drawing on previously unpublished eyewitness accounts, prizewinning historian Donald L. Miller has written what critics are calling one of the most powerful accounts of warfare ever published. Here are the

horror and heroism of World War II in the words of the men who fought it, the journalists who covered it, and the civilians who were caught in its fury. Miller gives us an up-close, deeply personal view of a war that was more savagely fought—and whose outcome was in greater doubt—than readers might imagine. This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative. Miller covers the entire war—on land, at sea, and in the air—and provides new coverage of the brutal island fighting in the Pacific, the bomber war over Europe, the liberation of the death camps, and the contributions of African Americans and other minorities. He concludes with a suspenseful, never-before-told story of the atomic bombing of Nagasaki, based on interviews with the men who flew the mission that ended the war.

The Pumpkin Elf Mystery Abby Klein, 2007 Because of their good behavior, Freddy and his classmates receive a special treat from the Pumpkin Elf--pumpkins to decorate for Halloween--but when Freddy's creation disappears before the contest, he is too sad to start anew.

The History of Nuclear War I John Richard Shanebrook, 2013-10-24 In August of 1945, some 200,000 people died at Hiroshima and Nagasaki from two nuclear weapon explosions during Nuclear War I. This book details the following historical events that led to Nuclear War I: Fermi and Szilard worked on nuclear fission at Columbia University in 1939. Plutonium-239 was discovered in 1940. Einstein informed President Roosevelt of possible German uranium bombs. Fermi built the world's first nuclear reactor in 1942, to manufacture plutonium. General Groves and Oppenheimer led the U.S. effort to build atomic bombs as part of the Manhattan Project. Soviet spies infiltrated the Manhattan Project. The Trinity Test on July 16, 1945, was the world's first nuclear explosion. The Pope (1943) and many scientists spoke against the use of nuclear weapons. Truman became

President on April 12, 1945 and first learned of the Manhattan Project. The B-29 bomber was selected to deliver atomic bombs to Japan. On August 6, 1945, an atomic bomb (uranium) was exploded over the Japanese city of Hiroshima. For three days (August 6th to the 9th) hope abounded that Japan would surrender but preparations for more nuclear war continued. On August 9, 1945, an atomic bomb (plutonium) was exploded over the Japanese city of Nagasaki. Emperor Hirohito survived a coup by angry military officers and Japan surrendered on August 14, 1945.

Pumpkin Scissors 23 Ryotaro Iwanaga, 2020-07-07 Three years after the cease-fire with the Republic, the Empire is still plagued with famine, disease, and former soldiers turned terrorists. Now, a new battle to fight against these scars left by a seemingly endless war has begun with the creation of the Section Three of the Imperial Army's Intelligence Department. Originally intended as a propaganda tool to placate the public, Section Three, better known as Pumpkin Scissors, is committed to cutting through the thick skin of corruption, removing the rotten core, and bringing justice to the people. With the Empire's downfall now inevitable, Claymore One's eleventh-hour raid on the joint congress hall has become a futile bloodbath. Still, the tenacious Intelligence Department refuses to give up, and turns to unusual means to prolong the Empire's life and shed new light on the massacre. Hostages held at gunpoint and sorted by a life-or-death ranking system, a planned attack on the invincible land-operating warship, a devilish trap set to ensnare the ambassador of a friendly nation... so begins a desperate fight to save the Empire!

**Extreme Pumpkins II** Tom Nardone, 2008 A guide to pumpkin carving provides ideas and tips for designing scary and amusing jack-o-lanterns, including such designs as subliminal message pumpkin, angry mob pumpkin, and tiki pumpkin.

We're Going on a Pumpkin Hunt Mary Hogan Wilcox, 2020-08-04 The perfect Halloween read for

trick-or-treaters of all ages. Best-selling illustrator Lynn Munsinger puts pumpkins and autumn center stage in this rollicking take on the classic song, We're Going on a Bear Hunt. A spooky nighttime hunt for the biggest pumpkin in town results in a fright but also a great adventure. Laugh out loud at the sweet silliness and be heartened to know you might not be the only scaredy cat...er, mouse...in the pumpkin patch. The perfect read aloud for fall and Halloween fun. Even without pumpkin pie, readers will hunt down this delightful Halloween offering. —Kirkus Reviews, starred review

**The New Hydropathic Cook Book** Russell Thacher Trall, 2013-10-15 With mid-nineteenth century advances in scientific studies of health and nutrition, diet-based cookbooks like Dr. Russell

Trall's proliferated. Trall founded the New York Hydropathic and Physiological School in 1854, and his New Hydropathic Cook Book was one of the first to subscribe to the school's advocacy of the water cure, using baths and drinking pure water to combat disease and maintain health. The diet proposed in the cookbook consists almost entirely of fruits, grains, and vegetables, with a few animal-based recipes thrown in for those who demanded a wider diet. More than just a list of recipes, the cookbook presents the basis of Trall's diet—the belief that all nutritive material comes from vegetables, and thus animal foods are inferior because they are derivative and likely to be impure. It also includes a discussion of digestion and an exhaustive catalogue of vegetable foods. This edition of The New Hydropathic Cookbook was reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts. Founded in 1812 by Isaiah Thomas, a Revolutionary War patriot and successful printer and publisher, the society is a research library documenting the lives of Americans from the colonial era through 1876. The society collects, preserves, and makes available as complete a record as possible of the printed materials from the early American experience. The cookbook collection comprises approximately 1,100 volumes.

**Participants in the Battle of the Little Big Horn** Frederic C. Wagner III, 2015-12-30 Reviews of the first edition: An essential resource.--Library Journal Admirable...an extremely useful reference tool for researchers interested in U.S. military history.--ARBA A must. Wagner has compiled probably the most complete data of the people who took part in what is arguably the West's most famous battle...excellent.--RoundUp Magazine Impressed...adds a truly personal dimension to one of the most controversial events in Western history...will appeal to academic, as well as public libraries and will often find a home in circulating collections.--Against the Grain. The Battle of the Little Big

Horn was the decisive engagement of the Great Sioux War of 1876-1877. In its second edition this biographical dictionary of all known participants--the 7th Cavalry, civilians and Indians--provides a brief description of the battle, as well as information on the various tribes, their customs and methods of fighting. Seven appendices cover the units soldiers were assigned to, uniforms and equipment of the cavalry, controversial listings of scouts and the number of Indians in the encampments, the location of camps on the way to the Big Horn and more. Updated biographies are provided for many European soldiers, along with an additional 5,060 names of Indians who were or could have been in the battle.

**Atomic Bomb Island** Don A. Farrell, 2021-01-15 Atomic Bomb Island tells the story of an elite, top-secret team of sailors, airmen, scientists, technicians, and engineers who came to Tinian in the Marianas in the middle of 1945 to prepare the island for delivery of the atomic bombs then being developed in New Mexico, to finalize the designs of the bombs themselves, and to launch the missions that would unleash hell on Japan. Almost exactly a year before the atomic bombs were

dropped, strategically important Tinian was captured by Marines—because it was only 1,500 miles from Japan and its terrain afforded ideal runways from which the new B-29 bombers could pound Japan. In the months that followed, the U.S. turned virtually all of Tinian into a giant airbase, with streets named after those of Manhattan Island—a Marianas city where the bombs could be assembled, the heavily laden B-29s could be launched, and the Manhattan Project scientists could do their last work. Don Farrell has done this story incredible justice for the 75th anniversary. The book is a thoroughly researched, beautifully illustrated mosaic of the final phase of the Manhattan Project, from the Battle of Tinian and the USS Indianapolis to Hiroshima and Nagasaki.

Pick a Pumpkin Patricia Toht, 2019-07-09 The creators of Pick a Pine Tree are back with a joyful, energetic celebration of a Halloween tradition. Pick a pumpkin from the patch. Tall and lean or short and fat. Vivid orange, ghostly white, or speckled green, might be just right. Pairing a wonderfully rhythmic read-aloud text with expressive retro illustrations, author Patricia Toht and illustrator Jarvis capture all the excitement and familial feeling of a favorite holiday tradition. Readers will be happy to follow along with each step, from picking out the perfect specimen at the pumpkin patch (be sure to stop for cider and toffee apples) to carting it home, scooping out the insides, carving a scary face, and finally lighting a candle inside — savoring the familiar ritual of transforming an ordinary pumpkin into a one-of-a-kind glowing jack-o'-lantern.
