Understanding Literacy and Disadvantage Debra Myhill,Annabel Watson,Ruth Newman,Clare Dowdall,2022-06-02 Addressing literacy and disadvantage requires high-quality teaching, first and foremost: there are no quick fixes, simplistic solutions or silver bullets. Both research and professional evidence from schools have revealed a strong association between social disadvantage and achievement in literacy: in fact, it has been a concern for over 70 years. Yet, many trainee teachers, and teachers in general, feel ill-equipped to deal with the issue. This book supports trainee teachers to explore the complex relationships between literacy achievement and social background. It offers practical strategies for teaching and supports trainee teachers to understand that: *children's individual backgrounds need to be valued and drawn upon; *deficit descriptions of disadvantaged children and low expectations must be avoided and challenged; *schools, teachers and classrooms must provider rich literacy environments for learning.

Bloomsbury CPD Library: Supporting Children with Special Educational Needs and Disabilities Cherryl Drabble,Bloomsbury CPD Library,2016-09-22 According to the most recent SEND Code of Practice, every teacher is a teacher of children with special educational needs and disabilities, and yet teachers often receive little or no training in this area. Despite their best intentions they are therefore often ill-equipped to rise to the challenge of helping their students achieve the best possible educational outcomes. This comprehensive resource will equip primary and secondary teachers and SENDCos with the training and skills they need to fully support children with SEND in mainstream classrooms. Cherryl Drabble draws on her vast experience as a CPD leader, NQT mentor and her many years of working with SEND to share guidance, practical activities and strategies for evaluating and strengthening your practice and that of your colleagues. The book provides a set of ready-to-use training plans, accompanied by PowerPoint slides available to download online for free, so you can train your colleagues in this essential area and ensure the best support possible for students with SEND across your school. In total, the book offers over 50 hours of CPD, equating to a cost of less than 50p per hour of training!

Gamification: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2015-03-31 Serious games provide a unique opportunity to engage students more fully than traditional teaching approaches. Understanding the best way to utilize games and play in an educational setting is imperative for effectual learning in the twenty-first century. Gamification: Concepts, Methodologies, Tools, and Applications investigates the use of games in education, both inside and outside of the classroom, and how this field once thought to be detrimental to student learning can be used to augment more formal models. This four-volume reference work is a premier source for educators, administrators, software designers, and all stakeholders in all levels of education.

Mobile Learning Shaun Wilden,2017-09-04 Into the Classroom is a series of short, practical guides that help teachers who work in the primary and secondary school setting to make sense of new teaching tools, techniques, and educational policy, with ideas for implementing them in the classroom. Mobile Learning provides clear guidance and essential support for teachers who want to use mobile devices in and outside the language classroom. Full of practical ideas and activities, it emphasizes the power of the mobile device as a tool for language learning. Mobile Learning: • helps teachers get started with using mobile devices and apps in class. • shows how to make the most of in-built features, such as messaging, photos, and audio recording. • introduces more advanced project ideas, including digital storytelling, video and animation, multimodal approaches, and augmented reality. • addresses issues such as acceptable use policies and staying safe. • provides teachers with dozens of practical ideas and activities they can immediately incorporate into their teaching. Shaun Wilden is a teacher, teacher trainer, and materials writer who has been helping teachers integrate technology into their teaching for over a decade. His main areas of interest are mobile devices, online teaching, and creating podcasts.

The Routledge Handbook of Education Technology Santoshi Halder,Sanju Saha,2023-03-10 This handbook offers a comprehensive understanding of the use of technology in education. With a focus on the development of Education Technology in India, it explores innovative strategies as well as challenges in incorporating technology to support learning. The volume examines diverse learning approaches such as assistive technology and augmentative and alternative communication for learners with disabilities and creating more social and accessible environments for learning through Collaborative Learning Techniques (CoLTS), massive open online courses (MOOCs), and the use of AI (Artificial Intelligence) in modern classrooms. Enriched with discussions on recent trends in ET (Education Technology), university curriculum and syllabi, and real-life examples of the use of ET in different classroom settings, the book captures diverse aspects of education technology and its potential. It also discusses the challenges of making technology and resources available for all and highlights the impact technology has had in classrooms across the world during the COVID-19 pandemic. This book will be of interest to students, researchers, and teachers of education, digital education, education technology, and information technology. The book will also be useful for policymakers, educationalists, instructional designers, and educational institutions.

Technology and Digital Media in the Early Years Chip Donohue,2014-08-07 A Co-Publication of Routledge and NAEYC Technology and Digital Media in the Early Years offers early childhood teacher educators, professional development providers, and early childhood educators in pre-service, in-service, and continuing education settings a thought-provoking guide to effective, appropriate, and intentional use of technology with young children. This book provides strategies, theoretical frameworks, links to research evidence, descriptions of best practice, and resources to develop essential digital literacy knowledge, skills and experiences for early childhood educators in the digital age. Technology and Digital Media in the Early Years puts educators right at the intersections of child development, early learning, developmentally appropriate practice, early childhood teaching practices, children's media research, teacher education, and professional development practices. The book is based on current research, promising programs and practices, and a set of best practices for teaching with technology in early childhood education that are based on the NAEYC/FRC Position Statement on Technology and Interactive Media and the Fred Rogers Center Framework for Quality in Children's Digital Media. Pedagogical principles, classroom practices, and teaching strategies are presented in a practical, straightforward way informed by child development theory, developmentally appropriate practice, and research on effective, appropriate, and intentional use of technology in early childhood settings. A companion website (<http://teccenter.erikson.edu/tech-in-the-early-years/>) provides additional resources and links to further illustrate principles and best practices for teaching and learning in the digital age.

Technology-enhanced Learning in the Early Years Foundation Stage Moira Savage,Anthony Barnett,2017-05-05 Discussing learning technologies in relation to young children often provokes a wide range of passionate responses, from sceptics to enthusiasts. This text explores the issues in a holistic, pedagogical and research-

informed way. It helps professionals unpick the complex issues involved, understand the scope of available technology, examine the interplay between learning and specific technologies, and more broadly create a vision for a technology-enabled learning environment that is child-centred, playful, creative and interactive. Recurring case studies are analysed from a number of theoretical perspectives, and the approach deliberately goes beyond the scope of ‘understanding of the world’ to consider the contribution of technology-enhanced learning to a range of different contexts and subject areas. Throughout there are clear links to professional standards, the Early Years Foundation Stage and the characteristics of effective learning.
