The Great Transformation Karl Polanyi,2024-06-20 Tracing the history of capitalism in England and beyond, Karl Polanyi's landmark 1944 classic brilliantly exposed the myth of laissez-faire economics. From the great transformation that occurred during the industrial revolution onwards, he showed, there has been nothing 'natural' about the market state. Instead, the economy must always be embedded in society, and human needs and relations. Witnessing the 'avalanche of social dislocation' of his time - from the Great Depression, to the rise of fascism and communism and the First and Second World Wars - Polanyi ends with a rallying cry for freedom, and a passionate vision to protect our common humanity.

Handbook of Applied Dog Behavior and Training, Adaptation and Learning Steven R. Lindsay,2013-04-29 Twenty-five years of study and experience went into the making of this one-of-a-kind reference. Veterinarians, animal scientists, dog owners, trainers, consultants, and counsellors will find this book a benchmark reference and handbook concerning positive, human management and control of dogs. Reflecting the author's extensive work with dogs, this book promises thorough explanations of topics, and proven behavioural strategies that have been designed, tested, and used by the author. More than 50 figures and tables illustrate this unique and significant contribution to dog behaviour, training, and learning.

The Smitten Kitchen Cookbook Deb Perelman,2012-10-30 NEW YORK TIMES BEST SELLER • Celebrated food blogger and best-selling cookbook author Deb Perelman knows just the thing for a Tuesday night, or your most special occasion—from salads and slaws that make perfect side dishes (or a full meal) to savory tarts and galettes; from Mushroom Bourguignon to Chocolate Hazelnut Crepe. “Innovative, creative, and effortlessly funny. —Cooking Light Deb Perelman loves to cook. She isn’t a chef or a restaurant owner—she’s never even waitressed. Cooking in her tiny Manhattan kitchen was, at least at first, for special occasions—and, too often, an unnecessarily daunting venture. Deb found herself overwhelmed by the number of recipes available to her. Have you ever searched for the perfect birthday cake on Google? You’ll get more than three million results. Where do you start? What if you pick a recipe that’s downright bad? With the same warmth, candor, and can-do spirit her award-winning blog, Smitten Kitchen, is known for, here Deb presents more than 100 recipes—almost entirely new, plus a few favorites from the site—that guarantee delicious results every time. Gorgeously illustrated with hundreds of her beautiful color photographs, The Smitten Kitchen Cookbook is all about approachable, uncompromised home cooking. Here you’ll find better uses for your favorite vegetables: asparagus blanketing a pizza; ratatouille dressing up a sandwich; cauliflower masquerading as pesto. These are recipes you’ll bookmark and use so often they become your own, recipes you’ll slip to a friend who wants to impress her new in-laws, and recipes with simple ingredients that yield amazing results in a minimum amount of time. Deb tells you her favorite summer cocktail; how to lose your fear of cooking for a crowd; and the essential items you need for your own kitchen. From salads and slaws that make perfect side dishes (or a full meal) to savory tarts and galettes; from Mushroom Bourguignon to Chocolate Hazelnut Crepe Cake, Deb knows just the thing for a Tuesday night, or your most special occasion. Look for Deb Perelman’s latest cookbook, Smitten Kitchen Keepers!

Historical Painting Techniques, Materials, and Studio Practice Arie Wallert, Erma Hermens, Marja Peek, 1995-08-24 Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled Historical Painting Techniques, Materials, and Studio Practice at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

Getting the message through: A Branch History of the U.S. Army Signal Corps Rebecca Robbins Raines, 1996 Getting the Message Through, the companion volume to Rebecca Robbins Raines' Signal Corps, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of little or no military value--and the communications it provides have become integral to all aspects of military operations on modern digitized battlefields. The volume is an invaluable reference source for anyone interested in the institutional history of the branch.

The Happier Approach Nancy Jane Smith, 2018-01-10 After almost 20 years of working with women dealing with anxiety and stress. Nancy Jane Smith found that one thing that prevents us from feeling happier is how we talk to ourselves The voice that talks the loudest, is the Monger, who tricks us into beating ourselves up to become a better version of ourselves. The Happier Approach is a simple way to quiet the Monger, be kind to yourself and become more accomplished and productive Through humor and storytelling Nancy Jane will share: How to unhook the belief that being kind to yourself will make you soft and cut your competitive advantage. The 3 characters that influence your ability to be happier. When your Monger has taken over and what to do next. Why your BFF can steer you in the wrong direction. How to unleash your Biggest Fan so you can make decisions for your life without shame, or guilt and be genuinely happier. You don't need to stay in survival mode. You just need a different approach...The Happier Approach

Chinese Cinderella Adeline Yen Mah, 2009-05-06 More than 800,000 copies in print! From the author of critically acclaimed and bestselling memoir Falling Leaves, this is a poignant and moving true account of her childhood, growing up as an unloved daughter in 1940s China. A Chinese proverb says, Falling leaves return to their roots. In her own courageous voice, Adeline Yen Mah returns to her roots to tell the story of her painful childhood and her ultimate triumph in the face of despair. Adeline's affluent, powerful family considers her bad luck after her mother dies giving birth to her, and life does not get any easier when her father remarries. Adeline and her siblings are subjected to the disdain of her stepmother, while her stepbrother and stepsister are spoiled with gifts and attention. Although Adeline wins prizes at school, they are not enough to compensate for what she really yearns for -- the love and understanding of her family. Like the classic Cinderella story, this powerful memoir is a moving story of resilience and hope. Includes an Author's Note, a 6-page photo

insert, a historical note, and the Chinese text of the original Chinese Cinderella. A PW BEST BOOK OF THE YEAR AN ALA-YALSA BEST BOOK FOR YOUNG ADULTS "One of the most inspiring books I have ever read." -The Guardian

Hoosiers and the American Story Madison, James H., Sandweiss, Lee Ann, 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Chronicles of Wasted Time Malcolm Muggeridge, 1972 This first volume of the autobiography of an inveterate journalist and communicator ends in 1933 when the author was 30.

Understanding Media Marshall McLuhan, 2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

The Sciences of the Artificial, reissue of the third edition with a new introduction by John Laird Herbert A. Simon, 2019-08-13 Herbert Simon's classic work on artificial intelligence in the expanded and updated third edition from 1996, with a new introduction by John E. Laird. Herbert Simon's classic and influential *The Sciences of the Artificial* declares definitively that there can be a science not only of natural phenomena but also of what is artificial. Exploring the commonalities of artificial systems, including economic systems, the business firm, artificial intelligence, complex engineering projects, and social plans, Simon argues that designed systems are a valid field of study, and he proposes a science of design. For this third edition, originally published in 1996, Simon added new material that takes into account advances in cognitive psychology and the science of design while confirming and extending the book's basic thesis: that a physical symbol system has the necessary and sufficient means for intelligent action. Simon won the Nobel Prize for Economics in 1978 for his research into the decision-making process within economic organizations and the Turing Award (considered by some the computer science equivalent to the Nobel) with Allen Newell in 1975 for contributions to artificial intelligence, the psychology of human cognition, and list processing. *The Sciences of the Artificial* distills the essence of Simon's thought accessibly and coherently. This reissue of the third edition makes a pioneering work available to a new audience.

Sky High Alisa Huntsman, Peter Wynne, 2013-09-17 Find a "richly varied collection" of triple-layer recipes in this cookbook that takes cake to a whole new level (Flo Braker, author of *The Simple Art of Perfect Baking*). *Sky High* celebrates the triple-layer cake in all its glorious incarnations with more than 40 decadent and delicious recipes. The wide range of flavors will appeal to anyone with a sweet tooth. The book features such delights as Boston Cream Pie, Mile-High Devil's Food Cake, and Key West Cake—and there are even three astonishingly beautiful (and totally doable) wedding cakes! From luscious chocolate creations to drizzled caramel confections, take simple layer cakes to new heights with *Sky High*. "Elevates the classic layer cake . . . And best of all, the recipes are clear and easy to follow." —Nick Malgieri, James Beard Award-winning author of *A Baker's Tour*

The Cortisol Connection Shawn Talbott,2011-01-01 Why does stress make you fat? What can you ultimately do about it? Shawn Talbott answered these questions in THE CORTISOL CONNECTION. Cortisol is the body's main stress hormone, prompting our fight or flight mechanism when dealing with a highly stressful situation, like being chased by a lion. However, the human body was made to deal with short bursts of stress (like being chased by a lion), not prolonged, continuous levels of stress (like mortgage payments, project deadlines, and traffic jams). This kind of stress causes the body's cortisol levels to rise, and scientific research has shown that high cortisol levels are associated with obesity, diabetes, fatigue, and even Alzheimer's disease. This new edition describes the results of the latest research about the connection between cortisol and HSD, and cortisol and testosterone. If we keep cortisol and HSD and testosterone within normal ranges, we're able to maximize the metabolic effect of diet and exercise regimen – and improve weight loss. In the first edition, Talbott introduced his SENSE program, that teaches participants how to manage stress and reduce cortisol levels. The program has been refined in the second edition with the help of the new research and the results of Talbott's test of the SENSE program over the past 5 years – he know it works. For the past 5 years, he has been actively researching (and refining and tweaking) this popular program to make it more and more effective in helping people to lose weight. SENSE is a program that combines Stress management, Exercise, Nutrition, Supplementation, and Evaluation into a comprehensive and highly effective (yet easy to follow) program that delivers results. During these 5 years, Talbott has combined different dietary approaches with varied exercise regimens and myriad supplement combinations – until finding just the right combination that works best for the majority of people. This edition contains 25% new material and a revised program to help everyone manage cortisol, stress, and their weight.
