Entrepreneurial Marketing Edwin J Nijssen, 2017-04-27 How do you sell an innovative product to a market that does not yet exist? Entrepreneurial businesses often create products and services based on radically new technology that have the power to change the marketplace. Existing market research data will be largely irrelevant in these cases, making sales and marketing of innovative new products especially challenging to entrepreneurs. Entrepreneurial Marketing focuses on this challenge. Classic core marketing concepts, such as segmentation, positioning and the marketing mix undergo an 'extreme makeover' in the context of innovative products hitting the market. Edwin J. Nijssen stresses principles of affordable loss, experimentation and adjustment for emerging opportunities, as well as cooperation with first customers. Containing many marketing examples of successful and cutting edge innovations (including links to websites and videos on the Internet), useful lists of key issues and instructions on how to make a one-page marketing plan, Entrepreneurial Marketing: An Effectual Approach provides a vital guide to successfully developing customer demand and a market for innovative new products. This second edition has been thoroughly expanded with: a one-page marketing plan which now focuses on the three entrepreneurial challenges that can be easily adapted; coverage of the customer development process; and updated references and new examples. This book provides students and entrepreneurs with the fundamental tools to succeed in marketing.

American Independent Cinema Geoff King, 2014-09-08 The independent sector has produced many of the most distinctive films to have appeared in the US in recent decades. From 'Sex, Lies and Videotape' in the 1980s to 'The Blair Witch Project' and New Queer Cinema in the 1990s and the ultra-low budget digital video features of the 2000s, indie films have thrived, creating a body of work that stands out from the dominant Hollywood mainstream. But what exactly is 'independent' cinema? This, the first book to examine the question in detail, argues that independence can be defined partly in industry terms but also according to formal and aesthetic strategies and by distinctive attitudes towards social and political issues, suggesting that independence is a dynamic rather than a fixed quality. Chapters focus on distribution and relationships with Hollywood studios; narrative ('Clerks' and 'Slacker' to 'Pulp Fiction', 'Magnolia' and 'Memento') and other formal dimensions (from 'Blair Witch's' 'authenticity' to expressive and stylized camerawork and editing in work from Harmony Korine to the Coen brothers); approaches to genre and alternative socio-political visions.

Nation of Rebels Joseph Heath, Andrew Potter, 2004-12-14 In this wide-ranging and perceptive work of cultural criticism, Joseph Heath and Andrew Potter shatter the most important myth that dominates much of radical political, economic, and cultural thinking. The idea of a counterculture -- a world outside of the consumer-dominated world that encompasses us -- pervades everything from the antiglobalization movement to feminism and environmentalism. And the idea that mocking or simply hoping the system will collapse, the authors argue, is not only counterproductive but has helped to create the very consumer society radicals oppose. In a lively blend of pop culture, history, and philosophical analysis, Heath and Potter offer a startlingly clear picture of what a concern for social justice might look like without the confusion of the counterculture obsession with being different.

Colonial Australian Fiction Ken Gelder, Rachael Weaver, 2017-04-07 Over the course of the nineteenth century a remarkable array of types appeared -- and disappeared -- in Australian literature: the swagman, the larrikin, the colonial detective, the bushranger, the "currency lass", the squatter, and more. Some had a powerful influence on the colonies' developing sense of identity; others were more ephemeral. But all had a role to play in shaping and reflecting the social and economic circumstances of life in the colonies. In *Colonial Australian Fiction: Character Types, Social Formations and the*

Colonial Economy, Ken Gelder and Rachael Weaver explore the genres in which these characters flourished: the squatter novel, the bushranger adventure, colonial detective stories, the swagman's yarn, the Australian girl's romance. Authors as diverse as Catherine Helen Spence, Rosa Praed, Henry Kingsley, Anthony Trollope, Henry Lawson, Miles Franklin, Barbara Baynton, Rolf Boldrewood, Mary Fortune and Marcus Clarke were fascinated by colonial character types, and brought them vibrantly to life. As this book shows, colonial Australian character types are fluid, contradictory and often unpredictable. When we look closely, they have the potential to challenge our assumptions about fiction, genre and national identity. Absolute C++ Walter J. Savitch, Kenrick Mock, 2013 Presents the C++ computer programming language. It provides the tools necessary for experienced and novice programmers to master C++, including: thorough coverage of the Standard Template Library; complete and fully executable code throughout; sections highlighting programming tips and common pitfalls; and a logical order of coverage of C++ topics in order for students to better understand the language. C++ is a general-purpose computer programming language. It has imperative, object-oriented and generic programming features, while also providing facilities for low-level memory manipulation

Applications of Flow in Human Development and Education Mihaly Csikszentmihalyi, 2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied. Based on his personal experience with schooling and learning, as well as that of many others and contrary to what Cicero claimed, Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible, we should try to make them sweeter. Just as flow became a popular and useful concept in voluntary activities, it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to. This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life, more enjoyable. Since theory is the mother of good practice, the first eleven chapters are devoted to theoretical reflections. Some are general and explore what it means to be a human being, what it means to be a person, when we look at life from the perspective of flow. Others are more narrowly focused on such topics as consumption, education, teaching and learning. They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment. The second section of the volume contains a dozen empirical articles on similar topics. They deal with the development of identity and self-worth; with the formation of goals and motivation; with loneliness and family life.

India's Software Industry Richard Heeks, 1996-06-17 Heeks (technology and development, U. of Manchester) provides a critical analysis of the development of India's software industry and its impact on the recent policy of liberalization in the areas of trade, state intervention, and foreign investment. He concludes that liberalization has brought only limited benefits and argues that a successful software industry requires essential state interventions of a promotional nature. American Independent Cinema Yannis Tzioumakis, 2006 This introduction to American Independent Cinema offers both a comprehensive industrial and economic history of the sector from the early twentieth century to the present and a study of key individual films, filmmakers and film companies.

Readers will develop an understanding of the complex dynamic relations between independent and mainstream American cinema. The main argument revolves around the idea that independent American cinema has developed alongside mainstream Hollywood cinema with institutional, industrial and economic changes in the latter shaping and informing the former. Consequently the term 'independent' has acquired different meanings at different points in the history of Hollywood cinema, evolving according to the impact of changing conditions in the American film industry. These various meanings are examined in the course of the book. The book is ordered chronologically, beginning with Independent Filmmaking in the Studio Era (examining both top-rank and low-end independent film production), moving to the 1950s and 1960s (discussing both the adoption of independent filmmaking as the main method of production as well as exploitation filmmaking) and finishing with contemporary American Independent cinema (exploring areas such as the New Hollywood, the rise of mini-major and major independent companies and the institutionalisation of independent cinema in the 1990s). Each chapter includes case studies which focus on specific films and/or filmmakers, while independent production and distribution companies are also discussed in the text. Films, filmmakers and film companies examined include: Cagney Productions and Johnny Come Lately, Blood on the Sun and The Time of Your Life*The Charlie Chan series*Lomitas Productions, Stanley Kramer and The Defiant Ones, On the Beach and Inherit the Wind*Sam Katzman and Rock Around the Clock*Roger Corman and The Wild Angels*John Cassavetes and

Day by Day Rodney P. Carlisle, 2008 Sometimes referred to as the Jazz Age or the Roaring Twenties, the period from 1920 to 1929 witnessed such momentous events as the crash of the stock market, Prohibition, the Harlem Renaissance, the Scopes Monkey Trial, and the first feature-length motion picture with a soundtrack. *Day by Day: The Twenties* is a comprehensive two-volume set presenting a complete, accessible chronology of this pivotal decade. This unique new title documents the major events of the period as they unfolded each day, including the defining social, economic, political, and cultural issues of the time. Comprehensive daily coverage is divided into 10 sections: World Affairs; Europe; Africa and the Middle East; The Americas; Asia and the Pacific; U.S. Politics and Social Issues; U.S. Foreign Policy and Defense; U.S. Economy and Environment; Science, Technology, and Nature; and Culture, Leisure, and Lifestyle.

Our Band Could Be Your Life Michael Azerrad, 2012-12-01 The definitive chronicle of underground music in the 1980s tells the stories of Black Flag, Sonic Youth, The Replacements, and other seminal bands whose DIY revolution changed American music forever. *Our Band Could Be Your Life* is the never-before-told story of the musical revolution that happened right under the nose of the Reagan Eighties -- when a small but sprawling network of bands, labels, fanzines, radio stations, and other subversives re-energized American rock with punk's do-it-yourself credo and created music that was deeply personal, often brilliant, always challenging, and immensely influential. This sweeping chronicle of music, politics, drugs, fear, loathing, and faith is an indie rock classic in its own right. The bands profiled include: Sonic Youth Black Flag The Replacements Minutemen Husker Du Minor Threat Mission of Burma Butthole Surfers Big Black Fugazi Mudhoney Beat Happening Dinosaur Jr.

Cinema of Outsiders Emanuel Levy, 1999-09-01 A Los Angeles Times Bestseller The most important development in American culture of the last two decades is the emergence of independent cinema as a viable alternative to Hollywood. Indeed, while Hollywood's studios devote much of their time and energy to churning out big-budget, star-studded event movies, a renegade independent cinema that challenges mainstream fare continues to flourish with strong critical support and loyal audiences. *Cinema of Outsiders* is the first and only comprehensive chronicle of contemporary independent movies from the late 1970s up to the present. From the hip, audacious early works of maverick David Lynch, Jim Jarmusch, and Spike Lee, to the contemporary Oscar-winning success of indie dynamos, such as the Coen brothers (*Fargo*), Quentin Tarantino (*Pulp Fiction*), and Billy Bob Thornton (*Sling Blade*), Levy describes in a lucid and accessible manner the innovation and diversity of American indies in theme, sensibility, and style. Documenting the socio-economic, political and artistic forces that led to the rise of American independent film, *Cinema of Outsiders* depicts the pivotal role of indie guru Robert Redford and his Sundance Film Festival in creating a showcase for indies, the function of film schools in supplying talent, and the continuous tension between indies and Hollywood as two distinct industries with their own structure, finance, talent and audience. Levy describes the major cycles in the indie film movement: regional cinema, the New York school of film, African-American, Asian American, gay and lesbian, and movies made by women. Based on exhaustive research of over 1,000 movies made between 1977 and 1999, Levy evaluates some 200 quintessential indies, including *Choose Me*, *Stranger Than Paradise*, *Blood Simple*, *Blue Velvet*, *Desperately Seeking Susan*, *Slacker*, *Poison*, *Reservoir Dogs*, *Gas Food Lodging*, *Menace II Society*, *Clerks*, *In the Company of Men*, *Chasing Amy*, *The Apostle*, *The Opposite of Sex*, and *Happiness*. *Cinema of Outsiders* reveals the artistic and political impact of bold and provocative independent movies in displaying the cinema of outsiders--the cinema of the other America.
