**Pinny the Bowling Pin** Leah Ward,2014-11-21 Bowling Pin's have feelings, too, in this funny, uplifting and overcoming story of the pin who felt alone because he couldn't seem to do what all the other pins did - fall. Poor Pinny just wants to fit in. He is tired of being the last bowling pin standing, making it nearly impossible for kids to bowl a strike. Everyone dislikes the last pin, the lone pin, the one who won't fall no matter how many others do. As if it isn't bad enough that the kids don't like him, even the other pin's don't! He is making them look bad after all. But maybe, Pinny wasn't meant to fit in? Maybe he was meant for something greater! Perhaps a doctor, a rockstar, or even the President! Kids will be imagining their own humorous occupations for Pinny, and sharing a laugh with the lovable character and the author who finally revealed the truth behind the bowling pins lives. This story is a perfect gift for anti-bullying, for a reminder to kids to never give up, and for those who just want to know why it's so difficult to bowl a strike!

*Janice VanCleave's Wild, Wacky, and Weird Physics Experiments* Janice VanCleave,2016-07-15 In a series of fun and involving hands-on physics experiments, kids charge an object with static electricity, demonstrate how static charges produce sound, use magnetic force to suspend a paper airplane, determine that objects in water have a different weight than they do in air, and learn how a substance's buoyancy can be changed. They will also determine if shape determines the strength of an object, learn the effect that an object's center of gravity has on motion, demonstrate how the length of a pendulum affects the time of each swing, and discover how the center of gravity is also the balancing point of an object. Featuring color illustrations and safe, simple step-by-step instructions, Janice VanCleave again shows just how much fun science can be.

Serial Pinboarding in Contemporary Television Anne Ganzert,2020-02-07 This book provides an in-depth study of pinboards in contemporary television series and develops the interdisciplinary and innovative concept of Serial Pinboarding. Pinboards are character attributes; they visualize thought processes; are used for conspiracy theories, as murder walls, or for complex cases in any genre. They significantly condition, and are conditioned by, seriality. This book discusses how the pinboards in *Castle*, *Homeland*, *Flash Forward*, and *Heroes* connect evidence, knowledge, and seriality and how through transmediality and fan practices an “age of pinboarding” has formed. *Serial Pinboarding in Contemporary Television* will appeal to TV enthusiasts, professionals and researchers, and students of TV and production studies, fan studies, media studies, and art theory.
