Sell Your Home Quigley Randi Lynn Quigley,2021-04-08 Selling your home is a uniquely emotional affair. Think of your house as the backdrop to a life you’ve built for you and your family. It’s where you go to find peace and joy. It is the shelter you seek when it storms. To you, it is your perfect serenity -- each door opens to memorable, cherished times, and the pride you feel in each of its polished features is matched only by your natural acceptance of its charming flaws. The perfect mix of what makes you feel comfortable and loved. It’s not easy to look at your home without bias and see it of what it is truly, one of the largest assets you will secure in your lifetime. The return on this investment is crucial, one that can make a significant impact on your financial future. Navigating a home transaction is complex, with many moving parts. It’s a path you should not try alone. Balancing this sentimental journey of a home sale with the financial reality of a property transaction is what we do. It requires local expertise, market intuition, and a good deal of emotional intelligence and working experience. As your devoted real estate professionals, we will always have your best interest at heart, and in mind. Allow us to orchestrate the process, negotiate on your behalf, and bring you comfortably to the closing table.

**Building Big Profits in Real Estate** Wade Timmerson,Suzanne Caplan,2004-07-20 Everyday, people just like you have a real chance to make serious money in real estate. All it requires is the discipline to purchase good property and the motivation to make new purchases that will create growing equity. Filled with in-depth insights and practical advice, Building Big Profits in Real Estate will show you the right way to invest in real estate. A successful stock market investor may need to perform extensive research to make a profit, but becoming a successful real estate investor can be more complex and far more hands-on, especially when you're just getting started. The good thing about real estate is that it offers more security as well as greater upside potential than any other investment--mainly because the value of property never goes to zero (unlike some recent stocks) and real estate prices often continue to go up even when general economic conditions are soft. Building Big Profits in Real Estate focuses on the sound strategies that everyone needs to understand before they invest in real estate. It covers important topics, such as analyzing markets, financing your projects, purchasing rental property, managing a real estate portfolio, finding new ways to invest, and understanding wholesale markets. It also reveals some of the most overlooked opportunities in the real estate market, including Section 8 rentals, wholesaling properties, and selling houses on a rent-to-own basis.
