

Pwc Australia Annual Review 2011 102

Jodie Adams Kirshner

Public and Private Enforcement of Securities Laws Michael Legg, 2022-02-10 This book undertakes unique case studies, including interviews with participants, as well as empirical analysis, of public and private enforcement of Australian securities laws addressing continuous disclosure. Enforcement of laws is crucial to effective regulation. Historically, enforcement was the province of a government regulator with significant discretion (public enforcement). However, more and more citizens are being expected to take action themselves (private enforcement). Consistent with regulatory pluralism, public and private enforcement exist in parallel, with the capacity to both help and hinder each other, and the achievement of the goals of enforcement in a range of areas of regulation. The rise of the shareholder class action in Australia, backed by litigation funding or lawyers, has given rise to enforcement overlapping with that of the government regulator, the Australian Securities and Investments Commission. The ramifications of overlapping enforcement are explained based on detailed analysis. The analysis is further bolstered by the regulator's approach to enforcement changing from a compliance orientation to a "Why not litigate?" approach. The analysis and ramifications of the Australian case studies involve matters of regulatory theory and practice that apply across jurisdictions. The book will appeal to practitioners, regulators and academics interested in regulatory policy and enforcement, and the operation of regulators and class actions, including their interaction.

Public Sector Accounting, Accountability and Governance Robyn Pilcher, David Gilchrist, 2018-07-17 Funded by taxation, public spending cannot be separated from politics and ensuring efficiency and effectiveness is always high on the political and policy agenda. Accounting, accountability, governance and auditing are essential ingredients in evaluating public sector performance. Australia and New Zealand are world leaders when it comes to public sector accounting—such as being the first to introduce transaction-neutral accounting standards. This edited collection considers current issues impacting the public sector by primarily drawing upon experiences of Australia and New Zealand. Then, by combining history (from the time of the Domesday book, early sovereignty and Shakespeare) with current practice (differential reporting, international financial reporting standards, government performance, voter turnout, joined-up government and auditing practices), we use these experiences to illuminate the global issues of public sector accounting, accountability and governance. Based on rigorous research by top public sector researchers, this edited collection offers a multitude of future research ideas to enable those interested in following this pathway—whether they are in Australia, New Zealand, the United Kingdom, Europe, the

United States of America, Africa or anywhere else in the world—an avenue to traverse.

Publishing Contracts and the Post Negotiation Space Katherine Day, 2023-03-23 Many writers dream of having their work published by a respected publishing house, but don't always understand publishing contract terms – what they mean for the contracting parties and how they inform book-publishing practice. In turn, publishers struggle to satisfy authors' creative expectations against the industry's commercial demands. This book challenges our perceptions of these author–publisher power imbalances by recasting the publishing contract as a cultural artefact capable of adapting to the industry's changing landscape. Based on a three-year study of publishing negotiations, Katherine Day reveals how relational contract theory provides possibilities for future negotiations in what she describes as a 'post negotiation space'. Drawing on the disciplines of cultural studies, law, publishing studies and cultural sociology, this book reveals a unique perspective from publishing professionals and authors within the post negotiation space, presenting the editor as a fundamental agent in the formation and application of publishing's contractual terms.

Education, Work and Catholic Life Anne Keary, 2019-07-12 This book reports on innovative interdisciplinary research in the field of cultural studies. The study spans the early twentieth to twenty-first centuries and fills a gap in our understanding of how girls' and women's religious identity is shaped by maternal and institutional relations. The unique research focuses on the stories of thirteen groups of Australian mothers and daughters, including the maternal genealogy of the editor of the book. Extended conversations conducted twenty years apart provide a situated approach to locating the everyday practices of women, while the oral storytelling presents a rich portrayal of how these girls and women view themselves and their relationship as mothers and daughters. The book introduces the key themes of education, work and life transitions as they intersect with generational change and continuity, gender and religion, and the non-linear transitional stories are told across the life-course examining how Catholic pasts shaped, and continue to shape, the participants' lives. Adopting a multi-methodological approach to research drawing on photographs, memorabilia passed among mothers and daughters, journal entries and letters, it describes how women's lives are lived in different spaces and negotiated through diverse material and symbolic dimensions.

Australia's Relations with China David Fitzsimmons, 2022-09-08 Drawing on a wealth of interviews with more than fifty key stakeholders from Australia and China, including five former Australian Prime Ministers, Fitzsimmons presents a history and analysis of Australian-Chinese relations since

1972. Fitzsimmons systematically examines how Canberra formulates and implements Australia's China policy, and how PMs and key influencers have made that policy over the last fifty years. Next, it analyses the style, manner and effectiveness of Australian Prime Ministers and other key foreign-policy makers in making Australian policy on China. Next, it charts how Australian policy on China has changed over different political periods. It also highlights Australian policy to China as a global case study for other countries who are closely examining and learning lessons from how one Asia-Pacific middle-power has dealt with the Chinese colossus. An essential guide for students of Australia's international relations, as well as for scholars of international relations more broadly.

Critical Perspectives on Coercive Interventions Claire Spivakovsky, Kate Seear, Adrian Carter, 2018-05-11 Coercive medico-legal interventions are often employed to prevent people deemed to be unable to make competent decisions about their health, such as minors, people with mental illness, disability or problematic alcohol or other drug use, from harming themselves or others. These interventions can entail major curtailments of individuals' liberty and bodily integrity, and may cause significant harm and distress. The use of coercive medico-legal interventions can also serve competing social interests that raise profound ethical, legal and clinical questions. Examining the ethical, social and legal issues involved in coerced care, this book brings together the views and insights of leading researchers from a range of disciplines, including criminology, law, ethics, psychology and public health, as well as legal and medical practitioners, social-service 'consumers' and government officials. Topics addressed in this volume include: compulsory treatment and involuntary detention orders in civil mental health and disability law; mandatory alcohol and drug treatment programs and drug courts; community treatment orders; the use of welfare cards with Indigenous populations; mandated treatment of seriously ill minors; as well as adult guardianship and substituted decision-making regimes. These contributions attempt to shed light on why we use coercive interventions, whether we should, whether they are effective in achieving the benefits that are offered to justify their use, and the impact that they have on some of society's most vulnerable citizens in the names of 'justice' and 'treatment'. This book is essential reading for clinicians, researchers and legal practitioners involved in the study and application of coerced care, as well as students and scholars in the fields of law, medicine, ethics and criminology. The collection asks important questions about the increasing use of coercive care that demand to be answered, and offers critical insights, guidance and recommendations for those working in the field.

Entrepreneurship at a Glance 2015 OECD,2015-08-05 Entrepreneurship at a Glance presents an original collection of indicators for measuring the state of entrepreneurship, along with key facts and explanations of the policy context. The 2015 edition features a special chapter on the international activities of SMEs.

Entrepreneurship at a Glance 2016 OECD,2016-09-28 This publication presents an original collection of indicators for measuring the state of entrepreneurship and its determinants, and provides new data on SMEs and SME productivity, plus indicators to monitor gender gaps in entrepreneurship.

Geographies of Disruption Tan Yigitcanlar,Tommi Inkinen,2019-01-01 This book looks at the uncharted territory between innovation activities and place making efforts to cultivate them. ‘Geographies of Disruption’ aims to fill that gap by exploring the growing importance of place making for knowledge generation and innovation activities in contemporary cities, and providing an in-depth understanding of both theoretical and practical aspects of innovation geographies and the conditions that help their emergence and growth. This book underlines the growing importance of knowledge generation and innovation activities for the competitiveness of cities and their regions. It provides an in-depth and comprehensive understanding of both theoretical and practical aspects of knowledge-based urban development and its implications and prospects for cities and regions. This pioneering book contributes to the conceptualisation and practice of innovation geographies by disseminating both conceptual and empirical research findings with real-world best practice applications. With a multidisciplinary approach to themes of technology and urban development, this book is a key reference source for scholars, practitioners, consultants, city officials, policymakers and innovation study enthusiasts.

Entrepreneurship at a Glance 2014 OECD,2014-07-15 This fourth edition of Entrepreneurship at a Glance presents an original collection of indicators for measuring the state of entrepreneurship and its determinants.

Regional Development in Australia Robyn Eversole,2015-12-22 In Australia, regions are not just geographic locations, they are also cultural ideas. Being regional means being located outside the nation’s capital cities and in the periphery of its centres of power and influence. Regional development in Australia is thus significantly different than its European or American counterparts. However, surprisingly little has been written about the unique dynamics of development in Australia’s regions; this book has been written to fill this gap. In recent decades the Australian government has made

repeated policy efforts to achieve sustainable development in its non-metropolitan areas. Over the same period, those who live and work outside the nation's capital cities have come to identify as regional Australians. This book takes an anthropological approach to understanding the particularities of regional development in Australia. It draws upon rich, on-the-ground observations of towns, industries, universities, development organisations, and communities across different settings to provide an in-depth understanding of the subject. This book will be of interest to researchers and practitioners concerned with regional development and policy.

Entrepreneurship at a Glance 2017 OECD, 2017-09-28 The publication is produced by the OECD-Eurostat Entrepreneurship Indicators Programme based on official statistics. The 2017 edition features a new trends chapter, which also introduces recent developments related to the emergence of the gig economy and the use of digital tools...

Indonesia's Foreign Policy and Grand Strategy in the 21st Century Vibhanshu Shekhar, 2018-03-14 This book examines the changes in Indonesian foreign policy during the 21st century as it seeks to position itself as a great power in the Indo-Pacific region. The rise of 21st-century Indonesia is becoming a permanent fixture in both the domestic and global discourses. Though there has been an increasing level of discussion on Indonesia's emerging power status, there has been little discussion on how the country is debating and signalling its new-found status. This book combines the insights of both neo-classical realism and social identity theory to discuss a reset in an emerging Indonesia's foreign policy during the 21st century while emphasizing domestic drivers and constraints of its international behaviour. There are three key organizing components of the book – emerging power, status signalling and the Indo-Pacific region. The Indo-Pacific region constitutes a spatial framing of the book; the emerging power provides an analytical category to explain Indonesia's changing international status; and status signalling explains multiple facets of international behaviour through which the country is projecting its new status. Though leaders are adding different styles and characteristics to the rising Indonesia narrative, there are a few unmistakable overarching trends that highlight an increasing correlation between the country's rising power and growing ambition in international behaviour. This book is built around four key signalling strategies of Indonesia as an emerging power – expanded regional canvas, power projection, leadership projection, and quest for great power parity. They represent Indonesia's growing desire for a status-consistent behaviour, its response to the prevailing strategic uncertainty in the Indo-Pacific region and its attempt to advance its strategic interests. This book will be of much interest to students

of South-East Asian politics, strategic studies, international diplomacy, security studies and IR in general.

International Bankruptcy Jodie Adams Kirshner, 2018-05-10 With the growth of international business and the rise of companies with subsidiaries around the world, the question of where a company should file bankruptcy proceedings has become increasingly complicated. Today, most businesses are likely to have international trading partners, or to operate and hold assets in more than one country. To execute a corporate restructuring or liquidation under several different insolvency regimes at once is an enormous and expensive challenge. With *International Bankruptcy*, Jodie Adams Kirshner explores the issues involved in determining which courts should have jurisdiction and which laws should apply in addressing problems within. Kirshner brings together theory with the discussion of specific cases and legal developments to explore this developing area of law. Looking at the key issues that arise in cross-border proceedings, *International Bankruptcy* offers a guide to this legal environment. In addition, she explores how globalization has encouraged the creation of new legal practices that bypass national legal systems, such as the European Insolvency Framework and the Model Law on Cross-Border Insolvency of the United Nations Commission on International Trade Law. The traditional comparative law framework misses the nuances of these dynamics. Ultimately, Kirshner draws both positive and negative lessons about regulatory coordination in the hope of finding cleaner and more productive paths to wind down or rehabilitate failing international companies.

Trade Secrets United States. Congress. House. Committee on the Judiciary. Subcommittee on Courts, Intellectual Property, and the Internet, 2014

Globalizing Human Resource Management Paul Sparrow, Chris Brewster, Chul Chung, 2016-08-05 This new edition of *Globalizing Human Resource Management* examines the strategic and global issues of HRM by showing how organizations address the tradeoffs between global integration and local responsiveness. Sparrow, Brewster, and Chung discuss varying methods of globalized talent management and employer branding and conclude with a multi-dimensional approach to HRM. The second edition includes: Updated analyses of talent management, employer branding, and outsourcing of HRM Broader geographic focus, including a new focus on Asian firms and other emerging markets Exploration of the impact of strategic management thinking on HR as well as the latest research in other areas, such as operations, marketing, and economic geography Complementing traditional international HRM texts, this is an ideal book for any student interested in the actual strategic logics being pursued by the HR function today.

The Learning Challenge Nigel Paine, 2014-08-03 The landscape of workplace learning is transforming. Organizations today understand that formal

training is not always the best solution in the fast changing world of innovation and new technology. The rise of social and informal learning, gamification of training, dealing with big data and working with extended enterprise are just some challenges L&D professionals face in their work today. The Learning Challenge helps practitioners to make sense of the latest developments in this area and the impact they have on the learning function in their organization. With the help of case studies and interviews from a range of high profile practitioners, The Learning Challenge defines the role of the new learning leader and illuminates the practical implications for creating and implementing a learning strategy for the 21st century.

FRS 102, 2015

Electric Power Conversion Marian Gaiceanu, 2019-05-15 The introductory chapter to this book is like traveling in a time machine into past, present, and future of electric power conversion. Archeological discoveries are being transformed into the discoveries of the future. The book is an incursion to electric power conversion through electromechanical power conversion, static power conversion, and applications in the field. Each of the above-mentioned sections analyzes the knowledge gained using the experimental results of valuable research projects. Novice readers will learn how energy is converted adequately and adapted to different consumers. Advanced readers will discover different kinds of modern solutions and tendencies in the field of electric power conversion.

The Oxford Handbook of Health Care Management Ewan Ferlie, Kathleen Montgomery, Anne Reff Pedersen, 2016-04-07 This Handbook provides an authoritative overview of current issues and debates in the field of health care management. It contains over twenty chapters from well-known and eminent academic authors, who were carefully selected for their expertise and asked to provide a broad and critical overview of developments in their particular topic area. The development of an international perspective and body of knowledge is a key feature of the book. The Handbook secondly makes a case for bringing back a social science perspective into the study of the field of health care management. It therefore contains a number of contrasting and theoretically orientated chapters (e.g. on institutionalism; critical management studies). This social science based approach is a refreshing alternative to much existing work in this domain and offers a good way into current academic debates in this field. The Handbook thirdly explores a variety of important policy and organizational developments apparent within the current health care field (e.g. new organizational forms; growth of management consulting in health care organizations). It therefore explores and comments on major contemporary trends apparent in the

practice field.

Right here, we have countless books **Pwc Australia Annual Review 2011 102** and collections to check out. We additionally present variant types and furthermore type of the books to browse.
