Stephen J. Pyne

**Here and There** Stephen J. Pyne, 2018-10-23 Fire is special. Even among the ancient elements, fire is different because it alone is a reaction. It synthesizes its surroundings; it takes its character from its context. It varies by place, by culture, and by time. It has no single expression. There is no single way to understand it. In this collection of essays, historian and renowned fire expert Stephen J. Pyne offers his reflections on national and global wildland fire management. Pyne distills the long saga of fire on Earth and its role in underwriting an Anthropocene that might equally be called a Pyrocene. Presented through a mixture of journalism, history, and literary imagination, *Here and There* moves the discussion of fire beyond the usual formations of science and policy within a national narrative to one of thoughtful interpretation, analysis, and commentary. Centered on the unique complexities of fire management in a global world, *Here and There* offers a punctuation point to our understanding of wildfire. Included in this volume: How fire policy has changed within the United States How policy in the United States differs from that in other countries The history of one of the most famous fire paintings of all time Suggested next steps for the future of fire research

**Broken Heartlands** Sebastian Payne, 2021-09-16 *Broken Heartlands* is an essential and compelling political road-trip through ten constituencies that tell the story of Labour's red wall from Sebastian Payne – an award-winning journalist and Whitehall Editor for the Financial Times. The

Times Political Book of the Year A Daily Telegraph, Guardian, Daily Mail and FT Book of the Year 'Immensely readable' - Observer Historically, the red wall formed the backbone of Labour's vote in the Midlands and the North of England but, during the 2019 general election, it dramatically turned Conservative for the first time in living memory, redrawing the electoral map in the process. Originally from the North East himself, Payne sets out to uncover the real story behind the red wall and what turned these seats blue. Beginning in Blyth Valley in the North East and ending in Burnley, with visits to constituencies across the Midlands and Yorkshire along the way, Payne gets to the heart of a key political story of our time that will have ramifications for years to come. While Brexit and the unpopularity of opposition leader Jeremy Corbyn are factors, there is a more nuanced story explored in Broken Heartlands – of how these northern communities have fared through generational shifts, struggling public services, de-industrialization and the changing nature of work. Featuring interviews with local people, plus major political figures from both parties – including Boris Johnson and Sir Keir Starmer – Payne explores the significant role these social and economic forces, decades in the making, have played in this fundamental upheaval of the British political landscape. 'Impressive and entertaining' - Sunday Times 'A must-read for anyone who wants to understand England today' - Robert Peston

The Insider Christopher Pyne,2020-06-30

Christopher Pyne has been many things and called many things throughout his long career in politics. Member for Sturt. Minister for Defence. Manager of Opposition Business. Leader of the House. 'The Fixer'. Any Canberra story he doesn't know isn't worth telling. Now, after 26 years, the ultimate insider is outside the House and ready to burst the Canberra bubble with his trademark sharp wit. His revelations of dealings, double dealings, friendships and feuds shine a light on the political processes of those in power: the egos, the sacrifices, the winners, the losers, the triumphs and the failures. From Howard to Rudd, Gillard, Abbott, Turnbull and Morrison, Christopher Pyne has seen and heard it all. *The Insider* is one of the most brilliant, funny, engaging books by an Australian public figure you'll ever read.

World Fire Stephen J. Pyne,2014-07-01 Back in

PrintWorld Fire is the story of how fire and humans have coevolved. The two are inseparable, and together they have repeatedly remade the planet. "Pyne considers the evolution of fire in such diverse regions as Australia, Africa, Brazil, Sweden, Greece, Iberia, Russia, and India and then ponders Antarctica, the land without fire. As he examines changing techniques for and attitudes toward fire control, Pyne challenges our concepts of nature and wilderness and explains why the study and management of fire have tremendous environmental, cultural, and political implications."—Booklist "A sweeping historical treatise that examines our world's love/hate relationship with conflagration. His engrossing ideas leave bright embers in the memory."—Outside

**Eye Witness** Sam Smiles, 2018-05-08 This title was first published in 2000: This study examines the ways in which very different visual fields might be said to have shared certain working assumptions concerning the truth of representation. It concentrates particularly on prints.

*Men, Masculinities, and Earth* Paul M. Pulé, Martin Hultman, 2021-08-03 This book considers issues of social and ecological significance through a masculinities lens. Earth – our home for aeons – is reeling. The atmosphere is heating up, causing reefs to bleach, fisheries to collapse, regions to flood and dry, vast tracts to burn, the polar ice caps to melt, ancient glaciers to retreat, biodiversity to decline exacerbated by the sixth great extinction, and more. Meanwhile, social and economic disparities are widening. Pandemics are cauterising glocal communities and

altering our social mores. Nationalism is feeding divisiveness and hate, especially through men's violence. Politically extreme individuals and groups are exalting freedom while scapegoating the marginalised. Such are the symptoms of an emerging (m)Anthropocene. This anthology contends with these alarming trends, pointing our attention towards their gendered origins. Building on our monograph *Ecological Masculinities: Theoretical Foundations and Practical Guidance* (2018), this collection of essays is framed as a dinner party conversation grouped into six discursive themes. Their views reflect a growing community of practice, whose combined efforts capture the most recent perspectives on masculine ecologisation. Together, they aim to help create a more caring world for all, moving the ecological masculinities conversation forward as it becomes an established, international, and pluralised field of study.

Culture and Public Action Vijayendra Rao, Michael Walton, 2004 Led by Amartya Sen, Mary Douglas, and Arjun Appadurai, the distinguished anthropologists and economists in this book forcefully argue that culture is central to development, and present a framework for incorporating culture into development discourse. **Ocean** Steve Mentz, 2020-03-19 *Object Lessons* is a series of short, beautifully designed books about the hidden lives of ordinary things. The ocean comprises the largest object on our planet.

Retelling human history from an oceanic rather than terrestrial point of view unsettles our relationship with the natural environment. Our engagement with the world's oceans can be destructive, as with today's deluge of plastic trash and acidification, but the mismatch between small bodies and vast seas also emphasizes the frailty and resilience of human experience. From ancient stories of shipwrecked sailors to the containerized future of 21st-century commerce, Ocean splashes the histories we thought we knew into salty and unfamiliar places. Object Lessons is published in partnership with an essay series in The Atlantic.

**The Popular Guide to the House of Commons** ,1892

**The Narrative of Arthur Gordon Pym of Nantucket**  
Edgar Allan Poe,2013-08-13 When Edgar Allan Poe's only novella was first published in 1838, the reviews were slow in coming and dismissive when they arrived. The book's failure left Poe in such dire financial straits that he even accepted a job

at one of the magazines that had panned it. But The Narrative of Arthur Gordon Pym of Nantucket has since become one of his most influential works: Baudelaire translated it, Paul Theroux read it out loud to Jorge Luis Borges, Jules Verne wrote a sequel to it, H. P. Lovecraft drew on it in creating his own tales of the Antarctic . . . Ostensibly, it's a classic adventure story about a young boy who runs away to sea and encounters all the classic scenarios: mutinies, storms, shipwrecks, ravenous sharks, hostile natives. And Poe drew on many contemporary accounts of exploration in the South Seas to give his story a sense of verisimilitude. But there are far deeper currents at work in the book than mere adventure: elements of the supernatural as they near the South Pole, evocations of the protagonists' experiences at sea that rival Poe's best tales of horror, and a disturbing ending that continues to stir debate.

### **Australian Foreign Policy Michael**

O'Keefe, 2023-08-10 How does Australia's unique geographical, cultural and historical position influence its approach to foreign policy? What key challenges does Australia face on the world stage, and how can it overcome them? Reflecting the messy reality of foreign policy decision-making, this book helps you to understand the changes and continuities in Australia's approach. For example, does the US withdrawal from Vietnam in 1973 and collapse of South Vietnam continue to cast a shadow over Australian foreign policy, or is it relevant only in understanding the dynamics of the cold war? Using an Australian Strategic Culture

framework, O'Keefe sheds light on the characteristics that make Australia behave in a way different to any other country and equips you with analytic skills to understand the main debates, such as: - In what sense could Australia be seen as a 'good' international citizen? - Have national interests trumped global responsibilities? - How does the intersection between civil society and public opinion interact with foreign policy making? This book is essential reading if you are a student of Australian foreign policy, as well as of broader Australian domestic politics and international relations.
