Industrial Machine Learning Andreas François Vermeulen,2019-11-30 Understand the industrialization of machine learning (ML) and take the first steps toward identifying and generating the transformational disruptors of artificial intelligence (AI). You will learn to apply ML to data lakes in various industries, supplying data professionals with the advanced skills required to handle the future of data engineering and data science. Data lakes currently generated by worldwide industrialized business activities are projected to reach 35 zettabytes (ZB) as the Fourth Industrial Revolution produces an exponential increase of volume, velocity, variety, variability, veracity, visualization, and value. Industrialization of ML evolves from AI and studying pattern recognition against the increasingly unstructured resource stored in data lakes. Industrial Machine Learning supplies advanced, yet practical examples in different industries, including finance, public safety, health care, transportation, manufactory, supply chain, 3D printing, education, research, and data science. Front Pages Nancy Chunn,1997 Front Pages is an illustrated novel of the real world created by the painter Nancy Chunn. Every day of 1996 Chunn claimed as an artistic canvas the front page of the New York Times. Using specialized rubber stamps and bold pastels to enhance, eradicate, and alter images and text, she created a commentary - colorful, intense, smart, compassionate, visually explosive - on the year's events and the power of the press. When these artworks were shown at the Ronald Feldman Gallery in New York, they created a sensation. Chunn's treatment of the events we all lived through - the Presidential campaign, the crash of TWA flight 800, the wars in Chechnya and Rwanda - will strike an immediate chord in readers tuned in to the complex frequencies of a political world awash in images and news. Gary Indiana's interview with the artist provides lively and intimate insights into the artistic process as means of talking back to power and engaging with the world. Front Pages is being published to coincide with an exhibition of these works at The Corcoran Gallery of Art in Washington, DC, January 10-March 2, 1998.

Comrades and Strangers Michael Harrold,2004-08-19 In 1987 Michael Harrold went to North Korea to work as English language adviser on translations of the speeches of the late President Kim Il Sung (the Great Leader) and his son and heir Kim Jong Il (then Dear Leader and now head of state). For seven years he lived in Pyongyang enjoying privileged access to the ruling classes and enjoying the confidence of the country's young elite. In this fascinating insight into the culture of North Korea he describes the hospitality of his hosts, how they were shaken by the Velvet Revolution of 1989 and many of the fascinating characters he met from South Korean and American GI defectors to his Korean minder and socialite friends. After seven years and having been caught passing South Korean music tapes to friends and going out without his minder to places forbidden to foreigners, he was asked to leave the country.
