*The Semantics of Chinese Music* Adrian Tien, 2015-01-14 Music is a widely enjoyed human experience. It is, therefore, natural that we have wanted to describe, document, analyse and, somehow, grasp it in language. This book surveys a representative selection of musical concepts in Chinese language, i.e. words that describe, or refer to, aspects of Chinese music. Important as these musical concepts are in the language, they have been in wide circulation since ancient times without being subjected to any serious semantic analysis. The current study is the first known attempt at analysing these Chinese musical concepts linguistically, adopting the Natural Semantic Metalanguage (NSM) approach to formulate semantically and cognitively rigorous explications. Readers will be able to better understand not only these musical concepts but also significant aspects of the Chinese culture which many of these musical concepts represent. This volume contributes to the fields of cognitive linguistics, semantics, music, musicology and Chinese studies, offering readers a fresh account of Chinese ways of thinking, not least Chinese ways of viewing or appreciating music. Ultimately, this study represents trailblazing research on the relationship between language, culture and cognition.

**The Treatment of Modern Western Medical Diseases with Chinese Medicine** Bob Flaws, Philippe Sionneau, 2001 This book is a textbook and clinical manual on the treatment of modern Western medical diseases with Chinese medicine. By modern Western medical diseases, we mean all the disease categories of Western medicine excluding gynecology and pediatrics. By Chinese medicine, we mean standard contemporary professional Chinese medicine as taught at the two dozen provincial Chinese medical colleges in the People's Republic of China. The two main therapeutic modalities used in the practice of this style of Chinese medicine are acupuncture-moxibustion and the internal administration of multi-ingredient Chinese medicinal formulas. Treatment plans for each disease discussed herein are given for each of these two main modalities.

**Treating Autoimmune Disease with Chinese Medicine E-Book** Wanzhu Hou, 2009-07-21 TREATING AUTOIMMUNE DISEASES WITH CHINESE MEDICINE clearly describes the integration of Chinese and Western medicine in the treatment of autoimmune diseases. This book clearly describes how Chinese medicine can treat autoimmune diseases by clearly presenting recommendations for acupuncture point and herbal treatment when the patient presents with different symptoms, different blood results and may be taking different medications. Written by highly qualified, American-based practitioners with long experience of working in both Chinese and Western medical environments Addresses the use of Chinese medicine in a wide range of autoimmune diseases including rheumatoid arthritis, multiple sclerosis, and psoriasis Includes treatments using both acupuncture and Chinese herbs

*Local, Traditional and Indigenous Food Systems in the 21st Century to Combat Obesity, Undernutrition and Climate Change, 2nd edition* Rebecca Kanter, Sofia Boza, Gina Kennedy, 2023-07-31 Traditional and indigenous food systems have existed for centuries and were in balance with local food supplies, globally. However, between the mid 20th and early 21st century the green revolution dramatically altered food production, which in turn affected the inclusivity of traditional production systems within food systems and subsequently, traditional dietary intakes. This change was accompanied by lifestyle changes and spurred a global nutrition transition. Today the world faces a global syndemic of obesity, undernutrition, and climate change. A new call to action to create food systems that nourish people and sustain the planet is needed. Traditional and indigenous food systems have long been recognized as systems that can both support good human nutrition as well as maintain a balance with nature. There is an underutilized knowledge base around traditional and indigenous food systems. This includes the knowledge of nutritious species, traditional culinary preparations, and cultural practices. Greater agricultural production of underutilized species can result in more sustainable agricultural and food systems which can also help improve livelihoods and food security. Traditional and indigenous cultural practices with respect to both land and water management, as well as culinary practices, contribute to both sustainable food production and consumption. These practices require a greater evidence base in order to be incorporated into public health nutrition initiatives related to improving dietary quality, such as food-based dietary guidelines for example. An increased focus on the importance of local, traditional, and indigenous food systems and nutrition could therefore help countries to improve human nutrition and, ideally, help mitigate the global syndemic of obesity, undernutrition, and climate change. This Research Topic will focus on documenting diverse local food systems and promoting elements within them that can help improve nutrition and health - both human and planetary - in various ways including the livelihood development of knowledge holders.

*Chinese Painting and Its Audiences* Craig Clunas, 2023-10-17 A history of the reception of Chinese painting from the sixteenth century to the present What is Chinese painting? When did it begin? And what are the different associations of this term in China and the West? In *Chinese Painting and Its Audiences*, which is based on the A. W. Mellon Lectures in the Fine Arts given at the National Gallery of Art, leading art historian Craig Clunas draws from a wealth of artistic masterpieces and lesser-known pictures, some of them discussed here in English for the first time, to show how Chinese painting has been understood by a range of audiences over five centuries, from the Ming Dynasty to today. *Chinese Painting and Its Audiences* demonstrates that viewers in China and beyond have irrevocably shaped this great artistic tradition. Arguing that audiences within China were crucially important to the evolution of Chinese painting, Clunas considers how Chinese artists have imagined the reception of their own work. By examining paintings that depict people looking at paintings, he introduces readers to ideal types of viewers: the scholar, the gentleman, the merchant, the nation, and the people. In discussing the changing audiences for Chinese art, Clunas emphasizes that the diversity and quantity of images in Chinese culture make it impossible to generalize definitively about what constitutes Chinese painting. Exploring the complex relationships between works of art and those who look at them, *Chinese Painting and Its Audiences* sheds new light on how the concept of Chinese painting has been formed and reformed over hundreds of years. Published in association with the Center for Advanced Study in the Visual Arts, National Gallery of Art, Washington, DC Please note: All images in this ebook are presented in black and white and have been reduced in size.

**Traditional Chinese Medicines** Xinjian Yan, Guirong Xie, Jiaju Zhou, G. W. A. Milne, 2018-10-03 This title was first published in 2003. In laboratories around the world the active principles in traditional herbal medicines are being isolated and characterized. A systematic effort at the Chinese Academy of Sciences is underway to identify the structure-activity relationships that result from the link between chemistry and medicine that is permitted by this data. This book, which provides the only systematic English-language description of the chemical structures and pharmacological effects of compounds active in traditional Chinese medicines (TCMs), is now in its second edition. The new edition provides English-language monographs on over 9000 chemicals isolated from nearly 4000 natural sources used in Chinese medicine and features the addition of in-depth bioactivity data for many of the compounds. Effects and indications of the medicines are included. Extensive indexing permits cross-referencing among English, Chinese and Latin names for natural medicinal sources, effects and indications, and the chemical components of the medicines. The second edition of *Traditional Chinese Medicines* includes 2300 new compounds, 2400 additional plant sources, more CAS Registry Numbers, and more pharmacological data. The structure of the book has been extensively reorganised to make cross referencing the data much simpler. This new edition is therefore a substantial improvement on the first edition of this important reference on the structural chemistry of traditional Chinese medicines.

**Essentials of Chinese Materia Medica and Medical Formulas** Shengyan Xi, Yuewen Gong, 2017-05-01 Essentials of

Chinese Materia Medica and Medical Formulas: New Century Traditional Chinese Medicine presents specific knowledge about the source, medicinal nature, action and application of more than 800 commonly-used Chinese materia medica, as well as the efficacy and application of more than 740 kinds of commonly-used Chinese medical formulas. Notably, all of the content is presented in table form, making the information easier to access, understand and apply. Each primary herbal medicine is introduced with color pictures, and each primary formula is presented with efficacy analysis pictures. The book provides readers with essential information on Chinese materia medica and formulas and how to use them accurately, including the most common Chinese materia medica used in clinics and in commonly used clinical formulas. This is an essential reference for traditional medical professionals and those interested in traditional Chinese medicine, including advanced undergraduate and postgraduate students. Includes over 800 Chinese materia medica and 740 medical formulas with their essential information Combines 514 color pictures of medicine material crude slices and 255 formulary efficacy analysis pictures Organized with concise forms, facilitating understanding and memorization

**Xie's Chinese Veterinary Herbology** Huisheng Xie, Vanessa Preast, 2011-11-16 Xie's Chinese Veterinary Herbology serves as a practical guide to the theory and application of Chinese Herbal Medicine into veterinary practices. Divided into three parts, the book covers herbal materia medica used in treating various disorders and diseases, herbal formulas, and the clinical application of treatments. The book also outlines each herb's history, the formulation of herbal recipes, energetic actions, indications and contraindications of each formula, dosages, and clinical and pharmacological studies performed with herbal treatments. This text serves as an invaluable reference to veterinarians looking to expand treatment options.

**The Rise of Confucian Ritualism in Late Imperial China** Kai-wing Chow, 1996-12-01 This pathbreaking work argues that the major intellectual trend in China from the seventeenth through the early nineteenth century was Confucian ritualism, as expressed in ethics, classical learning, and discourse on lineage. Reviews Chow has produced a work of superb scholarship, fluently written and beautifully researched. . . . One of the landmarks of the current reconstruction of the social philosophy of the Qing dynasty. . . . Chow's book is indispensable. It has illuminating analyses of many mainstream writers, institutions, and social categories in eighteenth-century China which have never previously been examined. -Canadian Journal of History Chow's monograph moves ritual to center stage in late imperial social and intellectual history, and the author makes a powerful case for doing so. . . . Because the author understands the intellectual history of late Ming and Qing as the history of a movement, or successive movements, of fundamental social reform, he has also made an important contribution to social and political history as these were related to intellectual history. -Journal of Chinese Religion Chow's book is an excellent contribution to recent scholarship on the intellectual history of the Confucian tradition and provides a balance for other studies that have emphasized ideas to the exclusion of symbols. -The Historian

**Craziness and Carnival in Neo-Noir Chinese Cinema** Harry H. Kuoshu, 2021-04-20 Craziness and Carnival in Neo-Noir Chinese Cinema offers an in-depth discussion of the "stone phenomenon" in Chinese film production and cinematic discourses triggered by the extraordinary success of the 2006 low-budget film, Crazy Stone. Surveying the nuanced implications of the film noir genre, Harry Kuoshu argues that global neo noir maintains a mediascape of references, borrowings, and re-workings and explores various social and cultural issues that constitute this Chinese episode of neo noir. Combining literary explorations of carnival, postmodernism, and post-socialism, Kuoshu advocates for neo noir as a cultural phenomenon that connects filmmakers, film critics, and film audiences rather than an industrial genre.

**The Russian Hero in Modern Chinese Fiction** Mau-sang Ng, 1988-01-01 The Russian influence took root in the Chinese intellectual tradition that evolved after the Literary Revolution of 1917. When the Chinese communists turned to Russia for their inspiration they also accepted the Russian version of the novel's form and function in society. However, they did not accept it uncritically. Chinese understanding of the arts goes back for thousands of years and thus Chinese intellectuals brought their own kinds of tradition and intelligence to these new arts and political solutions. In this lucid study, the author demonstrates how Chinese writers, guided by Russian authors such as Chekhov, Turgenev, and Andreyev, created works of art that are both original and Chinese. However, he also shows that the familiar heroes of such famous novelists as Lu Xun, Yu Dafu, Mao Dun, and Ba Jin have a strong Russian flavor linked to prototypes in the Russian literary tradition. The author depicts the fortune of Soviet literature and the fate of the intellectual hero in the People's Republic of China. He believes that the humanistic May Fourth intellectual tradition, which inspired enthusiasm for classical Russian literature, has been revived with the publication of works like Dai Houying's Man ah, Man! and Zhao Zhenkai's Waves.

**Encyclopedia of Traditional Chinese Medicines - Molecular Structures, Pharmacological Activities, Natural Sources and Applications** Jiaju Zhou, Guirong Xie, Xinjian Yan, 2011-02-21 This set of six volumes provides a systematic and standardized description of 23,033 chemical components isolated from 6,926 medicinal plants, collected from 5,535 books/articles published in Chinese and international journals. A chemical structure with stereo-chemistry bonds is provided for each chemical component, in addition to conventional information, such as Chinese and English names, physical and chemical properties. It includes a name list of medicinal plants from which the chemical component was isolated. Furthermore, abundant pharmacological data for nearly 8,000 chemical components are presented, including experimental method, experimental animal, cell type, quantitative data, as well as control compound data. The seven indexes allow for complete cross-indexing. Regardless whether one searches for the molecular formula of a compound, the pharmacological activity of a compound, or the English name of a plant, the information in the book can be retrieved in multiple ways.

**Chinese Medical Obstetrics** Bob Flaws, 2005 This book is both a study text and clinical manual on the Chinese medical treatment of obstetric conditions, or diseases women may experience during pregnancy, childbirth and shortly thereafter. However, in addition to everything one would expect to find in such a book, this text, also, includes: abstracts of recent Chinese research for most chapters; case history examples of common clinical presentations throughout the book; clinical tips at the end of each chapter from the author's personal experience; special medicinal or important acupuncture points for specific conditions; cautions or danger signs that every practitioner of Chinese medical obstetrics needs to know; and protocols for five dozen Chinese gestational, birthing, and postpartum conditions.

The Treatment of Disease in TCM: Diseases of the eyes, ears, nose & throat Philippe Sionneau, Lü Gang, 1996

Handschriften der Yao Michael Friedrich, Thomas O. Höllmann, 2004 Im Rahmen des Forschungsvorhabens Religiöse Schriften der Yao wurde ein großes Segment der entsprechenden Bestände der Bayerischen Staatsbibliothek erfasst: mit 2776 Kodizes, die dieser mehrheitlich in China, Thailand, Laos und Vietnam als Minderheit lebenden Gruppe zugerechnet werden, einer der bedeutendsten Sammlungen weltweit. Etwa ein Drittel davon beinhaltet das hier vorgelegte Verzeichnis. Dabei handelt es sich insofern um eine Pioniertat, als erstmals ein Katalog der mit Hilfe chinesischer Schrift niedergelegten Texte veröffentlicht wird, welcher auf eine wissenschaftlichen Kriterien standhaltende Dokumentation abzielt. Dies zeigt sich nicht nur im Umfang der einbezogenen Informationen (einschließlich der Benennung von Besitzern und Schreibern), sondern auch in dem Bemühen um Zuordnungen (Lokalisierung, Datierung, Verknüpfung mit bestimmten Ritualen, Anbindung an religiöse Schulen), die den Ausgangspunkt für weiterführende Forschungsaktivitäten bilden sollen. Schließlich ist die Bereitstellung der im Katalog erfassten Daten nicht zuletzt für die Yao selbst von Bedeutung, welche ihre Identität insbesondere an der Verschriftlichung ihrer religiösen Traditionen festmachen.
