Escape from Qatar Atilla Yusuf Guleker,2022-11-30 All eyes are on Qatar for the 2022 FIFA World Cup. Having lived there for 5 years, I have presented the reality of the situation in Qatar with research and current examples. It is almost like an X-ray of Qatar. From the air to the water, from the way people are educated to the way they are cured. The story of a country that looks beautiful on the outside, but where deception is hiding just beneath the surface... a country that is ornate on the outside but rusty on the inside. The case of Qatar through personal experiences, research, and current examples... When you realize the true face of this flashy country that has spent more money on the FIFA 2022 World Cup than all the money spent to date, you will want to escape, hence the title 'Escape from Qatar.' This book is also a survival guide full of tips, -some sad, some funny, for those who want to visit or live in Qatar. From the pen of journalist, educator, and writer Atilla Yusuf Guleker, who has been declared the 'imam of Qatar' by the Turkish media...

Policy-Making in the GCC Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post-2011 reordering of the Middle East. Despite the rise in prominence of individual Gulf states - especially Kuwait, Qatar, Saudi Arabia and the United Arab Emirates - and the growth of the GCC as a collective entity, surprisingly little attention has been paid to the actual mechanics of policy-making in the region. This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states. The research coincides with two key developments that have given institutions new importance in the policy process: the emergence of a new generation of leaders in the Gulf, and the era of low oil prices. Both developments, along with dramatic demographic change, have compelled state and citizens to re-evaluate the nature of the social contract that binds them together. Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy. The book shows how academic, social and economic institutions are responding to the increasingly complex process of decision-making, where citizens demand better services and further empowerment, and states are obliged to seek wider counsel, although wanting to retain ultimate authority. With contributions from both academics and practitioners, this book will be highly relevant for researchers and policymakers alike.
