Interactive Collaborative Learning Michael E. Auer, David Guralnick, James Uhomobhi, 2016-12-31 This book presents the proceedings of the 19th International Conference on Interactive Collaborative Learning, held 21-23 September 2016 at Clayton Hotel in Belfast, UK. We are currently witnessing a significant transformation in the development of education. The impact of globalisation on all areas of human life, the exponential acceleration of developments in both technology and the global markets, and the growing need for flexibility and agility are essential and challenging elements of this process that have to be addressed in general, but especially in the context of engineering education. To face these topical and very real challenges, higher education is called upon to find innovative responses. Since being founded in 1998, this conference has consistently been devoted to finding new approaches to learning, with a focus on collaborative learning. Today the ICL conferences have established themselves as a vital forum for the exchange of information on key trends and findings, and of practical lessons learned while developing and testing elements of new technologies and pedagogies in learning.

German Business Social Network XING: Shortcut for Doing Business with Germans (published in Mandarin) Yinyuan Liu, 2014-08 The German business social network XING is the only international multi-language business social network platform in the world that supports Chinese. XING has now over 14 million members all over the world from 190 countries and regions. About half of them are from Germany or from German speaking countries. Therefore, if you want to cooperate with German companies and people or if you want to know more about studying and working chances in Germany, XING is the best choice for you. XING can offer Chinese companies and people more, better and true information and possibilities to know German companies and qualified specialists. It can stimulate effective business cooperation between China and Germany. Unfortunately, most of Chinese companies and people don't know about XING though they wish to cooperate with Germans, and vice versa. The aim of this book is therefore to build a bridge between China and Germany for a notable better communication by introducing XING to Chinese friends. This book is written especially for those who interested in German people and companies as well as German culture. They are interested in getting first-hand and true information and want to present their own companies and personal achievement as well as their products and service to Germans. This book is also helpful for those who want to go to Germany to study, work or for those who interested in German subsidiaries and people in China. In addition to introducing German business social network XING, the culture difference between China and Germany is also explained in this book. The author, in view of a German at heart a Chinese, gives Chinese friends valuable advice of how to communicate and do business with Germans efficiently. Therefore, this book will be very helpful for your business and your personal development.

Web Service APIs and Libraries Jason Paul Michel, 2013 This book shows how to enhance an institution's presence on the Web with tools that integrate a variety of handy, popular programs. Application Programming Interfaces (APIs) are software tools that help different programs work together, and Michel shows readers how to integrate them into existing library websites as well as use them to launch new kinds of services. Offering step-by-step guidance, this book Uses real-world examples to show how APIs can be used to promote library materials and events, visualize data, educate patrons, and mobilize library services Demonstrates how to create and manage widgets for photo galleries, instant reporting on computer/printer availability, featured book titles and book reviews from library users, tracking usage data, and many other library functions Includes instructions for working with

popular tools such as Flickr, YouTube, Vimeo, Twitter, Google Charts, OCLC, WordPress, Goodreads, LibraryThing, and the Hathi Trust Provides plentiful screenshots, snippets of HTML code, and easy-to-follow samples to ensure that even novices will feel comfortable integrating APIs into their marketing plans Focusing on widely adopted tools that all have immediate, useful applications, this practical book will help extend any library's reach.

Semantic Web Technologies and Social Searching for Librarians Robin M. Fay,Michael Sauers,2012 There are trillions of bytes of information within the web, all of it driven by behind-the-scenes data. Vast quantities of information make it hard to find what's really important. Here's a practical guide to the future of web-based technology, especially search. It provides the knowledge and skills necessary to implement semantic web technology. You'll learn how to start and track trends using social media, find hidden content online, and search for reusable online content, crucial skills for those looking to be better searchers. The authors explain how to explore data and statistics through WolframAlpha, create searchable metadata in Flickr, and give meaning to data and information on the web with Google's Rich Snippets. Let Robin M. Fay and Michael P. Sauers show you how to use tools that will awe your users with your new searching skills.

Scan Me - Everybody's Guide to the Magical World of Qr Codes Mick Winter,2011 Everybody's Guide to the Magical World of QR Codes Imagine you could hold your mobile phone up to an image, and magically summon any information you wished.You see a movie poster and wonder if the movie is worth seeing. Zap! You're watching the movie's trailer. You see a restaurant menu and wonder about the food. Zap! You're reading reviews from people who ate there. You're at a subway stop. Zap! You're seeing the actual arrival time of the next train. You see a magazine ad for a product and want to buy it. Zap! You've placed the order. How does this magic happen? With something called a QR Code. If you have a business or non-profit organization, you absolutely want to know how to use QR Codes. This book will tell you how you can use them in your marketing to attract, assist, hang on to and increase your customers. If you want to know how to make them and use them for personal or educational use, you'll learn that, too. They're free. They're fun. They're useful. Why not start now?
