101 Zen Stories Nyogen Senzaki,1940 There was an old woman in China who had supported a monk for over twenty years. She had built a little hut for him and fed him while he was meditating. Finally she wondered just what progress he had made in all this time. To find out, she obtained the help of a girl rich in desire. “Go and embrace him,” she told her, “and then ask him suddenly: ‘What now?’” The girl called upon the monk and without much ado caressed him, asking him what he was going to do about it. “An old tree grows on a cold rock in winter,” replied the monk somewhat poetically. “Nowhere is there any warmth.” The girl returned and related what he had said. “To think I fed that fellow for twenty years!” exclaimed the old woman in anger. “He showed no consideration for your need, no disposition to explain your condition. He need not have responded to passion, but at least he could have evidenced some compassion.” She at once went to the hut of the monk and burned it down. This Zen classic includes the following stories: 1. A Cup of Tea 2. Finding a Diamond on a Muddy Road 3. Is That So? 4. Obedience 5. If You Love, Love Openly 6. No Loving-Kindness 7. Annoucement 8. 101 Ways to Bug Your Teacher Lee Wardlaw,2004 Steve Sneeze Wyatt attempts to thwart his parents' plan to have him skip eighth grade, but he has bigger problems when his friends disapprove of his new list and Mrs. Fierce Pierce threatens to keep him from the Invention Convention.

Cold War Modern David Crowley,Jane Pavitt,2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Published to accompany a major V & A exhibition, 'Cold War Modern: Design 1945-1970', this book explores how the politics of the Cold War shaped architecture and design. Reassessing 'classic' designs and introducing many little-known objects.

100 People Who Are Screwing Up America Bernard Goldberg,2009-10-13 The number one New York Times bestselling author of *Bias* delivers another bombshell—this time aimed at . . . 100 People Who Are Screwing Up America No preaching. No pontificating. Just some uncommon sense about the things that have made this country great—and the culprits who are screwing it up. Bernard Goldberg takes dead aim at the America Bashers (the cultural elites who look down their snobby noses at ordinary Americans) . . . the Hollywood Blowhards (incredibly ditzy celebrities who think they're smart just because they're famous) . . . the TV Schlockmeisters (including the one whose show has been compared to a churning mass of maggots devouring rotten meat) . . . the Intellectual Thugs (bigwigs at some of our best colleges, whose views run the gamut from left wing to far left wing) . . . and many more. Goldberg names names, counting down the villains in his rogues' gallery from 100 all the way to 1—and, yes, you-know-who is number 37. Some supposedly serious journalists also made the list, including the journalist-diva who sold out her integrity and hosted one of the dumbest hours in the history of network television news. And there are those famous miscreants who have made America a nastier place than it ought to be—a far more selfish, vulgar, and cynical place. But Goldberg doesn't just round up the usual suspects we have come to know and detest. He also exposes some of the people who operate away from the limelight but still manage to pull a lot of strings and do all sorts of harm to our culture. Most of all, *100 People Who Are Screwing Up America* is about a country where as long as anything goes, as one of the good guys in the book puts it, sooner or later everything will go. This is serious stuff for sure. But Goldberg will also make you laugh as he harpoons scoundrels like the congresswoman who thinks there aren't enough hurricanes named after black people, and the environmentalist to the stars who yells at total strangers driving SUVs—even though she tools around the country in a gas-guzzling private jet. With *Bias*, Bernard Goldberg took us behind the scenes and exposed the way Big Journalism distorts the news. Now he has written a book that goes even further. This time he casts his eye on American culture at large—and the result is a book that is sure to become the voice of all those Americans who feel that no one is speaking for them on perhaps the most vital issue of all: the kind of country in which we want to live.
