Foundation Sires of the American Quarter Horse Robert M. Denhardt,1997-09-01 Here for the first time is a digest of known information about the stallions whose descendants appear in the early volumes of the American Quarter Horse Association studbook. Robert M. Denhardt, a former officer in the American Quarter Horse Association, spent many years tracking down the bloodlines of the foundation sires, their pedigrees, and highlights of their careers. The result is a brief but comprehensive alphabetical listing of the stallions that made the Quarter Horse one of the most exciting and popular breeds of horses in the Americas today.

Register, Vol. 2: Including All Stallions Prominent in the Breeding of the American Roadster, Trotter and Pacer, From the Earliest Records to 1903 We have given the tracing of several quite prominent horses, especially that of Ethan Allen, very Completely in the body of this volume in part because of the interest that connects directly with the horse himself, and in part because of the introduction of other noted horses bred in the same locality and referred to in the various interviews. The same will be true of the more prominent stallions that appear in other volumes. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
