Foundation Sires of the American Quarter Horse Robert M. Denhardt,1997-09-01 Here for the first time is a digest of known information about the stallions whose descendants appear in the early volumes of the American Quarter Horse Association studbook. Robert M. Denhardt, a former officer in the American Quarter Horse Association, spent many years tracking down the bloodlines of the foundation sires, their pedigrees, and highlights of their careers. The result is a brief but comprehensive alphabetical listing of the stallions that made the Quarter Horse one of the most exciting and popular breeds of horses in the Americas today.

Excerpt from American Stallion Register, Vol. 2: Including All Stallions Prominent in the Breeding of the American Roadster, Trotter and Pacer, From the Earliest Records to 1903 We have given the tracing of several quite prominent horses, especially that

of Ethan Allen, very Completely in the body of this volume in part because of the interest that connects directly with the horse himself, and in part because of the introduction of other noted horses bred in the same locality and referred to in the various interviews. The same will be true of the more prominent stallions that appear in other volumes. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. American Stallion Register, Vol. 1 Joseph Battell, 2017-10-27

Excerpt from American Stallion Register, Vol. 1: Including All Stallions Prominent in the Breeding of the American Roadster, Trotter and Pacer, From the Earliest Records to 1902 N compiling the first volume of The Morgan Horse and Register, we Obtained a large amount of information showing that a very large proportion of the pedigrees of the more noted progenitors of the foundation stock of the American trotter and pacer, as recorded in Wallace's American Trotting Register, which was the usual accepted authority, were largely erroneous. That the pedigrees Of others, as Copperbottom, Pilot, St. Lawrence and indeed 'the whole contingent of Canadian Sires from which a very large number of the best American road horses, including many Of the fastest trotters and pacers, are in part descended, were not given at all. To correct this we began as early as 1884 to collect accurate information of this class Of Sires, with the intention at first of

publishing it in an appendix to the Morgan Register, but it rapidly became too voluminous for such place, and before long it became evident that it would have to be published in a work by itself. To make the work more complete we have added pedigrees of all Sires of 2 30 trotters and 2 z 5 pacers to the year 1903 have included also some Of the more noted English thoroughbred Sires, taken from the General Stud Book of England and a large number of thoroughbred and other horses from advertisements in files of American newspapers, and from other Sources. The rating Of Morgan blood for each stallion, SO far as known, is given immediately after the name of the animal. The present volume includes the first three letters of the alphabet, A, B, C, whilst in the Introduction has been added quite a number of valuable articles relating to the Horse, which have mostly been copied from files of different horse papers examined in the public libraries at Washington, D. C. These too, are arranged in order for easy reference, and we think will be found instructive and valuable by all interested in the horse, and his develop ment.
