Patrick Parsons

**TV News** Steve Garagiola, 2004 TV news provides the most compelling and persuasive source of information on earth. Whatever field you work in, the news affects your life. To protect yourself, more effectively tell your story, and advance your own agenda using television, you must understand the process. News professionals and students planning a career in television face a different challenge. Today's economy pressures news departments to produce more with less. You must offer greater versatility and depth of skills to keep the job you have, or get the job you want. Part One of this book details the language, style, and techniques of TV news writing, enabling you to control the flow of information, avoid creating an adversarial relationship with news media, and get your message across in your words. Part Two presents tough decisions you'll make about personal goals, family, relationships, and integrity illustrated through the author's own confrontation with those choices. He's been fired, gave away a #1 job in a top-ten market because it wasn't worth the cost, and struggled to balance career and family while learning the most important lesson of all: you carve your professional and personal life with choices.

**Teaching the Video Production Class** David Howard, Amy Hunter, 2014-01-13 This guidebook is a must-have resource for anyone teaching a television production class or running a morning news show at the elementary, middle, or high school level. Teaching a television production class is a real challenge, especially when working with the typical budget and time limitations of most elementary, middle, or high school curricula. Beyond the technical aspects of teaching this subject, what is the best way to keep students engaged and challenged while teaching them skills that will help make them college and career ready? Spanning lesson plans, video production activities, assessment, and more, this book supplies a comprehensive, step-by-step guide to teaching a television production class, using whatever equipment is readily available. It focuses on the critical aspects of how to teach television production and organize lessons, rather than the quickly evolving details of what equipment or editing software to use. The authors also provide lessons on creating and executing a daily newscast show, how to evaluate that show and collect school-wide data for further evaluation and improvement, and how to archive and mount these productions on the school website.

**Podcasting Hacks** Jack D. Herrington, 2005 Podcasting does for Internet audio listeners what TiVo does for television viewers--it puts you in charge of when you enjoy a program. Podcasting is a web-based broadcast medium that sends audio content (most commonly in the MP3 format) directly to an iPod or other digital audio player. You subscribe to audio feeds, receive new files automatically, and listen to them at your convenience. As you can imagine, podcasting is taking the blogosphere by storm. A podcast is a professional-quality Internet radio broadcast, and like blogging and HTML before it, this revolutionary new way of publishing to the Internet has become the new outlet for personal expression. If you've got Internet access and a copy of Podcasting Hacks, you can find out just how easy it is to listen to and create your own Internet audio programs. With Podcasting Hacks, Jack Herrington, a software engineer with 20 years of experience developing applications using a diverse set of languages and tools, delivers the ultimate how-to of podcasting for anyone looking to get the most out of this hot new medium. Since August 2004 (the month that iPodder.com editor Adam Curry considers the start of podcasting), audio blogging has exploded. Podcasts cover every conceivable topic, including sex, relationships, technology, religion, home brewing, recreational drugs, rock 'n roll, food, entertainment, politics, and much more. There were podcasts from the Democratic National Convention in Fall 2004, and some programs on Air America and NPR are also podcasts. Podcasting Hacks offers expert tips and tools for blogging out loud--for transmitting (and receiving) audio content worldwide with ease. This groundbreaking volume covers both entry-level and advanced topics perfect for aspiring and experienced podcasters. Herrington shows you how to get started, create quality sound, use the right software, develop a great show, distribute a podcast, and build an audience. More advanced topics include audio editing, podcasting on the go, and even videocasting.

*National Association of Broadcasters Engineering Handbook* Graham A. Jones, David H. Layer, Thomas G. Osenkowsky, 2013-04-26 The NAB Engineering Handbook provides detailed

information on virtually every aspect of the broadcast chain, from news gathering, program production and postproduction through master control and distribution links to transmission, antennas, RF propagation, cable and satellite. Hot topics covered include HD Radio, HDTV, 2 GHz broadcast auxiliary services, EAS, workflow, metadata, digital asset management, advanced video and audio compression, audio and video over IP, and Internet broadcasting. A wide range of related topics that engineers and managers need to understand are also covered, including broadcast administration, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management, and engineering management. Basic principles and the latest technologies and issues are all addressed by respected professionals with first-hand experience in the broadcast industry and manufacturing. This edition has been fully revised and updated, with 104 chapters and over 2000 pages. The Engineering Handbook provides the single most comprehensive and accessible resource available for engineers and others working in production, postproduction, networks, local stations, equipment manufacturing or any of the associated areas of radio and television.

**On-Camera Coach** Karin M. Reed, 2017-02-17 The invaluable handbook for acing your on-camera appearance On-Camera Coach is your personal coach for becoming great on camera. From Skype interviews and virtual conferences to shareholder presentations and television appearances, this book shows you how to master the art of on-camera presentation to deliver your message clearly, effectively, and with confidence. Fear of public speaking is common, but even the most seasoned speakers freeze in front of a single lens—being on camera demands an entirely new set of skills above and beyond the usual presentation to an audience you can actually see. It requires special attention to the way you move, the way you speak, and even the way you dress. This book provides the guidance and tools you need to ace it every time. Video is powerful, and it is everywhere; corporate YouTube channels, webinars, virtual meetings, TedTalks, and more are increasingly turning the lens on those who typically remain behind the scenes. This relatively recent trend will continue to expand as media plays a larger role in business, and the ability to appear confident, authoritative, and polished is becoming a necessary job skill. This book shows you everything you need to know about being on camera, from preparation through presentation and beyond. Learn how to prepare for an on-camera appearance Tailor your presentation to on-camera demands Discover how the camera interprets wardrobe and body language Appear dynamic, confident, and engaged when the lens points your way The lens captures everything—the awkward pauses, the nervous fidgets, poor posture, and every false start and mistake is captured for posterity. Is that the image you want to present? You want to get your message across and be heard; to do that, you must portray authority, energy, and confidence—even when you don't feel it. On-Camera Coach provides the expert instruction and insider secrets that help you make your message sing.

*Teleprompter Bible: 10 Commandments to Confidently Deliver On-Camera Presentations* Aaron Thomas, 2014-05-22 Teleprompters are being used now more than ever before. There is a reason for this...they are effective tools for communication. Not only is this trend self evident in the corporate world, but also in the University of Pennsylvania Wharton School where MBA students are learning how to deliver their messages effectively and concisely using teleprompter technology. As the Founder and Executive Producer of Your World Productions Inc, a corporate video and teleprompter services company, I've trained a team of teleprompter professionals that have helped helped thousands of people to effectively use teleprompter technology. These include corporate executives from almost every major sector, award winning actors & musicians, politicians with presidential ambitions, entrepreneurs, and students. I have witnessed countless times how the use of teleprompter technology has greatly increased a presenter's ability to deliver their message. I've discovered ten techniques to teleprompter mastery that I will share with you. And I'm going to reveal to you the three most common mistakes to avoid when using a teleprompter. After reading this book you will know:- What is a teleprompter-How do teleprompters work-Who really uses teleprompters-Why you should use a teleprompter-Are teleprompters used for business-What format your script should be in-How scripts get into a teleprompter-Do you need to practice a teleprompter speech-Is it possible to make

revisions-How to avoid looking like you are reading from the teleprompter-What to wear when you are on camera-What to do with your hands while on camera-Three common mistakes to avoid when using a teleprompter-How to find a great teleprompter services companyThis volume focuses on the camera mounted teleprompters. Other volumes in this series will discuss other types of teleprompters. Being armed with this information, you will be well on your way to mastering the use of a teleprompter. The Teleprompter Bible is the Teleprompter Book!

*Leadership in Focus* Vern Oakley,2017-04-04 And . . . Action! If a message feels important enough for video, it's likely because you want to move the audience to action—potential investors to take a stake in your company, current employees to embrace a new initiative, prospective employees to bring their talents to your organization. Your video can help you inspire your tribe—the people you want to influence—to take action. But if you want them to do more than listen, your audience needs to feel an authentic connection with you. Veteran filmmaker Vern Oakley offers strategies that can help you relax and be their best, authentic self in front of the camera. The return on investment will be a stronger connection to those you want to reach; heightened respect, prestige, and interest in their organization; a stronger brand; and a longer-lasting legacy. *Leadership in Focus* is a comprehensive, entertaining guide for leaders who realize that it's not just what you say on camera that's important—it's how you say it. Whether a CEO, middle manager, or budding entrepreneur making YouTube videos to influence their tribe, this book will help them rally others around a message.

**Strategies I Learned Becoming a VP** Ronald J. Plachno,2014-01-31 The Cellular explosion in the World Marketplace took our small \$50 million a year car telephone business at Motorola and grew it rapidly to over a \$15 billion a year huge enterprise. It was an amazing ride, and Motorola had some top talent that made it the leader in the field at least in the early years of Cellular. Yes, I indeed was at first one of the engineers and then one of the leaders in this dramatically expanding field. But more importantly, I was around some of the best leadership talent who helped teach me and others to deal with perhaps the business equivalent of riding white rapids down a raging river. The business experience in this book is not just relevant to the Cellular industry, but I believe transfers well to most other businesses - in my opinion. I have the highest admiration for some of those early leaders in Motorola Cellular and our great Industry Partners and learned much from them. And yes I also did learn some knowledge on my own, and often not the easy way. This book is my attempt to share that knowledge with others willing to read it. My purpose? I wish I knew these items at the beginning. It should not take 40 years to learn them. I do understand that beauty is in the eye of the beholder, and that there are perhaps other ways to learn business excellence. But this is the learning I received as I grew rapidly in the Cellular Business explosion. I moved from a low paid starting engineer to a VP in a Fortune 500 Company and then to a Sr. VP in a California startup firm, and then to founding a few small businesses on my own. It has been... a fun ride.... and a tremendous learning experience. And I am now trying to share it with others as openly and honestly as I can. Thank you for reading this, and I indeed do wish you the very best. - Ron Plachno (author)

**Digital Homiletics** Sunggu A. Yang,2024-04-30 Digital Homiletics demystifies the art of online preaching, helping readers understand both the why and the how of engaging listeners via digital formats. Sunggu Yang lays a concise and accessible theological foundation and then shares ten methods for effective digital preaching. Readers will encounter concrete tips and advice for sharing God's word online, whatever the dimensions of their electronic ministry. Yang profiles each of the ten methods in Digital Homiletics with an eye toward general description, homiletic theory, practical tips, final remarks, and innovative attention to Details of the Style. Who is involved? Why might preachers employ this technique? Where should it be practiced, and when? What content is best suited to each method? The answers to these questions will help readers' tailor their online delivery. Throughout, Yang helps us recognize the distinctive nature of the homiletical task when preaching to an online

audience.

**Moviemaking with your Camera Field Guide** Olivia Speranza, 2012-12-03 Any photographer with a modern digital camera can be a moviemaker, and this book shows you all the skills you'll need to shoot everything, from a video-blog to a feature film. Build on your photographic skills ? this knowledge predisposes you to create great cinematography ? and understand the technical and practical necessities of high-definition video. The *Moviemaking With Your Camera Field Guide* shows you how you can build on what you already know to create truly spectacular movies with your DSLR in whatever genre you choose. It introduces everything from the language of film and basic equipment you will need, to the art of post-production and publishing your new work. Exclusive video content to accompany this book is available online.

**Rush Limbaugh** Zev Chafets, 2011-09-27 NATIONAL BESTSELLER! The bestselling biography of America's Anchorman by the journalist who knew him best Chafets has seen more of the pundit's personal world than any other journalist. -The Washington Post People tend to remember the moment they first heard The Rush Limbaugh Show on the radio. For Zev Chafets, it was in a car in Detroit. The braggadocio, the outrageous satire, the slaughtering of liberal sacred cows performed with the verve of a rock and roll DJ-it seemed fresh, funny, and completely subversive. They're never going to let this guy stay on the air, he thought. Almost two decades later Chafets met Rush and they spent hours together talking on the record about politics, sports, music, show business, religion, and modern American history. Rush opened his home and his world, introducing Chafets to his family, his closest friends, even his psychologist. What has emerged after months of correspondence revealing Rush Limbaugh's thoughts, fears, and ambitions, is a uniquely personal look at the man who was not only the most popular voice on the radio, but also one of the most influential figures in the conservative movement.

**California Fruits, Flakes, and Nuts** David Kulczyk, 2013-11-01 A freewheeling catalog of misfits, eccentrics, creeps, criminals, and failed dreamers, this compendium profiles 45 bizarre personalities who exemplify the Golden State's well-deserved reputation for nonconformity. In the pages, Gold Rush pioneers are revealed as murderous madmen; Hollywood celebrities are shown to be drug-addled sex maniacs; early hippies are just 1950s weirdos; and even seemingly ordinary Californians have a talent for freakish, crazy, and criminal behavior. From frontier lunatic Grizzly Adams, whose head was one massive wound after multiple bear attacks, to I Love Lucy star William Frawley, a racist, misogynist, foul-mouthed drunk, and legendarily awful film director Ed Wood, *California Fruits, Flakes, and Nuts* is a side-splitting look at the people who made California the strangest place on earth.

**Not Born Digital** Daniel Morris, 2018-01-25 *Not Born Digital* addresses from multiple perspectives ♦ ethical, historical, psychological, conceptual, aesthetic ♦ the vexing problems and sublime potential of disseminating lyrics, the ancient form of transmission and preservation of the human voice, in an environment in which e-poetry and digitalized poetics pose a crisis (understood as opportunity and threat) to traditional page poetry. The premise of *Not Born Digital* is that the innovative contemporary poets studied in this book engage obscure and discarded, but nonetheless historically resonant materials to unsettle what Charles Bernstein, a leading innovative contemporary U.S. poet and critic of ♦ official verse culture, ♦ refers to as ♦ frame lock ♦ and ♦ tone jam. ♦ While other scholars have begun to analyze poetry that appears in new media contexts, *Not Born Digital* concerns the ambivalent ways page poets (rather than electronica based poets) have grappled with ♦ screen memory ♦ (that is, electronic and new media sources) through the re-purposing of ♦ found ♦ materials.

**Shooting Stars** Claire Rosalind, 2023-11-18 Sequel to *Rising Stars* The Obsolete returns to the music scene as an unstoppable force to be reckoned with as they shoot to the top of the charts. New music, old music, the same chaos fans of the band have come to love, and drama the band have come to despise. With Ryan back, Jasper's determined to cement their status as a power couple in the entertainment industry, among their friends, and against anyone who can't seem to just stay in the past. But things have changed. Ryan's career is at a crossroads. Caught between a dream that separates him from Jasper and the band he feels he owes everything to, until one invasive media

debacle sends him reeling and sends the band into a fight for their personal privacy once more. Jasper puts on the performance of a lifetime to convince everyone he's fine after his parents try to break him, but a petty podcast, a world tour, and a flirty PA prove to be the perfect distractions from the future Jasper's starting to question. When Ryan takes the stage with the bravest solo of his life, will it be enough to reassure Jasper he can really have it all?

*Blue Skies* Patrick Parsons, 2008-04-05 Cable television is arguably the dominant mass media technology in the U.S. today. *Blue Skies* traces its history in detail, depicting the important events and people that shaped its development, from the precursors of cable TV in the 1920s and '30s to the first community antenna systems in the 1950s, and from the creation of the national satellite-distributed cable networks in the 1970s to the current incarnation of info-structure that dominates our lives. Author Patrick Parsons also considers the ways that economics, public perception, public policy, entrepreneurial personalities, the social construction of the possibilities of cable, and simple chance all influenced the development of cable TV. Since the 1960s, one of the pervasive visions of cable has been of a ubiquitous, flexible, interactive communications system capable of providing news, information, entertainment, diverse local programming, and even social services. That set of utopian hopes became known as the Blue Sky vision of cable television, from which the book takes its title. Thoroughly documented and carefully researched, yet lively, occasionally humorous, and consistently insightful, *Blue Skies* is the genealogy of our media society.
