Volker Schlöndorff's Cinema Hans Bernhard Moeller,George L Lellis,2012-10-31 Volker Schlöndorff's Cinema: Adaptation, Politics and the "Movie-Appropriate" examines the work of major postwar German director Volker Schlöndorff in historical, economic, and artistic contexts. Incorporating a film-by-film, twenty-eight chapter study, Hans-Bernhard Moeller & George Lellis reveal a complexity and formal ambitiousness of Schlöndorff that is comparable to that found in Wenders, Herzog, and Fassbinder. In spite of Schlöndorff's successes with films like The Lost Honor of Katharina Blum and The Tin Drum, as well as his acclaimed work in the U.S. with Death of a Salesman, Gathering of Old Men and The Handmaid's Tale, this is the first in-depth critical study of the filmmaker's career. In the context of film and television history, this book relates Schlöndorff's oeuvre to the New German Cinema, to his formative years as a student and production assistant in France, and to his roots in the Weimar cinema's tradition. It reveals how Schlöndorff entered into the German film production system in the 1960s, how he came to rely on German public television in the 1970s, and then moved to the international and American financing in the 1980s, attempting to redevelop the Babelsberg studios in a 1990s post-Wall Germany while continuing to make his own films into the 21st century. The book captures how Schlöndorff's nearly half century of ongoing creativity and productivity ties together. The authors analyze the artistry of each Schlöndorff movie arguing that his output as a whole embodies a provocative and sometimes contradictory set of balances. Schlöndorff combines commercial interest with significant artistic ambition, blends the kinesthetic pleasures of moving images with the seriousness of fine literature, links the intensity of individualized personal experience to an awareness of broader political issues, and represents a specifically German sensibility even as he reaches out to the international audiences. The authors demonstrate the cyclical recurrence in his cinema of certain themes (individual and collective rebellion, fascist suppression, masochistic love), narrative patterns (the Western, the thriller, the subjective mood piece), and stylistic approaches (Brechtian Verfremdung, the creation of careful leitmotif structures, the use of the grotesque). In over thirty years of filmmaking, Schlöndorff has produced a remarkable unified body of work that deserves the attention of a book-length study. Authors Hans-Bernhard Moeller and George Lellis offer the first such study of its kind. Volker Schlöndorff's Cinema: Adaptation, Politics, and the "Movie-Appropriate" features forty-one illustrations.

Cry of the Tomahawk James B. Miller,2007-07 The Wyoming Valley of Pennsylvania is an area rich in history, none of which is more fascinating than in its origin. Settled not by the people of Pennsylvania, but rather of Connecticut due to conflicting land grants, it produced a titanic struggle between the Yankee settlers and Indians, British, Tories, and Pennamites, which stretched from the French and Indian War to well past the Revolutionary War. In these years many battles were fought, much blood was spilled; some say no area in America

suffered more in proportion to population. Brother did turn against brother, and father did turn against son. Still, the settler stood fast, possessed by a spirit which in turn would conquer the American west. The Wyoming Valley did not sit on the fringes of the frontier but some sixty miles beyond it. These early pioneers carved out a settlement in the heart of a wilderness staunchly contested by people on all sides. Not only did they have to contend with the Indian threat, but with Pennsylvanians wishing to rid their northern borders of the Yankee intruders, and latter on when their firm support of the revolution became known, with the British Empire. Burned out, attacked from all sides, racked with betrayal from within their own numbers they stood fast in the face of impossible odds. Their spirit is a testament to the indomitable spirit of America. Their story is one of America. Read and discover within their struggle against the scalping knife and British Empire a great story, one that should never be forgotten, one that defines the American spirit.

Mining The Mineral Mountains Clem Masloff, 2017-08-31 The writer Dey Skull visits the country of Landia to investigate his family roots, but becomes involved in the bitter national miners' strike. His interest is drawn to the Xarti, a minority group persecuted, slaughtered, and expelled fifty years before. He meets the leader and founder of the miners' union, Dr. Garen Slyn and flees into the mountains with him. Dey discovers the doctor is a relative of his, and shares Xarti ancestry with himself. Together, they find a solution to the miners' and Landia's problems.
