Functional Requirements for Subject Authority Data (FRSAD) Marcia Lei Zeng, Maja Žumer, Athena Salaba, IFLA Working Group on the Functional Requirements for Subject Authority Records (FRSAR), 2011 The purpose of authority control is to ensure consistency in representing a value - a name of a person, a place name, or a term or code representing a subject - in the elements used as access points in information retrieval. The primary purpose of this study is to produce a framework that will provide a clearly stated and commonly shared understanding of what the subject authority data/record/file aims to provide information about, and the expectation of what such data should achieve in terms of answering user needs.

A unique product for the market place Digital transformation is creating game-changing opportunities and disruptions across industries and businesses. One industry where these game-changing opportunities will have profound impacts is wealth and asset management. In the current digital transformation climate, this differentiator is vanishing and the setting is changing. A top priority on the agenda for any wealth and asset manager must therefore be how to respond and prepare for the ramifications of this fast changing business environment. These range from hypnosis and neuro-linguistic programming (NLP) to the exotic statistical argument that this reality is a simulation and the ramifications of that from an operational magick point of view. In between there are detailed investigations of the effects of electromagnetic fields on the brain, as well as low level direct electrical stimulation in the alteration of consciousness. Modern paranormal, or Psi, effects are detailed with regard to Remote Viewing (and influencing) as well as contemporary seance practices, physical mediumship, aspects of Ultraterrestrial (UFO) and inter-dimensional communications and their relationships to traditional demonology. And the machines to make it happen. Many more details at: <http://www.neopax.com/technomage/>

Women Composers of Classical Music Mary F. McVicker, 2011-02-14 As early as the 1500s, a surprising number of women have composed classical music. Many were successful, finding venues for both publishing and performing their music; others found the social barriers for women impossible to overcome. This book provides access to these composers, both well known and obscure. Arranged chronologically by era, the profiles are further divided into countries. For each female composer within a country, a brief biographical sketch is provided, as well as a description of her body of work. This text also includes an extensive timeline of operatic works by female composers.

High-Risers Ben Austen, 2018-02-13 Joining the ranks of *Evicted*, *The Warmth of Other Sons*, and classic works of literary non-fiction by Alex Kotlowitz and J. Anthony Lukas, *High-Risers* braids personal narratives, city politics, and national history to tell the timely and epic story of Chicago's Cabrini-Green, America's most iconic public housing project. Built in the 1940s atop an infamous Italian slum, Cabrini-Green grew to twenty-three towers and a population of 20,000—all of it packed onto just seventy acres a few blocks from Chicago's ritzy Gold Coast. Cabrini-Green became synonymous with crime, squalor, and the failure of government. For the many who lived there, it was also a much-needed

resource—it was home. By 2011, every high-rise had been razed, the island of black poverty engulfed by the white affluence around it, the families dispersed. In this novelistic and eye-opening narrative, Ben Austen tells the story of America's public housing experiment and the changing fortunes of American cities. It is an account told movingly though the lives of residents who struggled to make a home for their families as powerful forces converged to accelerate the housing complex's demise. Beautifully written, rich in detail, and full of moving portraits, *High-Risers* is a sweeping exploration of race, class, popular culture, and politics in modern America that brilliantly considers what went wrong in our nation's effort to provide affordable housing to the poor—and what we can learn from those mistakes.

A New Culture of Learning Douglas Thomas, John Seely Brown, 2011 The twenty-first century is a world in constant change. In *A New Culture of Learning*, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In *A New Culture*, Thomas and Brown explore a second sense of culture, one that responds to its surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the technology that fosters it and the people who engage with it. The result is a new form of culture in which

knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning environments face in a fresh way. PRAISE FOR A NEW CULTURE OF LEARNING A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education. James J. Duderstadt, President Emeritus, University of Michigan Thomas and Brown are the John Dewey of the digital age. Cathy Davidson, Professor of Interdisciplinary Studies, Duke University A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against. Henry Jenkins, Provost's Professor, USC A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page. Paul Courant, Dean of Libraries, University of Michigan Brilliant. Insightful. Revolutionary. Marcia Conner, author of The New Social Learning Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly. Howard Gardner, Professor, Harvard Graduate School of Education Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way-learning can be a messy, social, playful, embedded, constant activity. We would do well to listen to their message. Clay Shirky,

author of Cognitive Surplus Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing. John Merrow, Education Correspondent, PBS NewsHour American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, A New Culture of Learning provides an irresistible path to the future. Joel Myerson, Director, Forum for the Future of Higher Education.
