Beyond Lucky Sarah Aronson,2011-06-30 Ari Fish believes in two things: his hero-Wayne Timcoe, the greatest soccer goalie to ever come out of Somerset Valley-and luck. So when Ari finds a rare and valuable Wayne Timcoe trading card, he's sure his luck has changed for the better. Especially when he's picked to be the starting goalie on his team. But when the card is stolen-and his best friend and the new girl on the team accuse each other of taking it-suddenly Ari can't save a goal, everyone is fighting, and he doesn't know who, or what, to believe in. Before the team falls apart, Ari must learn how to make his own luck, and figure out what it truly means to be a hero.

The Death of Expertise Tom Nichols,2024 In the early 1990s, a small group of AIDS denialists, including a University of California professor named Peter Duesberg, argued against virtually the entire medical establishment's consensus that the human immunodeficiency virus (HIV) was the cause of Acquired Immune Deficiency Syndrome. Science thrives on such counterintuitive challenges, but there was no evidence for Duesberg's beliefs, which turned out to be baseless. Once researchers found HIV, doctors and public health officials were able to save countless lives through measures aimed at preventing its transmission--

Accidental Feminism Swethaa S. Ballakrishnen,2021-01-12 Exploring the unintentional production of seemingly feminist outcomes In India, elite law firms offer a surprising oasis for women within a hostile, predominantly male industry. Less than 10 percent of the country's lawyers are female, but women in the most prestigious firms are significantly represented both at entry and partnership. Elite workspaces are notorious for being unfriendly to new actors, so what allows for aberration in certain workspaces? Drawing from observations and interviews with more than 130 elite professionals, Accidental Feminism examines how a range of underlying mechanisms—gendered socialization and essentialism, family structures and dynamics, and firm and regulatory histories—afford certain professionals egalitarian outcomes that are not available to their local and global peers. Juxtaposing findings on the legal profession with those on elite consulting firms, Swethaa Ballakrishnen reveals that parity arises not from a commitment to create feminist organizations, but from structural factors that incidentally come together to do gender differently. Simultaneously, their research offers notes of caution: while conditional convergence may create equality in ways that more targeted endeavors fail to achieve, “accidental” developments are hard to replicate, and are, in this case, buttressed by embedded inequalities. Ballakrishnen examines whether gender parity produced without institutional sanction should still be considered feminist. In offering new ways to think about equality movements and outcomes, Accidental Feminism forces readers to critically consider the work of intention in progress narratives.

Seasteading Joe Quirk,Patri Friedman,2017-03-21 Two-thirds of our globe is Planet Ocean, not Planet Earth. Imagine a vast new source of sustainable and renewable energy that would also bring more equitable economies. A previously untapped source of farming that could produce significant new sources of nutrition. Future societies where people could choose the communities they want to live in, free from the restrictions of conventional citizenship. This bold vision of our near future as imagined in Seasteading attracted the powerful support of Silicon Valley's Peter Thiel—and it may be drawing close to reality. Our planet is suffering from serious environmental problems: coastal flooding due to severe storms caused in part by atmospheric pollution and diminishing natural resources among them. But the seas can be home to a new breed of pioneers, seasteaders, who are willing to homestead the Blue Frontier. Oil platforms and cruise ships already inhabit the waters; now it's time to take the next step to full-fledged ocean civilizations. Joe Quirk and Patri Friedman show us how cities built on floating platforms in the ocean will work, and they profile some of the visionaries who are implementing basic concepts of seasteading today. An entrepreneur's dream, these floating cities will become laboratories for innovation and creativity. Seasteading may be visionary, but it already has begun proving the adage that

yesterday's science fiction is tomorrow's science fact. Welcome to seavilization.

Anaphora Resolution and Text Retrieval Helene Schmolz,2015-03-30 This book covers anaphora resolution for the English language from a linguistic and computational point of view. First, a definition of anaphors that applies to linguistics as well as information technology is given. On this foundation, all types of anaphors and their characteristics for English are outlined. To examine how frequent each type of anaphor is, a corpus of different hypertexts has been established and analysed with regard to anaphors. The most frequent type are non-finite clause anaphors - a type which has never been investigated so far. Therefore, the potential of non-finite clause anaphors are further explored with respect to anaphora resolution. After presenting the fundamentals of computational anaphora resolution and its application in text retrieval, rules for resolving non-finite clause anaphors are established. Therefore, this book shows that a truly interdisciplinary approach can achieve results which would not have been possible otherwise.

The Mother Road Meghan Quinn,2016-01-05 Never in a million years would I have pictured myself as an axe-wielding, dragon lady, chopping up multi-colored flannel shirts into my very own plaid mulch. But here I am,

chopping away my frustrations. It all started when my brother, Paul, convinced me to go on one last family road trip across the Mother Road with him and my dad.. Just like old times, right? Wrong. What Paul fails to mention is his best man, Porter, will be joining us, who just so happens to be my childhood crush and the man who broke my heart four years ago. What is supposed to be a fun, family bonding experience across Route 66 turns into a war of pranks, awkward moments and bathrooms full of dirty flannel shirts and day old beard clippings. Paul's know-it-all attitude and Porter's devilish charm brings me to the brink of my sanity on my seven day trek across the United States with three bearded men in a small 1980's RV
