The Quitter Darrin Atkins,1999-12-09 The Quitter: and other tales of employment is a collection of short stories on employment. Each story describes the events surrounding my experiences with different companies and the corresponding personal events in my life. If I had a job or worked for a company I didn't want to, it was because I had to if I wanted to survive.

Quitter Erica C. Barnett,2021-07-06 Barnett's prose style is brassy and cleareyed, with echoes of Anne Lamott. --Beth Macy, The New York Times Book Review Emotionally devastating and self-aware, this cautionary tale about substance abuse is a worthy heir to Cat Marnell's *How to Murder Your Life*. --Publishers Weekly (starred review) A startlingly frank memoir of one woman's struggles with alcoholism and recovery, with essential new insights into addiction and treatment Erica C. Barnett had her first sip of alcohol when she was thirteen, and she quickly developed a taste for drinking to oblivion with her friends. In her late twenties, her addiction became inescapable. Volatile relationships, blackouts, and unsuccessful stints in detox defined her life, with the bottles she hid throughout her apartment and offices acting as both her tormentors and closest friends. By the time she was in her late thirties, Barnett had quit and relapsed again and again, but found herself far from rehabilitated. Rock bottom, Erica Barnett writes, is a lie. It is always possible, she learned, to go lower than your lowest point. She found that the terms other alcoholics used to describe the trajectory of their addiction--rock bottom and moment of clarity--and the mottos touted by Alcoholics Anonymous, such as let go and let God--didn't correspond to her experience and could actually be detrimental. With remarkably brave and vulnerable writing, Barnett expands on her personal story to confront the dire state of addiction in America, the rise of alcoholism in American women in the last century, and the lack of rehabilitation options available to addicts. At a time when opioid addiction is a national epidemic and one in twelve Americans suffers from alcohol abuse disorder, *Quitter* is indispensable reading for our age and an ultimately hopeful story of Barnett's own hard-fought path to sobriety.

Learning the Language of Dentistry Peter Crosthwaite,Lisa Cheung,2019-08-20 This book explores the affordances of disciplinary corpora for the

teaching and learning of the language of dentistry, within the field of English for Specific Academic Purposes (ESAP). We extract disciplinary register features and vocabulary from three key genres of the dentistry discipline (published experimental research articles, case reports, and novice/professional research reports within the Dental Public Health domain), before integrating these features into ESAP pedagogy in the form of corpus-based ESAP materials that promote student-led direct engagement with disciplinary corpora – an approach known as 'data-driven learning'. This book is a timely and relevant addition to the field of corpus linguistics and ESAP, and is especially targeted at ESAP professionals who are required to teach disciplinary discourses but who may struggle to know what to teach as non-experts of the target discipline.

U.S. Marines In Vietnam: The Defining Year, 1968 Jack Shulimson, 2015-11-06 The year 1968 was the year of the Tet Offensive including Khe Sanh and Hue City. These were momentous events in the course of the war and they occurred in the first three months of the year. This book, however, documents that 1968 was more than just the Tet Offensive. The bloodiest month of the war for the U.S. forces was not January nor February 1968, but May 1968 when the Communists launched what was called their “Mini-Tet” offensive. This was followed by a second “Mini-Tet” offensive during the late summer which also was repulsed at heavy cost to both sides. By the end of the year, the U.S. forces in South Vietnam’s I Corps, under the III Marine Amphibious Force (III MAF), had regained the offensive. By December, enemy-initiated attacks had fallen to their lowest level in two years. Still, there was no talk of victory. The Communist forces remained a formidable foe and a limit had been drawn on the level of American participation in the war. Although largely written from the perspective of III MAF and the ground war in I Corps, the volume also treats the activities of Marines with the Seventh Fleet Special Landing Force, activities of Marine advisors to South Vietnamese forces, and other Marine involvement in the war. Separate chapters cover Marine aviation and the single manager controversy, artillery, logistics, manpower, and pacification.—E. H. SIMMONS, Brigadier General, U.S. Marine Corps (Retired)

Applying Linguistics in Illness and Healthcare Contexts Zsófia Demjén, 2020-04-16 All aspects of illness and healthcare are mediated by language: experiences of illness, death and healthcare provision are talked and written about (face-to-face or online), while medical consultations, research interviews, public health communications and even some diagnostic instruments are all inherently linguistic in nature. How we talk to, about and for each other in such a sensitive context has consequences for our relationships, our sense of self, how we understand and reason about our health, as well as for the quality care we receive. Yet, linguistic analysis has been conspicuously absent from the mainstream of medical education, health communication training and even the medical or health humanities. The chapters in this volume bring together applied linguistic work using discourse analysis, corpus methods, conversation analysis, metaphor analysis, cognitive linguistics, multiculturalism research, interactional sociolinguistics, narrative analysis, and (im)politeness to make sense of a variety of international healthcare contexts and situations. These include: -clinician-patient interactions -receptionist-patient interactions -online support forums -online counselling -public health communication -media representations -medical accounts -diagnostic tools and definitions -research interviews with doctors and patients The volume demonstrates how linguistic analysis can not only improve understandings of the lived-experience of different illnesses, but also has implications for communications training, disease prevention, treatment and self-management, the effectiveness of public health messaging, access to appropriate care, professional mobility and professional terminology, among others.

French in Action Pierre J. Capretz, Béatrice Abetti, Marie-Odile Germain, Barry Lydgate, 2015-06-28 Since it was first published, French in Action: A Beginning Course in Language and Culture—The Capretz Method has been widely recognized in the field as a model for video-based foreign-language instructional materials. The third edition, revised by Pierre Capretz and Barry Lydgate, includes new, contemporary illustrations throughout and, in the Documents section of each lesson, more-relevant information for today's students. A completely new feature is a journal by the popular character Marie-Laure, who observes and comments humorously on the political, cultural, and technological changes in the world between 1985 and today. The new edition also incorporates more content about the entire Francophone world. In use by hundreds of colleges, universities, and high schools, French in Action remains a powerful educational resource that this third edition updates for a new generation of learners. Part 2 gives students at the intermediate level the tools they need to communicate effectively in French and to understand and appreciate French and Francophone cultures.

In Translation Sherry Simon, 2013-09-01 Since the late 1960s Sheila Fischman has worked tirelessly at making the best works of Québécois literature available to English-language readers. Anglophones who have read works by Michel Tremblay, Jacques Poulin, Yves Beauchemin, François Gravel, Anne Hébert, Roch Carrier, and Marie-Claire Blais most likely know these works only through Fischman's subtly and faithfully crafted translations. *In Translation* celebrates Fischman's more than 150 book-length translations from French to English. It combines essays on the friendships created through translation with essays on the art of translation and on the changing context of literary translation in Canada. Distinguished contributors include Alberto Manguel, Commissioner of Official Languages Graham Fraser, authors Gaétan Soucy, Lise Bissonnette, and Louise Desjardins, and fellow-translators Lori Saint Martin, Michael Henry Heim, Luise von Flotow, and Kathy Mezei. The volume also includes interviews with Fischman and a selection of her prose. A fitting tribute to an outstanding career, *In Translation* illuminates the artistry behind a difficult craft by considering the work of one of its finest practitioners.
