The Loci Communes of Philip Melanchthon Philip Melanchthon,2007-05-30 This work has special significance in the history of Protestant theology in that it was the first work written by a Protestant theologian on doctrinal theology. Hill's work seeks to bring Melanchthon out into the open where he may be seen as a constructive thinker, scholar, and systematizer of a theological worldview of his own.

Donum Grammaticum Hannah Rosén,2002 The articles in this volume treat issues in Hannah Rosen's many fields of scholarly interest. Most of the articles deal with subjects in Latin linguistics and philology; others treat Celtic linguistics and philology, while some combine the two. A number of the papers take Hannah Rosen's own work as their point of departure: especially, research on nominalization and periphrasis; on tense use and narrative structure; on translation technique. The authors adopt a variety of perspectives and approaches. This volume includes many contributions that are descriptive, comparative, or historical in nature, as well as some reflecting a literary orientation. A few authors use the text and its structure as their framework. A wide range of approaches to syntactical analysis on various levels of expression is prominently represented in the work of many of the contributors.

Retours of Services of Heirs 1544-1699 Vol B Bruce Durie,2015-02-24 This book and the accompanying Volume A (Aberdeen-Kirkcudbright) are composed from the three volumes together called Inquisitionum ad Capellam Domini Regis Retornatarum, quae in Publicis Archivis Scotiae Adhuc Servantur (Inquiries Returned to the Chancery of our Lord the King which are Held in the Archives of Scotland) from 1544 to 1699). These records, informally known as Retours of Services of Heirs, represent possibly the greatest unused resource for Scottish genealogy and land history, but are not widely available and thus are largely unknown. Essentially, they are abbreviated abstracts of the records of inheritance, the continuity of heritable possession of land and certain associated rights and responsibilities. The original Retours themselves are often long and complicated, and mostly in Latin, but they were indexed and abbreviated into the form presented here. The Retours can be searched by County, then by surname and placename. With additional material and a Latin glossary by Dr. Bruce Durie

The Catholic Doctrine of the Church of England Thomas Rogers,1854

The Parker Society, Instituted M. DCCC. XL. A.D., for the Publication of the Works of the Fathers and Early Writers of the Reformed English Church: The catholic doctrine of the Church of England ,1854

The Catholic Doctrine of the Church of England Thomas Rogers,2005-06-30 The Parker Society was the London-based Anglican society that printed in fifty-four volumes the works of the leading English Reformers of the sixteenth century. It was formed in 1840 and disbanded in 1855 when its work was completed. Named after Matthew Parker -- the first Elizabethan Archbishop of Canterbury, who was known as a great collector of books -- the stimulus for the foundation of the society was provided by the Tractarian movement, led by John Henry Newman and Edward B. Pusey. Some members of this movement spoke disparagingly of the English Reformation, and so some members of the Church of England felt the need to make available in an attractive form the works of the leaders of that Reformation.
