Scholars, Travellers and Trade R. B. Halbertsma, 2004-06-02 Today, the National Museum of Antiquities in Leiden is internationally known for its outstanding archaeological collections. Yet its origins lie in an insignificant assortment of artefacts used for study by Leiden University. How did this transformation come about? Ruurd Halbertsma has delved into the archives to show that the appointment of Caspar Reuvens as Professor of Archaeology in 1818 was the crucial turning point. He tells the dramatic story of Reuvens' struggle to establish the museum, with battles against rival scholars, red tape and the Dutch attitude of neglect towards archaeological monuments. This book throws new light on the process of creating a national museum, and the difficulties of convincing society of the value of the past.

The Jesuit Order As a Synagogue of Jews Robert A. Maryks, 2010 In *The Jesuit Order as a Synagogue of Jews* the author explains how Christians with Jewish family backgrounds went within less than forty years from having a leading role in the foundation of the Society of Jesus to being prohibited from membership in it. The author works at the intersection to two important historical topics, each of which attracts considerable scholarly attention but that have never received sustained and careful attention together, namely, the early modern histories of the Jesuit order and of Iberian purity of blood concerns. An analysis of the pro- and anti-converso texts in this book (both in terms of what they are claiming and what their limits are) advance our understanding of early modern, institutional Catholicism at the intersection of early modern religious reform and the new racism developing in Spain and spreading outwards.

Narratives of Low Countries History and Culture Jane Fenoulhet, Lesley Gilbert, Ulrich Tiedau, 2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future. Divided into three parts – The Uses of Myth and History, The Past as Illumination of Cultural Context, and Historiography in Focus – this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations. It reflects on the history of historiography and looks critically at the products of the historiographic process, such as Dutch and Afrikaans literary history. The chapters cover a range of disciplines and approaches: some authors offer a broad view of a particular period, such as Jonathan Israel's contribution on myth and history in the ideological politics of the Dutch Golden Age, while others zoom in on specific genres, texts or historical moments, such as Benjamin Schmidt's study of the doolhof, a word that today means 'labyrinth' but once described a 17th-century educational amusement park. This volume, enlightening and home to multiple paths of enquiry leading in different directions, is an excellent example of what a past-present doolhof might look like.

Scholars, Travellers and Trade Ruurd B. Halbertsma, 2003 History of the collection of the National Museum of Antiquities in Leiden. The small collection in the eighteenth century was originally a study collection, but things changed when the young Caspar Reuvens was appointed as Professor of Archeology in 1818. Reuvens succeeded in expanding the museum with aid of the Dutch government. Description of the developments that led to a nowadays important collection.

Conversion and Church , 2016-05-23 In *Conversion and Church. The Challenge of Renewal*, the contributors explore the challenges of renewal in the Church, and the call to conversion that plays a significant role in the dialogue on ecumenism and contemporary spirituality.

Gladiators Roger Dunkle, 2013-09-13 The games comprised gladiatorial fights, staged animal hunts (venationes) and the executions of convicted criminals and prisoners of war. Besides entertaining the crowd, the games delivered a powerful message of Roman power: as a reminder of the wars in which Rome had acquired its empire, the distant regions of its far-flung empire (from where they had obtained wild beasts for the venatio), and the inevitability of Roman justice for criminals and those foreigners who had dared to challenge the empire's authority. Though we might see these games as bloodthirsty, cruel and reprehensible condemning any alien culture out of hand for a sport that offends our sensibilities smacks of cultural chauvinism. Instead one should judge an ancient sport by the standards of its contemporary cultural context. This book offers a fascinating, and fair historical appraisal of gladiatorial combat, which will bring the games alive to the reader and help them see them through the eyes of the ancient Romans. It will answer questions about gladiatorial combat such as: What were its origins? Why did it disappear? Who were gladiators? How did they become gladiators? What was there training like? How did the Romans view gladiators? How were gladiator shows produced and advertised? What were the different styles of gladiatorial fighting? Did gladiator matches have referees? Did every match end in the death of at least one gladiator? Were gladiator games mere entertainment or did they play a larger role in Roman society? What was their political significance?

Build Your Own .NET Language and Compiler Edward G. Nilges, 2004-05-10 * Includes a complete QuickBasic compiler with source code. We cannot overstress that this is a huge marketing hook. Virtually every experienced programmer today started out with some version of Basic or QuickBasic and has at some point in their career wondered how it worked. The sheer nostalgia alone will generate sales. The idea of having QuickBasic for them to play with (or let their kids play with) will generate sales. * One of a kind book – nothing else comes close to this book. * Demystifies compiler technology for ordinary programmers – this is a subject usually covered by academic books in a manner too advanced for most developers. This book is pitched at a level accessible to all but beginners. * Teaches skills used in many other types of programming from creation of macro/scripting languages to file parsing.

An Outline of the Relations between England and Scotland (500-1707) Robert S. Rait, 2022-09-04 In 'An Outline of the Relations between England and Scotland (500-1707)', Robert S. Rait provides a unique perspective on the history of these two countries. Unlike other history books that occasionally mention Anglo-Scottish relations, Rait presents a connected narrative of the attitude of the two countries towards each other, providing the data required for a fair appreciation of the policy of Edward I and Henry VIII, or of Elizabeth and James I. The book also explores the racial relationship between England and Scotland, addressing the prevalent theory that the Scottish Lowlanders were English in speech and manners and even blood. Rait argues for a modification of this theory, suggesting that historical evidence shows a process of adoption of English manners and language rather than a complete displacement of the Scottish population. This compelling book offers a fresh perspective on the history of two countries that have long been intertwined.

Medieval Saints and Modern Screens Alicia Spencer-Hall, 2018-01-23 This ground-breaking book brings theoretical perspectives from twenty-first century media, film, and cultural studies to medieval hagiography. *Medieval Saints and Modern Screens* stakes the claim for a provocative new methodological intervention: consideration of hagiography as media. More precisely, hagiography is most productively understood as cinematic media. Medieval mystical episodes are made intelligible to modern

audiences through reference to the filmic – the language, form, and lived experience of cinema. Similarly, reference to the realm of the mystical affords a means to express the disconcerting physical and emotional effects of watching cinema. Moreover, cinematic spectatorship affords, at times, a (more or less) secular experience of visionary transcendence: an 'agape-ic encounter'. The medieval saint's visions of God are but one pole of a spectrum of visual experience which extends into our present multi-media moment. We too conjure godly visions: on our smartphones, on the silver screen, and on our TVs and laptops. This book places contemporary pop-culture media – such as blockbuster movie The Dark Knight, Kim Kardashian West's social media feeds, and the outputs of online role-players in Second Life – in dialogue with a corpus of thirteenth-century Latin biographies, 'Holy Women of Liège'. In these texts, holy women see God, and see God often. Their experiences fundamentally orient their life, and offer the women new routes to knowledge, agency, and belonging. For the holy visionaries of Liège, as with us modern 'seers', visions are physically intimate, ideologically overloaded spaces. Through theoretically informed close readings, Medieval Saints and Modern Screens reveals the interconnection of decidedly 'old' media – medieval textualities – and artefacts of our 'new media' ecology, which all serve as spaces in which altogether human concerns are brought before the contemporary culture's eyes.

Divine Names on the Spot II F Porzia,C Bonnet,2023-09-14 English summary: Names, images, and narratives are intimately related and frequently polysemous. As pieces of information on the gods, they convey fragments of knowledge and attempts to interpret the multifaceted complexity of the divine world. In what Robert Parker describes as an archipelago, images and narratives are like compasses used to approach the mapping of the gods. The different contributions collected in this volume, dealing with the Greek and the Semitic worlds (the two main areas of the Mapping Ancient Polytheisms project), explore connections but also discrepancies between these different semantics, in order to highlight specificities and commonalities in the onomastic and iconographic languages. French description: Les noms, les images et les recits sont intimement lies et volontiers polysemiques. En tant qu'elements d'information sur les dieux, ils vehiculent des fragments de connaissance et constituent autant de tentatives d'interpretation de la complexite multiforme du monde divin. Dans ce que Robert Parker decrit comme un archipel, les images et les recits sont comme des boussoles qui facilitent la cartographie des dieux. Les differentes contributions rassemblees dans ce volume, traitant des mondes grec et semitique (les deux principaux domaines abordes dans le projet Mapping Ancient Polytheisms), explorent les connexions mais aussi les divergences existant entre ces differentes semantiques, afin de mettre en evidence les specificites et les points communs entre langage onomastique et langage iconographique.

The Medieval Latin Hymn Ruth Ellis Messenger,2020-09-28 The first mention of Christian Latin hymns by a known author occurs in the writings of St. Jerome who states that Hilary, Bishop of Poitiers (c. 310-366), a noted author of commentaries and theological works, wrote a Liber Hymnorum. This collection has never been recovered in its entirety. Hilary’s priority as a hymn writer is attested by Isidore of Seville (d. 636) who says: Hilary, however, Bishop of Poitiers in Gaul, a man of unusual eloquence, was the first prominent hymn writer. More important than his prior claim is the motive which actuated him, the defense of the Trinitarian doctrine, to which he was aroused by his controversy with the Arians. A period of four years as an exile in Phrygia for which his theological opponents were responsible, made him familiar with the use of hymns in the oriental church to promote the Arian heresy. Hilary wrested a sword, so to speak, from his adversaries and carried to the west the hymn, now a weapon of the orthodox. His authentic extant hymns, three in number, must have been a part of the Liber Hymnorum. Ante saecula qui manens, “O Thou who dost exist before time,” is a hymn of seventy verses in honor of the Trinity; Fefellit saevam verbum factum te, caro, “The Incarnate Word hath deceived thee (Death)” is an Easter hymn; and Adae carnis gloriosae, “In the person of the Heavenly Adam” is a hymn on the theme of the temptation of Jesus. They are ponderous in style and expression and perhaps too lengthy for congregational use since they were destined to be superseded. In addition to these the hymn Hymnum dicat turba fratrum, “Let your hymn be sung, ye faithful,” has been most persistently associated with Hilary’s name. The earliest text occurs in a seventh century manuscript. It is a metrical version of the life of Jesus in seventy-four lines, written in the same meter as that of Adae carnis gloriosae.
